7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The place of commercial use authorized by this approval includes land upon which wastewater may be applied for irrigation purposes to satisfy water quality requirements. Water diverted under this approval shall not be used for irrigation unless the water is first used in the dairy as authorized by this water right.

Narrative: The Department received this application on April 20, 2018, to lease the entire right to the Bank. An email was sent to Mr. Moyle, current owner, clarifying that the domestic use would be leased to the Bank. Mr. Moyle called on April 25, 2018, to confirm the entire right was to be leased to the Bank. He says there is another well for one of the homes that does not have a water right. The other home was torn down. However, after multiple emails, Mr. Moyle does not want to include the domestic use. The entire rate and volume for the stock and commercial will be leased but the rentable amounts will be limited to 0.42 cfs and 103.6 af. This right was licensed in 2002. This right was originally for a dairy. The Moyle's bought it in 2013 and had a mink farm for a few years. There are water rights owned by the North Side Canal company that overlap these rights, but the applicant says the POU will not receive water from any other source. Forfeiture is not an issue. This right is currently within WD 130. Comments will be solicited.

Subject: FW: Lease of Water Right 36-8418

So now it seems that they don't want to include the domestic rights at all, and just want to lease stock and commercial.

Remington,

We accept this proposal, and want to make sure it includes two homes.

Your wording wasn't clear to me.

We thank you and all the people at the water bank for all your help and patience throughout this process.

Please give me a call if you need to.

Thanks,

Mr. Moyle,

As you and I discussed via phone this morning, in addition to stock and commercial water uses, water right 36-8418 also authorizes the diversion of ground water for domestic uses within two homes. You indicated to me that you would like to keep one of the two domestic uses unleased and available, so that water can continue to be provided to a residence on your property.

Not leasing into the Bank 0.03 cfs and 1.2 afa associated with a single domestic use allows for a lease to the Bank of the following water use elements under water right 36-8418:

water use	rate	vol
stock	0.24	104
commercial	0.32	104
domestic	0.03	1.2
combined limited	0.45	104.8

Please confirm via a response to this email that you do in fact wish to lease into the Bank the stock and commercial water uses, as well domestic use for one home, but that you wish to keep unleased and available for use at your property the second domestic use component of water right 36-8418.

Remington Buyer

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. Narrative: The Department received this application on April 20, 2018, to lease the entire right to the Bank. An email was sent to Mr. Moyle, current owner, clarifying that the domestic use would be leased to the Bank. Mr. Moyle called on April 25, 2018, to confirm the entire right was to be leased to the Bank. He says there is another well for one of the homes that does not have a water right. The other home was torn down. This right was licensed in 2002. This right was originally for a dairy. The Moyle's bought it in 2013 and had a mink farm for a few years. There are water rights owned by the North Side Canal company that overlap these rights, but the applicant says the POU will not receive water from any other source. Forfeiture is not an issue. This right is currently within WD 130. Comments will be solicited.

Subject: Water Supply Lease Application for 36-8418

Mr. Moyle,

The Department received your application to lease water right 36-8418 to the Water Supply Bank (WSB). After the initial review, it was determined that additional information is needed to proceed.

You offered the entire right to be placed in the WSB. Did you want this to include the domestic use, which supplies water to 2 homes, and the stockwater use? Please note, the water has to remain idle and not in use when it is leased to the WSB.

Please let me know if you would like to include the domestic and stockwater uses along with the commercial in the lease within 30 days. If the Department does not hear from you in 30 days, your application will be returned unprocessed. Please contact me if you have any questions. Thank you.
