ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

WATER SUPPLY BANK LEASE CONTRACT No. 735

10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 95A.
13. This right does not grant any right-of-way or easement across the land of another.
14. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Palouse OR Coeur d'Alene-Spokane OR Clark Fork-Pend Oreille River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
15. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
16. Leased portions of Rights 95-467 and 95-467A are limited to irrigation of 1146.8 acres within the boundary of Dalton Gardens Irrigation District pursuant to Section 43-323, Idaho Code.

Application for both request 1146.8 ac leased to the bank; however, the cfs for 95-467 was calculated incorrectly on the application, should be 11.45 cfs. The POU will continue to receive water from their other water rights, not yet grown into. The validity of the water right and acceptance initially into the bank can be seen in Shelley Keen's memo dated May 2012. Additionally: Claimed in CSRBA, AJ recommendation to court set for spring/fall of 2018; Recommend condition on rental limited to amount determined by recommendation/final decree. Within State Water District 95A (inactive); POU Irrigation overlap - Idaho Forest Industries - 95-2152B - 51N03W sec 25 NW Q; No additional issues or comments

I didn't. Let's just go with the last version of the condition in which Pam listed all three basin adjudications individually.

Remington,

Have you heard back from Carter about this?

Carter,

We've received a lease proposal from Dalton Gardens Irrigation District. A question has arisen regarding how to best condition their lease in light of the NIA adjudication recommendation that may soon receive a partial decree. Please see the condition texts below attempted by Mary, myself and Pam. What makes the most sense to you in terms of conditioning this NIA water right lease?

Thanks,

Remington

Remington,

Conditions 233-235 were drafted for NIA rights depending on basin, but have not been activated for use. The language related to the court was the question. You might want to check with Carter to

see what is correct identification of the court. It seems that the Idaho Water Adjudications in Twin Falls lists the separate NIA titles also.

Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the **Palouse OR Coeur d'Alene-Spokane OR Clark Fork-Pend Orielle** River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

Otherwise your edits to show the Bank & leased portions looks ok except for the orphaned code.

Yeah, that language looks good. Perhaps something such as the following might suffice:

The water right elements leased to the Bank are subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court through the Northern Idaho Adjudication process, at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

CC'ing Pam here for input on potential conditional language.

Remington,

This is the only condition I could find. It is listed on the water right proof report.

C18	General	This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Mary,

The recommendation is going out in the preliminary director's report next week so you can look at that to get all the information you need. So barring any errors or complaints from the claimant that will be what is recommended to the court later in the year.

Thanks for the inquiry,
Chad

Chad,

I am reviewing a lease proposal in Basin 95, which currently has a claim in the CSRBA, equal to the current water right. Per Pam Skaggs' direction, I am inquiring whether or not WR's 95-00467 and -00467A will be recommended to the court as claimed.

We don't want to bring in the rights, if they will be reduced.

Thank you in advance,

Re: Request to Lease 95-467 & 95-467a to the Water Bank

Gentlemen:

Enclosed are applications to renew the lease of water rights 95-467 & 95-467a to the Water Resource Board water bank. Bob Haynes of Idaho Water Engineering is the authorized representative for Dalton Gardens Irrigation District for these applications.

Item 3 (Map) asked for delineation of acres not irrigated. This is not possible because of the circumstances of the district's acquisition of these rights. These rights were purchased from the Hayden Lake Irrigation District for the purpose of allowing expansion of the irrigated acreage in our district. The rights were then placed in the water bank. As we have added irrigated acres in the district, the number of acres offered to the bank has been reduced.

Enclosed is payment of \$500.00 dollars for the renewal of the leases.

Thank you for your consideration.

Sincerely,

Paul Montreuil
Chairman, Dalton Gardens Irrigation District
