Re: Assignments Submitted in 2010

Separate portions of permit 67-7815 were assigned from Howard M. Jones & Cynthia D. Jones to WT Ranch Limited Partnership and Robert C. Roberts & Nancy Rose Roberts via two assignments of permit received 11/5/2010. These assignments were not processed prior to this licensing process. The portions of permit 67-7815 assigned to WT Ranch Limited Partnership and Roberts are not being recommended for licensing. See field exam narrative for details. Two springs are recommended for licensing, both of which are one the portion of permit 67-7815 not assigned by Jones until 2016 when it went into the name of Mark J Thompson & Susan K Thompson Revocable Family Trust. Permit 67-7815 is being split into two rights at licensing, 67-7815 and 67-15191 because two separate systems are recommended for licensing based on development of the permit.
