Subject: Protest, Wisner transfer 82316
Attachments: DOC081.pdf; DOC082.pdf

Denise and Alison –

Attached please find the protest filed by Haeberle today. It is date-stamped and hand-receipted per the Salmon policy for receiving time-sensitive filings. If you need a copy of this policy please let me know.

I will put the original protest, a copy of the receipt and the cashier's check in the mail today. You likely won't receive it until middle of next week, but the protest is still considered timely filed because I received it today. Please receipt on the day you get the check and just note the protest was timely received in Salmon on June 1.

Also attached is a packet of documents including the Purchase and Sales Agreement and Title Insurance Policy. The Haeberle's realtor, Sandra Hill, also noted that at the time the quitclaim was executed there was still a mortgage on the Swiger property. That should be addressed in the Wisner transfer, Part 1.5.c. How was that answered? At this point there is a new mortgage but the question must be addressed relative to the lands where the water is proposed to be removed. Be sure and discuss that with Corey too.
