RE: Water Right No. 13-4089

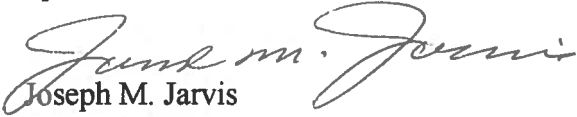

For The Files

I aquired this water right in 2006

In 2013, 2014, 2015, 2016 and 2017 it was used to irrigate two orchards, two berry patches, and a one acre garden.

In 2018 it will be used for the same purpose. Additional acreage will be developed to grow grapes and berries that will also require irrigation.

In these five years of use, the flow at the point of diversion has neither been enhanced or depleted by upstream diversions or use.
