Re: Change in Ownership for Water Right No(s): 71-14, 71-15, 71-17, and 71-18

Dear Water Right Holders:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Re: Pat Furey Notice of Change in Water Right Ownership
Water Right Nos. 71-14, 71-15, 71-17 and 71-18

Dear Kent:

Enclosed is the filing fee and completed notice form to document my ownership of the above water rights, which were conveyed to me by my parents when they gave me the land to which they are appertinent. Because they were originally decreed to my dad (Jack) and his partner Louis Racine and because they later divided these parcels between themselves without filing notices of change with the Department, Louis is still showing as a current owner. Accordingly, I got a water rights quitclaim from his trusts, into which he poured his estate before he died (just as dad did with his). Copies of all of the conveyances are attached to the form, as is an aerial showing the points of diversion and points of use.

As to the points of use, my next (and I think last) project will be to prepare a transfer to fix the incorrectly mapped point of use of 3.4 acres currently shown to the north of the actual property and on Forest Service ground.

Thank you very much for all of your excellent help on these matters and please don't hesitate to give me a call if you have any questions or need anything else from me.. Thanks again.

Very truly yours,

Patrick D. Furey
