**Re: Application for Transfer of Water Rights Filed on Behalf of Telford Lands, LLC
and Michael and Shannon Telford.**

Dear Blake:

Enclosed for processing is an *Application for Water Right Transfer* for a number of water rights owned by Telford Lands, LLC and Michael and Shannon Telford. As described in Part 1A.2, the transfer proposes to do three things, which are (1) to stack the water rights to allow the water rights to be diverted from all of the points of diversions currently authorized in various combinations under the water rights; (2) to create a new permissible place of use to add new property that has been purchased by Michael and Shannon Telford; and (3) to authorize the diversion of a new well described in the application. Please note that for two of the water rights included in the transfer, Water Right Nos. 34-2401A and 34-4015, have listed Michael Telford and Shannon Telford as the owners of these water rights in the transfer application itself. That is because just a few days ago we submitted *Notice of Change in Water Right Ownership* for these water rights requesting an update of the ownership in the name of the Telfords. Depending on when you look at the IDWR database, you may see that these water rights are still in the name of Leon and Marlene Folkman.

Based on the Department's fee schedule, we have included the appropriate filing fee of \$2,420.00. If our calculation of this filing fee is incorrect, please let us know.

We have directed this transfer to your attention because you had a meeting with Luke Marchant to briefly discuss modeling of this transfer. You will note that we have included a description of the modeling which is slightly different than what was originally discussed in your meeting. If you have any questions or concerns, please do not hesitate to give me a call.

Best regards,

Robert L. Harris
