Candice,

Thanks for your email. I was at that meeting with Justin and he gave me maps for Black Mesa's place of use. No 2017/2018 maps for the Trails' place of use have been shared with IDWR.

Cherie,

Rocky, thinks that Rob Whitney met with Black Mesa and Justin Wooten filled it out for both of them.

Cherie,

Rocky (Walter) and I spoke about this actually last week and I thought he was preparing a map. I've left a message for him.

Thanks

Subject: Terrie and Walter Trail POU Maps WR 2-4021

Candice,

I'm evaluating irrigated acres in Basin 02 for compliance and have a question about Terrie and Walter Trail's place of use for water right 2-4021. I'm contacting you because I see that you filed a transfer on their behalf a couple years ago and may have the maps at your fingertips. Water right 2-4021 has condition 206 that requires the Trails submit a new map any time they change their authorized place of use within their permissible place of use. IDWR has not received a "206 map" since 2016 and it appears they re-located their irrigated acres. What I'm looking for is new 2017 and 2018 maps or confirmation that the 2016 maps were/are still valid for 2017 and 2018 seasons. If I need to contact the Trails directly, please let me know.
