RE: Change of Ownership for Water Right Nos. – See Attached List
Split of Water Right 43-10452 (Split into 43-10452/Kunau & 43-13747/Red Rock Farms)

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right(s). The department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records except on 43-7221.

43-7221 is an Application of Permit on hold due to the drought moratorium. An application for permit is considered personal property and as such requires the owner of record to assign his or her interest to the new owner. I have enclosed an Assignment of Application for Permit for your use. There is no fee for the assignment; consequently, you are due a \$25 refund which has been requested from the state controller's office and will arrive under separate cover within the next few weeks.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Also, please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Trish Fawcett
