

MEMORANDUM

TO: Water Right file 65-23703
FROM: Patrick Kelly
DATE: 2/15/2018
SUBJECT: Advertising application

A resolution of the protest of application for permit 65-23703 requires Bogus Basin to record and report monthly volumes. The application was amended to describe the correct nature of use, and identify the SWSW of Section 16. Since changes to the application do not reflect an increase in the amount of water being applied for, and a resolution sought between the single protestor and the applicant, the application will not be re-advertised.
