Shaun, Here is a copy of the letter to Doug Jones, as well as the explanatory doc for item 12 on the app. I'll complete the app right away & get it back to you with the \$\$.

Thanks, Caroline Schmidt, Tillakum I Assn

Tillakum I Assn condominiums were completed in 1978 on property that had been the Perl Smith Resort. The project was filed and permitted as a sixteen-unit condominium project. After the nine-unit building of Tillakum I was completed and units were sold the declarant decided he did not want to build Tillakum II with the remaining seven units. After some friction and uncertainty the property was divided in half with Tillakum I Assn becoming the deeded owner of the half of the property occupied by the nine unit Tillakum I condominium building.

The water supply for the entire property was on the northern half, which after the division of the property Tillakum I only had access to through an easement that was part of the division documents. In 2000 the northern half of the property was purchased by another individual, Allan Songstad. While Allen has been mostly cooperative with Tillakum I Association, recently the relationship has become less amenable. The reason for this is the condition and maintenance of the jointly-owned well which is on Mr. Songstad's property. While Tillakum I Association has easements covering access to and use of the well, they are somewhat meaningless as decisions about maintenance have to be negotiated with Mr. Songstad. To simplify the current situation, the well pump has not been replaced for 17 years, far beyond its reliable lifespan. Additionally the well is producing significant amounts of debris in the last 5 years. Most condominium owners have installed filters to compensate for this.

Tillakum I is a nine-family condominium building that is used year round by most of its owners. A reliable water source with no uncertainty about it is essential. The Granite Creek aquifer that currently provides water to Tillakum I's existing shared well is a very plentiful source and is essentially infinite relative to the amount of demand that will ever happen in the area surrounding Tillakum I. Therefore Tillakum I would like to acquire water rights that will allow it to drill its own well on the Association's own property

Please accept this letter as our request for a one month extension on our water rights application which was originally sent on 2/15/18. Due to my misunderstanding of the required fee & some of the information required on the application, I was not able to return the corrected application by 3/31/18.

With the help of Shaun Maxey, I will be able to return to form shortly & correctly.

Thank you for your understanding.

Re: Application for Permit (Bonner parcel RP0021C00001A0A) (Rule 35 Application Requirements))

Dear Applicant:

Idaho Department of Water Resources (IDWR) received an Application for Permit from you on February 26, 2018 on behalf of the Tillakum I Association to divert water from a well for a Bonner County tax parcel. The Application is incomplete and unacceptable for filing because no filing fee was received with the Application. The Application map also does not have Township, Range and Section information that agrees with lines 4 and 9 of the Application. The incomplete Application and a color replacement IDWR map are enclosed.

Please review the IDWR map and phone me at (208) 762.2816 for assistance to correct your Application and complete the following steps:

- Submit filing fee (\$100 with Application).
- Attach & label IDWR map matching legal descriptions on Line 4 & Line 9.
- Contact Idaho Department of Environmental Quality / Panhandle Health.
- Confirm if a surface water Application is required.
- Obtain updated Idaho Secretary of State Identification.

Please telephone me about your Application. Your **corrections must be received no later than March 31, 2018**. IDWR will take steps to terminate your Application, if no response is received, in accordance with Idaho Code § 42-204.

Respectfully,

Shaun M. Maxey
