Re: Change in Ownership for Water Right No(s): 73-192, 73-7041, 73-10055, 73-10056 and Water Right Permit No. 73-12258

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Thanks Mr. Morgan,

We will move forward with processing the notice. Water rights are conveyed with the property sale. IDWR uses the notice, conveyance documents and supporting documents to record the ownership changes. There is no requirement to wait to use the water until the ownership change has been recorded.

Sincerely,

Subject: Bar 4M Ranch, LLC Notice of Change of Water Right Ownership

Mr. Webster: as we spoke on April 19, the following is what I found out regarding Water Right # 73-10056:

1. on page 2 of the attached water right report, you wanted me to inquire with the county assessor regarding the parcel number RP14N22E273002A in the Conditions of Approval, item #3. I assume the parcel referenced is the POU. Per Jacquell L. Bruno, Custer County Assessor, the parcel number is also referenced without the "A" on the end. The "A" means Active. I have attached the scanned county assessor information on the parcel RP14N22E273002.
2. per the maps that go with the water right report (attached), the POD appears to be on State of Idaho land, Lemhi County parcel # RP14N22E270001 (I attached a screen shot of the parcel from Lemhi County assessors office - their maps don't print very good). This parcel is part of Idaho Dept. of Lands Grazing Lease # G8741/G800406. Attached are the lease papers that the Robins received when they obtained the lease in 2009. I am working with the IDL to transfer the lease to the Bar 4M Ranch, LLC. I've attached a map and some information on the grazing lease.
3. I'm not aware of a POD, e.g., any evidence of a well, either hand dug or a metal casing. I do need to double check on the ground for the POD. I suspect with a priority date of 1884, it may be hard to locate. There currently is not any water being provided from this POD to water cattle on the grazing lease land - cattle use the Pahsimeroi River. I also suspect this water right may of been associated with an old homestead as there are many log structures near-by. The POD does not currently provide stock or domestic water to the POU for this water right. The POU is on the west side of the Pahsimeroi River within the 1/4 of the 1/4 section of section 27. I also attached a general map of Section 27 and a map of the POD that I made.

Please let me know if you need any additional information on this water right.

We also spoke of Water Right # 73-12258 which has a permit to appropriate. I am in the process to having a smaller variable speed pump installed on this groundwater well and will comply with the installation of a measuring devise within a straight piece of conduit.

One other question - assuming I meet the requirements of each water right for the ranch, am I able to start using the water for irrigation prior to approval of the change in Water Right Ownership?

Thank you, Dean Morgan. Cell is 208.589.5591
