DEPT OF WATER RESOURCES
SOUTHERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCESTransfer No. 81943MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Double Eagle Properties, LLLPCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☒ ☐ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)
- ☐ ☐ #10 Other. Please describe: _____

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Surface water is diverted into an irrigation pond, and then distributed to the irrigated area by pipes. Measurement occurs at the point of diversion. Groundwater is pumped and delivered through the same system. Measurement devices and lockable controlling works will be installed, if required and not already in place.

- b. Who owns the property at the point(s) of diversion? Varies

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
See Attached Table

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☒ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: Lien on portion of the property is held by Northwest Farm Credit.

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

Conditions of Approval:

1. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 140.
2. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversions.
3. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
6. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. X35 Rights 45-2075, 45-2176, 45-2220, 45-2408 and 45-10107 when combined shall not exceed a total diversion rate of 5.06 cfs and the irrigation of 302.0 acres.
8. K04 This right is an expansion of Right Nos. 45-2176, 45-2220 and 45-2408 pursuant to Section 42-1416B, Idaho Code.
9. X35 Rights 45-2176, 45-2220, 45-2408 and 45-10107 when combined shall not exceed a total diversion rate of 4.26 cfs, a total annual maximum diversion volume of 998 af at the field headgate, and the irrigation of 302.0 acres.
10. X27 This right is limited to the irrigation of 52.6 acres within the authorized place of use in a single irrigation season.
11. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

Decreed Date: 6/24/2005

Total Acres: 302

Conditions of Approval:

1. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
2. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversions.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. K03 Right No. 45-10107 is an expansion of this right pursuant to Section 42-1416B, Idaho Code.
5. X27 This right is limited to the irrigation of 71.3 acres within the authorized place of use in a single irrigation season.
6. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
8. X35 Rights 45-2075, 45-2176, 45-2220, 45-2408 and 45-10107 when combined shall not exceed a total diversion rate of 5.06 cfs and the irrigation of 302.0 acres.
9. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
10. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 140.
11. X35 Rights 45-2176, 45-2220, 45-2408 and 45-10107 when combined shall not exceed a total diversion rate of 4.26 cfs, a total annual maximum diversion volume of 998 af at the field headgate, and the irrigation of 302.0 acres.

C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
2. X35 Rights 45-487C, 45-488A, 45-489, 45-490, 45-494, 45-505, 45-506, 45-533, 45-2290, 45-2291, 45-2292, 45-2317, 45-2318, 45-2319, 45-4142 and 45-14464 when combined shall not exceed the irrigation of 1034.7 acres.
3. K06 This right is limited to the irrigation of 189 acres within the place of use described above in a single irrigation season.
4. Use of the rights listed below is limited to a total combined diversion rate of 11.62 cfs and to a total combined annual diversion volume of 3508.4 af. Combined right Nos: 45-2290, 45-2291, 45-2292, 45-2317, 45-2318, 45-2319, 45-4142.
5. Use of the rights listed below is limited to the irrigation of a combined total of 898 acres in a single irrigation season. Combined Right Nos: 45-2290, 45-2291, 45-2292, 45-2317, 45-2318, 45-2319, 45-4142.
6. E55 Use of this right with right no. 45-2317 is limited to the irrigation of a combined total of 364 acres in a single irrigation season.
7. Use of the rights listed below is limited to the irrigation of a combined total of 939 acres in a single irrigation season. Combined right nos.: 45-487C, 45-488A, 45-489, 45-490, 45-494, 45-505, 45-506, 45-533, 45-2290, 45-2291, 45-2292, 45-2317, 45-2318, 45-2319, 45-4142.
8. S04 Use of this right is combined with water from Artesian Irrigation, Inc.

Total Acres: 302

Conditions of Approval:

1. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversions.
2. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
3. X27 This right is limited to the irrigation of 214 acres within the authorized place of use in a single irrigation season.
4. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 140.
5. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
6. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
7. X35 Rights 45-2075, 45-2176, 45-2220, 45-2408 and 45-10107 when combined shall not exceed a total diversion rate of 5.06 cfs and the irrigation of 302.0 acres.
8. X35 Rights 45-2176, 45-2220, 45-2408 and 45-10107 when combined shall not exceed a total diversion rate of 4.26 cfs, a total annual maximum diversion volume of 998 af at the field headgate, and the irrigation of 302.0 acres.
9. K03 Right No. 45-10107 is an expansion of this right pursuant to Section 42-1416B, Idaho Code.
10. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**.

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

To whom it may concern:

I, DON. F. PICKETT, have water rights from Dry Creek located in IDWR Basin 45. I have visited with Darrell Funk regarding his proposed transfer submitted to IDWR to create a Permissible Place of Use for all of Double Eagle Properties water rights, including combining points of diversion along Dry Creek. I don't anticipate any impact of the proposed transfer to the delivery of my water rights from Dry Creek. The existing rotation on Dry Creek has worked in the past and I anticipate that it will continue to function in the future, including the proposed changes by Double Eagle Properties.

I have no objection to the proposed transfer. Furthermore, I would encourage IDWR to process the transfer with this document of evidence that I have reviewed the proposed transfer.

Narrative for Transfer

Double Eagle Properties, LLLP

Brockway Engineering, PLLC

August 28, 2017

The following narrative outlines the purpose behind the proposed transfer for Double Eagle Properties, LLLP. This transfer is filed in response to the recommendation by Tim Luke made to Double Eagles Properties.

Permissible Place of Use

Over the last several years, the applicant has combined water systems throughout the property addressed by this transfer. As such, the applicant can divert water and deliver water throughout the proposed permissible place of use. The applicant wishes to make the entire property one permissible place of use, instead of several different existing PPUs. This will allow the applicant to the maximum flexibility of water delivery throughout the property due to crop rotation and farm management practices. The total PPU area is 2,281 acres. The water rights appurtenant to this transfer authorize the irrigation of 2,025.7 acres.

Groundwater Points of Diversions

The applicant can divert water from any of the wells on the system. Currently, most groundwater rights have multiple points of diversion. The proposed change would add all wells to all groundwater rights. The total volume limitation would still be effect.

New Groundwater Points of Diversion

In conjunction, the applicant would like the flexibility of adding additional PODs for groundwater diversion. The locations of new wells have been identified. One of the proposed PODs is located on property owned by David Funk. There is a signed agreement between the applicant and David Funk included with this transfer.

Dry Creek Points of Diversion

Dry Creek is the surface water source for the farm. There are three points of diversion used by the surface water sources. The applicant wishes to have the flexibility of diverting any of the surface water source from any existing PODs. There are three users that divert from Dry Creek (Pickett, Patterson, and Double Eagle Properties), and they do so on a rotation schedule. Adding potential Points of Diversions to the surface water source is not anticipated to have adverse effects on the other Dry Creek users.

Cold Springs Creek Points of Diversion

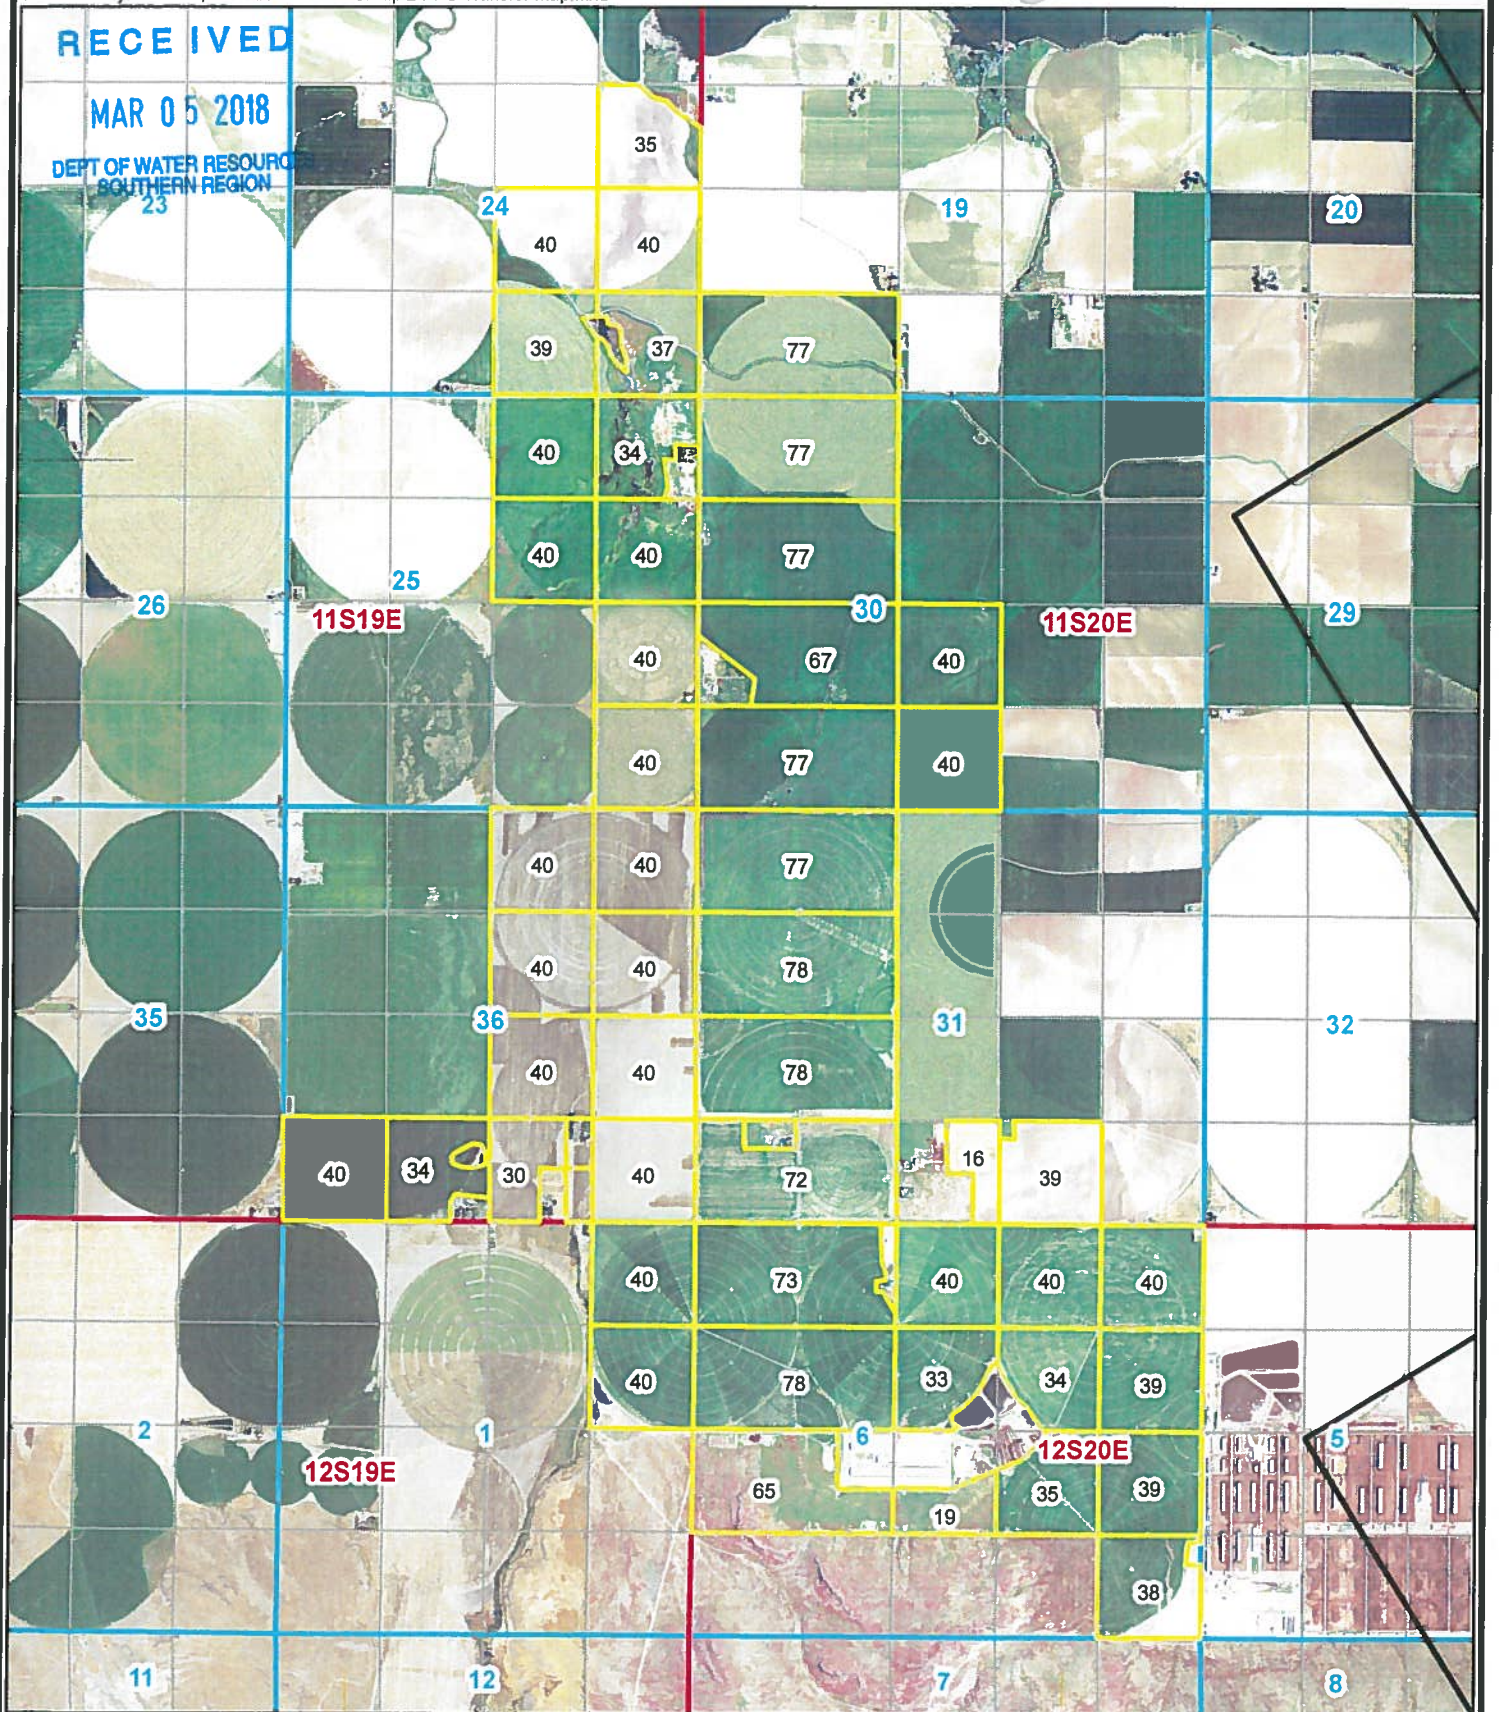

Cold Springs Creek currently does not have a Point of Diversion. But it does have a Point of Injection (into Dry Creek) and a Point of Rediversion. A new Point of Diversion is proposed at the location of the old existing Point of Diversion. This new POD is located on public BLM ground. The applicant is seeking approval from BLM through the Burley office.

Lien Holder Statement of Agreement

Northwest Farm Credit holds security interest in part of the transfer properties. As such, they have included a statement of agreement to the proposed transfer. The other portion of the property does not have a lien.

Highway District Property is SWSW Section 31 T11SR20E

The Murtaugh Highway District held a small piece of property within the SWSW Section 31 T11S R20E that was not included in previous PPU transfers. The highway district has approved the request to vacate the roads, as originally contemplated and released ownership back to Double Eagle Properties. The approval from the Highway District is included.

To Whom It May Concern;

NWFCS does hereby maintain a security interest in the 907 acre Mason Farm (see attached legal description) with the appurtenant water rights. We have been informed of the application by Double Eagle Properties, LLLP (Darrell Funk) that the Mason farm is part of a request to create a Permissible Place of Use in conjunction with a contiguous 1355 acre farm where the new PPU would allow the water rights to be used anywhere on the contiguous properties.

NWFCS does concur with the request as presented. Please feel free to contact me if any issues or concerns should arise.

Thank you,

Dear Brian:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form as necessary, and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the water master, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline
Administrative Assistant

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the **TIMES NEWS on 5/3/2018 and 5/10/2018**. Protests to this application may be submitted for a period ending ten (10) days after the second publication. Any protest against this application must be filed with the Department of Water Resources, together with a protest fee of \$25.00 for each application, on or before **May 21, 2018**.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Maline

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 81943**

DOUBLE EAGLE PROPERTIES LLLP, 3173 N 4900 E, MURTAUGH, ID 83344-5359; has filed Application No. 81943 for changes to the following water rights within CASSIA, TWIN FALLS County(s): Right No(s). 45-10107, 45-13611, 45-13661, 45-14464, 45-2075, 45-2176, 45-2220, 45-2236, 45-2270, 45-2290, 45-2291, 45-2292, 45-2317, 45-2318, 45-2319, 45-2408, 45-4032, 45-4074, 45-4120, 45-4142, 45-480, 45-481, 45-482, 45-483, 45-484, 45-487C, 45-488A, 45-489, 45-490, 45-494, 45-497, 45-505, 45-506, 45-533, 45-7565. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes to create a 2277 acre permissible place of use (PPU) for 15 ground water rights, 17 Dry Creek water rights, one waste water right, one Unnamed Stream water right, and one Cold Springs Creek water right on a farm approximately 2.4 to 6.0 miles south and 1.4 miles west to 1.0 miles east of the City of Murtaugh. The application also proposes to add 10 existing wells plus 3 new wells to be drilled as authorized points of diversion for all of the ground water rights. Four ground water rights will retain an additional currently authorized point of diversion. Two of the proposed new wells to be drilled are within the proposed PPU and one new well to be drilled will be on neighboring land adjacent to the proposed PPU. In addition, the application proposes to add three existing Dry Creek points of diversion as authorized points of diversion for all 17 Dry Creek water rights. The application also proposes to add a new point of diversion located approximately 6.6 miles south and 0.3 miles west of the City of Murtaugh as an additional authorized point of diversion for the Cold Springs Creek water right. All water rights allow for the combined total diversion of 44.837 cfs to be used within the proposed 2277 acre PPU.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 82201**

ISE 555 BROADWAY LLC, PO BOX 267, GALENA, MD 21635; has filed Application No. 82201 for changes to the following water rights within TWIN FALLS County(s): Right No(s). 47-4107A. The purpose of the transfer is to change a portion of the above rights as follows: Applicant proposes changing the point of diversion for 1.2 cfs of groundwater for irrigation from a well located approximately 6.2 miles south and 1.5 miles east of the city center of Hansen to a well to be drilled located approximately 5.9 miles south and 1.4 miles east of the city center of Hansen.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 82247**

IDAHO AGRI INVESTMENTS LLC, PO BOX 418, CHESTERTOWN, MD 21620; has filed Application No. 82247 for changes to the following water rights within TWIN FALLS County(s): Right No(s). 47-7673. The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes adding points of diversion to an 8.02 cfs ground water right used to irrigate 760 acres within a 1505 acre permissible place of use. The transfer proposes adding two additional points of diversion, an existing well and one new well to be drilled. Points of diversion are located approximately 8.3 miles south and 3.4 miles east of the intersection of Center St and Main St in Kimberly.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 82289**

IDA GOLD FARMS LLC, 246 E 300 S, BURLEY, ID 83318; has filed Application No. 82289 for changes to the following water rights within CASSIA County(s): Right No(s). 43-13005, 43-2540B. The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes to add a new point of diversion for two stockwater and commercial ground water rights associated with a CAFO facility. The two ground water rights allow for the diversion of up to 0.47 cfs. The CAFO is located approximately 13.5 to 14.2 miles east and 3.0 to 3.5 miles south of the intersection of Interstate Highways 84 and 86 east of Burley. The proposed new well to be drilled is located within the CAFO facility.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 82302**

DAWN HIGLEY and HEATH HIGLEY, 1971 S 2350 E, MALTA, ID 83342; has filed Application No. 82302 for changes to the following water rights within CASSIA County(s): Right No(s). 43-13031, 43-13041, 43-13691, 43-13693, 43-323B, 43-7048. The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes to modify the place of use (POU) for two ground water and three surface water irrigation rights (6.44 cfs total) which currently irrigate 149.0 acres located approximately 1.3 to 2.0 miles south and 0.3 mile west to 0.5 mile east of Malta. The new place of use will irrigate 149.0 acres in the same general area. The transfer also proposes to change the point of diversion (POD) and POU of a 0.19 cfs (19.0 acre) portion of Cassia Creek right 43-323B. The POU of the split portion of 43-323B will be the same as the modified POU noted above and the POD of the split right will be changed to that of the existing Cassia Creek rights in the transfer, which is located approximately 1.9 miles south and 0.7 mile west of Malta, or approximately 0.25 mile downstream of its present location.

For additional information concerning the property location, contact Southern Region office at (208) 736-3033; or to see a full description of these rights and/or the proposed transfers, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 650 ADDISON AVE W, STE 500, TWIN FALLS, ID 83301-5858 together with a protest fee of \$25.00 for each application on or before **May 21, 2018**. The protestant must also send a copy of the protest to the applicant.

GARY SPACKMAN, Director

TRANSFER SYNOPSIS

Date: April 24, 2018
To: Transfer #81943, Double Eagle Properties LLLP. Transfer file.
From: Benny Walker
Re: Summary of transfer

Application proposes to create a 2277 acre permissible place of use (PPU) for 15 ground water rights, 17 Dry Creek water rights, one waste water right, one Unnamed Stream water right, and one Cold Springs Creek water right on a farm approximately 2.4 to 6.0 miles south and 1.4 miles west to 1.0 miles east of the City of Murtaugh. The application also proposes to add 10 existing wells plus 3 new wells to be drilled as authorized points of diversion for all of the ground water rights. Four ground water rights will retain an additional currently authorized point of diversion. Two of the proposed new wells to be drilled are within the proposed PPU and one new well to be drilled will be on neighboring land adjacent to the proposed PPU. In addition, the application proposes to add three existing Dry Creek points of diversion as authorized points of diversion for all 17 Dry Creek water rights. The application also proposes to add a new point of diversion located approximately 6.6 miles south and 0.3 miles west of the City of Murtaugh as an additional authorized point of diversion for the Cold Springs Creek water right. All water rights allow for the combined total diversion of 44.837 cfs to be used within the proposed 2277 acre PPU.

The place of use involved with the application is located within Water District 140 and 45N so watermaster comments will be solicited.

MEMORANDUM

TO: Transfer #81943 File

FROM: Benny Walker

DATE: April 24, 2018

SUBJECT: Filing Fee

The filing fee of, \$3020.00, for this transfer is based on the amount of water proposed to be transferred or changed, 44.837 cfs. The transfer fee schedule for a transfer involving 19.01-20.00 cfs indicates that the filing fee is \$2020.00. An additional fee of \$40.00 for each additional 1.0 cfs of part thereof over the first 20.0 cfs is required. Therefore the fee for the additional 24.827 cfs is \$1000.00, for a total of \$3020.00. The application also proposes to change the ownership of one of the water rights. This requires an additional fee of \$25.00, for a total of \$3045.00. The applicant's representative submitted a fee of \$3045.00 for this transfer. (Receipts S036341 and S036612).

SOUTHERN REGION

March 2, 2018

Mr. Benny Walker
Idaho Department of Water Resources – Southern Region
650 Addison Avenue West, Suite 500
Twin Falls, Idaho 83301-5858

Re: Double Eagle Properties, LLLP Transfer No. 81943

Dear Mr. Walker,

Double Eagle Properties submitted Transfer No. 81943 to IDWR on September 1, 2017 to combine numerous water rights into a large permissible place of use, as requested by Tim Luke. I received your letter dated January 17, 2018 outlining several questions that you had regarding this transfer. This letter and the enclosed documents should help answer your questions and allow you to continue processing this transfer to advertising. Because the purpose of the transfer application has not changed, and these items are in response to questions that IDWR requested additional information, I did not have the application re-signed.

1. Ownership of water right no. 45-4074

During the sale of property and water rights from Mason Cattle Company to Double Eagle Properties this water right was erroneously left off of the water right list, and should have been included with the change of ownership documents submitted by the Title Company in April 2017. Kurt Mason with Mason Cattle Company, LLC has signed a quitclaim deed of water right no. 45-4074 to Double Eagle Properties. This quitclaim deed can be found under Attachment A. The irrigation portion of this water right is therefore included in Transfer No. 81943. Since this is the only right that requires a change of ownership, we have paid the \$25 fee, but have not checked the box on page 2 on the transfer application, since the other 34 water rights are already in the name of Double Eagle Properties, LLLP.

2. Applicant Ownership of Land

Questions were raised about the ownership of land within the PPU. We have obtained a copy of the county recorded deed. This deed is included as Attachment B. All other deeds and land ownership information has been previously submitted to IDWR with change of ownership documents.

Water Resources

3. Rabo Agrifinance listed as a security interest

Rabo Agrifiance has provided documentation regarding their approval of the proposed transfer. A copy of the letter can be found as Attachment C.

4. BLM Ownership of the proposed POD on Cold Springs Creek

We recognize that the proposed POD from Cold Springs Creek (water right no. 45-533) is on public ground. The applicant has had several meetings with the BLM office in Burley, has applied for permission to reestablish this POD to where it was originally, and the local office is processing authorization for the proposed POD. We respectfully request that the application continue to be processed.

5. Potential impact to water right no. 45-10834

Water right no. 45-10834 was identified as potentially being impacted by the addition of the Cold Springs Creek POD. Water right no. 45-10834 has a 1934 priority date, compared to the 1870 priority date of water right no. 45-533. When 1934 water rights are being delivered from Dry Creek, then this right can be conditioned to ensure that 0.02 cfs is delivered downstream on Cold Springs Creek. The place of use of water right no.

6. Potential impacts to other water right users on Dry Creek

The applicant has visited with all of the Dry Creek users that would potentially be impacted by the proposed transfer. Water right users have acknowledged the transfer and do not oppose the transfer. The signed acknowledgement forms are available as Attachment D.

7. Total transfer flow rate and application fee

With the addition of 45-4074, the combined total authorized cfs under these rights is 44.837 cfs. We have enclosed a check for \$65 to cover the transfer application fee and the change of ownership fee.

8. PPU area

We have revised the PPU shape and updated the acres as requested. This updated PPU shape is in Attachment E.

Subject: RE: Double Eagle Properties, LLLP Transfer #81943

Erick,

We will need a deed for the land in E ½ of section 36 T11S R19E. The Departments taxlot information shows that parcel to be owned by Darrell Funk. The additional fee amount will not change \$40.00.

Thanks, for your efforts to resolve these issues.
Benny

Subject: RE: Double Eagle Properties, LLLP Transfer #81943

Thanks Benny for the clarification email that you sent. That helps.

I had a good visit with Darrel Funk this morning about the items in your letter. Here is a current update.

1. Ownership issues:
 - a. Mr. Funk has talked to Mr. Mason and the exclusion of water right no. 45-4074 was apparently an error by the title company or the attorneys. Mr. Mason will review the quitclaim deed prepared and have that signed and notarized.
 - b. You pointed out that IDWR does not have a deed for the E ½ of section 36 T11S R19E. I checked with the Twin Falls County Parcel Data, and they list that parcel in the name of Double Eagle Properties. Does IDWR still need a deed for this? Or does the County ownership clear this up?
 - c. The agreement between David Funk and Double Eagle Properties only authorizes a well to be drilled and pipeline to be laid on that property. At this point, the land in question is not included in this transfer and the water rights appurtenant to that property are not included with this transfer. At some point in the future, David Funk will sell the property discussed in this agreement to Double Eagle Properties, but this transfer does not consider that action.
2. Rabo AgriFinance issue resolved.
3. BLM protest
 - a. Applicant understands that BLM will likely protest this application.
 - b. Water right no. 45-10834 has a 1934 priority date, Water right no. 45-533 has a 1870 priority date. When 1934 water rights are being delivered, Double Eagle Properties can make sure that 0.02 cfs is delivered downstream on Cold Springs Creek.
4. Shared ditch question
 - a. Mr. Funk will visit with Mr. Pickett and Mr. Patterson regarding potential impact. And hopefully will have a signed agreement with those parties.
5. Correcting Page 3 and updating fee.
 - a. I'm waiting to get the signed and notarized document from item 1, before we proceed with providing an updated page 3. I understand that adding water right 45-4074 will increase the transfer flow rate to 44.873 cfs. But that will not change the transfer fee, correct?
6. PPU defined QQ areas.
 - a. We can adjust the QQ acres as needed to reflect the legal description.

- b. The areas that you identified are currently not being irrigated. But the applicant wishes to have these areas within the PPU if they decide to irrigate in the future. Drain tiles are commonly installed in wet ground to lower the water table and cultivate areas. I would not consider this ground to be unirrigable. If IDWR wishes these areas to be removed, then we would want a condition to be included that these QQs could be added back to the PPU without a transfer and without any processing fees.
7. A 206 map will be provided before the transfer is finalized.

Thanks. I appreciate your help as we work through this transfer.

Subject: RE: Double Eagle Properties, LLLP Transfer #81943

Erick,

The following is the information you requested to help clarify what is needed to continue processing Double Eagle Properties transfer #81934.

Item #1, Concerning the deeds, I have reviewed the deeds currently on file with the Department and was unable to find one for the **E1/2 of Sec 36 11S 19E**. In addition the agreement included with the transfer between, David & Shirleen Funk to Darrell Funk dba Double Eagle Properties does not address if David & Shirleen Funk will allow Darrell Funk/Double Eagle Properties to place his water rights on their property and who will retain ownership of the water rights.

Item #2, Thank you for the consent letter form Rabo AgriFinance.

Item #3, The Department will process the application through to advertising without BLM's authorization to add a point of diversion on their property. However the applicant accepts the responsibility of a potential protest. Also the items pointed out in the letter sent on 1/17/2018 and clarified in this e-mail need to be resolved before advertising.

Item #4, in your narrative you mentioned other users that divert from Dry Creek (Pickett and Patterson) water rights, 45-12588, 45-12896, and Lic. 45-7588. In addition water right 45-10834 is an instream stockwater right that includes the reach of Cold Spring Creek where this proposed diversion is located. Adding this point of diversion on Cold Spring Creek has the potential to impact water right 45-10834.

Item #5, Please send a corrected page 3 to change the cfs to 44.737 (44.74) and submit the additional fee of \$40:00

Item #6, If the entire QQ is to be irrigated and there are no omissions, then the legal acres per QQ should be used.

Additionally, it appears that there may be property within the PPU that is unirrigable. For example, the SESE of Section 24 in T11S R19E, and the NENE and SENE of Section 25 T11S 19E. If this is the case these lands should not be included in the PPU.

Item #7, A 206 map must be submitted before the transfer can be approved.

Thanks,

Benny

Subject: RE: Double Eagle Properties, LLLP Transfer #81943

Hi Benny,

Thanks for sending me the letter – as there are things that obviously need to be addressed. Could you provide me with a bit more information regarding some of these items? I'll go through each one.

1. This is a good question, I'm not sure why water right no. 45-4074 was not included in the sale from Mason Cattle Co. to Double Eagle Properties. I have asked Darrel Funk about that. He is in Florida currently, but is traveling home shortly. I hope to have an answer by the middle of next week.
 - a. All deeds were provided through valid change of ownerships. I would point you to the backfile and the change of ownership documents. The Twin Falls and Cassia County tax parcels show the owner as Double Eagle Properties.
2. I did confirm with Rabo that they do have security interest on these five water rights.
 - a. I have attached the letter of authorization from Rabo.
3. The applicant would like to proceed with advertising the transfer with the Cold Springs Creek pod. However, are you suggesting that IDWR cannot process the transfer without authorization from BLM? There are many examples of water transfers that have been advertised without prior approval. I just want to make sure that we are on the same page. Is this the new standard of IDWR?
4. I'm not sure what shared ditch you are referring to. Can you please clarify what ditch and what users are on that ditch?
5. The total flow rate should be 44.737 cfs and we will provide IDWR with the additional \$40.
6. The PPU QQ were determined by identifying all of the ground that the applicant is irrigating or may wish to irrigate at some future date. The Shapefile was created by trying to follow the directions of PPU in the 2009 IDWR guidance document. The shapefile was then intersected with the QQ shapefile from BLM and the area per QQ were calculated. If there are discrepancies, we can adjust the QQ to the legal acres per QQ, if that is your preference?
7. The 206 map will be submitted to IDWR prior to transfer approval.

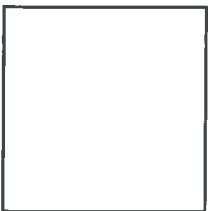

Thanks,
Erick

RE: Double Eagle Properties, LLLP Transfer # 81943

Dear Mr. Powell,

Following up from our recent phone calls and email correspondence, a recent review of the transfer application you submitted to the Idaho Department of Water Resources (Department) on behalf of Double Eagle Properties, LLLP revealed issues and/or incomplete items that are needed for processing. As a result, if the following necessary information is not received within 45 days of the date of this letter the Department will return the application and initiate a refund of the \$2,980.00 filing fee to Brockway Engineering check # 14220 per IDWR receipt S036341.

- The application indicates that the property involved with the transfer is owned by the applicant. Upon review of the tax lot information available to the Department, it is unclear if the applicant owns all land within the proposed permissible place of use (PPU). Therefore, the Department requests copies of deeds or other conveyance documents that demonstrate ownership of the land or documentation that authorizes the changes on behalf of the current owner of the proposed new place of use. Relating to this issue, water right 45-4074 appears to be appurtenant to some of this land in question. It is not clear who owns this right &/or land, or if this right needs to be included in the application.
- Five water rights (45-2075, 45-2220, 45-2408, 45-2176, and 45-10107) list Rabo Agrifinance LLC as a Security Interest. Note if a water right and/or property involved with a transfer application is subject to a lien, deed of trust, mortgage, contract, or other encumbrance, a notarized statement, or a statement on official letterhead, agreeing to the proposed change(s) signed by an authorized representative of the holder of each lien, deed of trust, mortgage, contract, or other encumbrance must be included with the application. Examination of the application file indicates that this authorization was never submitted with the application. Without this authorization, the Department cannot process the application.
- The application proposes a new point of diversion from Cold Spring Creek on Bureau of Land Management (BLM) property. To continue processing the application, the Department will need written authorization from the BLM. Water right 45-10834 is an instream stockwater right that includes the reach of Cold Spring Creek where this proposed diversion is located. Adding this point of diversion on Cold Spring Creek has the potential to impact water right 45-10834.

- The transfer application proposes removing water rights from shared ditches from Dry Creek that carry water for other rights and users. When a water user proposes moving water rights out of a shared ditch, injury can result from requiring the remaining water rights to overcome all of the conveyance losses in the ditch. In the past, this injury has been mitigated by the applicant providing an analysis of conveyance losses in the ditch and a proposal to leave a certain percentage of rights to be delivered into the ditch after the proposed change. As an alternative, some applicants have provided written permission/agreement from all of the other users on the shared ditch indicating their agreement with the proposed change without mitigation.
- During the review of the water rights listed in the application, it has been determined that the total authorized cfs under these rights may be 44.737. Please review and verify the total cfs proposed to be transferred. If 44.737 cfs is correct, then an additional \$40.00 is needed for the transfer fee as well as authorization to correct the application to 44.737 cfs or a corrected page 3. If not, please clarify how the total transfer rate was calculated.
- It is unclear how the PPU acres per quarter quarter were derived. For example, Lot 3 of Section 31 in T11S R20E is 78 acres, yet the application indicates that 75 acres will be included in the proposed PPU. If the acres within each quarter quarter of the PPU do not match the legal acreage, please clearly indicate which acres are to be excluded from the proposed PPU. Additionally, it appears that there may be property within the PPU that is unirrigable. For example, the SESE of Section 24 in T11S R19E, and the NENE and SENE of Section 25 T11S 19E. I have included a copy of a 2009 IDWR guidance letter relating to permissible places of use for your reference. Please note the guidance in the third paragraph of the second page of the letter relating to the "exclusion of lands that will not be irrigated in the foreseeable future due to water features, land with excessive slope, roadways and parking lots, or other obstacles that would prevent irrigation." The Department requests that the proposed irrigation permissible place of use be modified to exclude such lands. Please note that the examples provided in this paragraph are not the only lands having these issues within the proposed PPU.
- Lastly, a "206" map will need to be submitted for this transfer showing the acres that will be irrigated within the proposed PPU.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

Benny Walker

Hi Benny,

Just wanted to give you an update. Rabo is looking into the water rights, and having their appraiser looking at this as well. I haven't heard back from them yet, but as soon as I do, I will let you know.

Thanks,
Erick

Erick,

During the review of the combined limits of the water rights associated with transfer #81943, a discrepancy was discovered. As a result of our review it was discovered that the total flow rate to be transferred should be 44.737 cfs. This is an additional flow of 0.85 cfs above the 43.887 cfs identified in the transfer. This amount is the same as water right 45-2270. Please review and verify the total cfs available for this transfer. If the 44.737 cfs is correct, then an additional \$40.00 is needed for the transfer fee, and authorization to correct the application to 44.737 cfs. The corrections need to be submitted by tomorrow morning in order to meet the advertising deadline. If you have any question please feel free to contact me.

Sincerely,

Re: Double Eagle Properties, LLLP Water Right Transfer

Dear Mr. Skinner:

Double Eagle Properties, LLLP has been requested by Tim Luke to review and transfer water rights, as necessary, to reflect actual use of water on the farm. The enclosed transfer proposes to transfer water to reflect how the farm currently operates, including creating a PPU and adding PODs; in addition the transfer seeks to create new PODs on a few water rights.

The transfer fee of 2980 is included with this transfer. If you have questions, please do not hesitate to contact me.

Sincerely,

G. Erick Powell, Ph.D., P.E.

enclosed
