This application proposes the diversion and use of water tributary to a federally designated Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because it is for a nonconsumptive use.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right(s), please see www.idwr.idaho.gov. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of the application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise ID 83705 together with a protest fee of \$25.00 for each application on or before 6/25/2018. The protestant must also send a copy of the protest to the applicant.

James,

Do you have a copy of your Well Drillers Report? I will need it to determine your water bearing zone.

Also, your well was drilled under a \$75 domestic permit. Because irrigation is now sought, a \$125 Well upgrade Fee will be required to recognize the well as an irrigation well. Your application proposes four acres of irrigation at 0.24 cfs. The standard the Department will allow is 0.03 per acre which would total 0.12 cfs. The fee required for a proposal of 0.12 cfs is \$100, you paid \$250, meaning an overpayment of \$150 has been submitted. We will transfer \$125 of the overpayment towards the Well Upgrade Fee and any additional overpayment will be reimbursed to you after the application has been processed.

Sincerely,

Rachel Sommer | Water Resource Agent, Senior

Dear Applicant,

The Idaho Department of Water Resources (IDWR) received your Application for Permit on December 18, 2017 and returned it to you on February 7, 2018 as incomplete. On February 20, 2018 IDWR received your amended application and unfortunately additional amendments are needed before processing can continue.

On the attached Proposal Map please identify the four acres of land in which you plan to irrigate and identify the location of the well. Once I receive the map I will prepare an amended application for you to review, sign, and return to me.

Please let me know if you have questions.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on December 18, 2017. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 4-** According to the well log associated with the application for permit the quarter quarters in the legal description should read SENW, the one you provided reads NWNE. Please amended the application to read SENW if that information is correct.
- **Section 14-** The Map does not clearly identify the proposed **point of diversion**. Please label the point of diversion on your map. It appears to be in the SENW.
- **The Signature was not provided correctly.** An original signature is required to complete application.

The original incomplete application is enclosed. Please make the necessary amendments to the original form, **initial and date next to the changes**, and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff
