

IDAHO DEPARTMENT OF WATER RESOURCES
Water Right 63-144A

4/12/2018

3. This right authorizes an annual diversion volume of 144.3 af for replacement for evaporation losses from aesthetic ponds authorized under Right 63-32229.
4. R61 This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
5. Within any 24-hour period, rediversion from the pond(s) for irrigation purposes shall not exceed the total volume of water delivered to the pond from the Boise River for irrigation purposes pursuant to this right within the same 24-hour period.
6. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
7. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
8. Prior to diversion and use of water for irrigation purposes under this right, the right holder shall install a totalizing measuring device of a type approved by the department on the system for redverting water from the pond(s) for irrigation. The measuring device shall be read and recorded on a daily basis and the right holder must record and maintain records of all irrigation diversions from the ponds identifying the amount of water diverted by date and the total annual volume. These records must be made available for inspection by the department upon request. Each annual record must be maintained for a minimum of 10 years.
9. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide for the delivery of water through the Coast 2 Coast Subdivision to other users of the common conveyance system.
10. S45 Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoirs dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.
11. 155 This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.
12. X59 Place of use is the Coast 2 Coast Subdivision.
13. SD1 This right originated as all or part of right no. 12 in the Stewart Decree and the historic Boise River Water Masters records.
14. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
