Subject: question on change of ownership

Darla,

WR# 27-7389

I spoke with Katie Wallace from Idaho Ag Credit (208-785-1510) who has been having a hard time getting the "true" WR owners, Clawson's, to sign the change of ownership form. IAG used to be in the business of placing their name on the WR as collateral but they don't do that anymore. IAG has the quit claim deed from 2014 which they released, relinquished, etc..., their ownership of this right back to the Clawson's.

IAG would like to be removed from this water right.

Can we do this without a signature from the Clawson's?

Thanks,
BR
