The attached form above is the correct form for you to fill out at this point. You can ask for up to 5 more years on this [last extension allowed](#). Don't worry about the examination at this time. The field examination occurs after you have put the water to actual use and have filed the Statement of Completion form with the Department after which the Department will contact you first to schedule the field exam.

I have been having to take things in stages because of the cost. A couple of years ago I had the well drilled. Last year I had 2 pivot systems put in. When it quits freezing up here, the company who installed the pivot systems will be up to turn it on and program it. So we should be planting pasture shortly after the water gets turned on. Who do I have to have come up and inspect it for the report you want?

If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **9/1/2018**. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for

If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.
