TELFORD LANDS LLC TRANSFER

PART 1A.2

This transfer proposes to do three things.

First, this transfer proposes to stack all the Applicant's points of diversion to allow water diverted under all of Applicant's water rights identified in this transfer to be diverted from a combination of those points of diversion. The Applicant purchased property in 2016 formerly owned by Leon Folkman that is located immediately north of property the Applicant already owned. This transfer will include the two water rights associated with the former Folkman property (Water Right Nos. 34-2401A and 34-4015).

Second, this transfer will create a combined permissible place of use for the Telford Lands LLC water rights and the two water rights formerly owned by Folkman. The result will be a 2,223.8-acre place of use, which results in an overall reduction of 33.2 acres under all water rights included in this transfer.

Third, this transfer seeks to add a point of diversion for the construction of a new well on property owned by Marc Hansen. The Applicant has obtained an easement for the construction of this new well.

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Wells and pumps divert either (1) into the Eastside-Island-Munsey Canal System for redirection into private pipelines to place of use; or (2) into private pipelines to the place of use. All wells have measuring devices and lockable controlling works.

- b. Who owns the property at the point(s) of diversion? Marc Hansen for new well; N/A for other existing wells.

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
For the Marc Hansen property, Applicant has obtained an easement for construction of the well. For the existing wells, they have existed for many years and Applicant has transport agreements and other authority in place.

MODELING EXPLANATION

The modeling assumes the most extreme scenario for likely changes in location of pumping, which are that approximately $\frac{2}{3}$ of the pumping is moving north from the Airport Wells to the Island Wells, and approximately $\frac{1}{3}$ is moving south from the Folkman well to the Island Wells.

QUITCLAIM DEED FOR EASEMENT

THIS INDENTURE is made this 6th day of March, 2018, by **Marc T. Hansen aka Marc Hansen and Teena M. Hansen aka Teena Hansen**, (collectively the "Grantor"), and **Telford Lands LLC**, and Idaho Limited Liability Company, whose mailing address is 1450 W. Highway 24, Paul, ID 83347 (the "Grantee").

WITNESSETH:

That the Grantor, for and in consideration of the sum of Ten and No/100 Dollars (\$10.00) lawful money of the United States of America and other good and valuable consideration to Grantor in hand paid by the Grantee, the receipt whereof is hereby acknowledged, does by these presents remise, release and forever quitclaim unto the Grantee, and to Grantee's successors and assigns forever, the following described easement in the County of Butte, State of Idaho, to-wit:

Location: For the location of a well, pump, attendant electrical and other equipment, and a pipeline from the well to the Munsey Canal, all of which shall be located in the SW1/4SW1/4 and SE1/4SW1/4 of Section 26, Township 4N, Range 26E., Boise Meridian (within Butte County Tax Parcel No. RP04N26E268001) on the east side of the Munsey Canal along a majority of the southern boundary of a certain two-acre parcel identified by Butte County as Butte County Tax Parcel No. RP04N26E266010. The location of the easement area is approximately depicted on the map attached hereto as **Exhibit 1**. Once the well and mainline are installed, either Grantor or Grantee may have the final location of the well and pipeline easement surveyed and thereafter described with a metes and bounds legal description. Such survey will be performed at the requesting party's sole cost and expense. The metes and bounds legal description may thereafter be recorded as a correction deed to this easement, but it is understood and agreed by the parties that the substituted metes and bounds legal description shall have no effect on the validity of this easement.

Scope: The easement area is approximately 0.1 acres in size. Once the well is constructed, the scope of the easement shall extend ten feet in all directions from the center point of the well location, and three (3) feet on each side of the centerline of the pipeline (for a total width of six (6) feet) running to the Munsey Canal for installation of the pipeline and any necessary backfill, and shall also include an undefined, but reasonable and necessary, width outside of said six (6) foot width for secondary rights of access for installation, repair, and maintenance

of the well and pipeline as provided for under Idaho Code § 42-1102 and Idaho Code § 42-1204.

Benefitted Party: The easement and all rights and privileges incidental thereto are personal to the Grantee as an easement in gross, and are not appurtenant to any piece of property.

TOGETHER, with the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, and any reversions, any remainders, and rents, issues and profits therefrom.

In construing this *Quitclaim Deed for Easement* and where the context so requires, the singular includes the plural.

IN WITNESS WHEREOF, the Grantor has executed the within instrument on the date set forth below.
