ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Prior to the diversion and use of water under Transfer approval 78215, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
13. The unleased portions of water rights 37-20901 & 37-22681 when combined shall not exceed a total diversion rate of 0.10 cfs, a total annual maximum diversion volume of 37.0 af at the field headgate, and the irrigation of 10.6 acres.
14. The unleased portion of water right 37-22681 shall not exceed 0.05 cfs, 19.2 af and 5.5 acres.
15. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.

- B. Please provide a description of the current water diversion and delivery system.

Three wells pump into a common mainline that gravity flows into a pond. An irrigation pump diverts from the pond into a pressurized sprinkler system.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. Permit 37-8157 is used with the portion of 37-22681 that is NOT being offered to the bank.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. Records for WD37 show in combination rights 37-20901 and 37-22681 diverted 22.63 acre feet in 2015 and 15.62 acre feet in 2016.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☒ No ☐

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed. Water right was partially decreed in 2010. According to IDWR Administrative Memo dated March 5, 2012, titled Forfeiture Review Period, applicant has until December 31, 2016 to file a WSB Lease Application before having to address potential forfeiture due to non-use.

RE: WATER SUPPLY BANK LEASE CONTRACTS FOR WATER RIGHTS 37-20901 and 37-22681

Dear Lessor:

Water rights **37-20901 and 37-22681** were leased into the Water Supply Bank (Bank) as of December 28, 2016, in accordance with the enclosed executed lease contracts. **Your water rights, as described on the lease contracts, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contracts. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2020**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contracts upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

for Water Supply Bank

RE: APPLICATIONS TO LEASE WATER RIGHT 37-8157, 37-20901 & 37-22681 TO THE WATER SUPPLY BANK

****TIME SENSITIVE RESPONSE REQUIRED****

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed two of each original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2020**, unless the rights are released earlier by the Board, or upon your request. To release the rights from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

Pursuant to Water Supply Bank Rules 025.06.d, one of the criteria of the Water Resource Board to accept water rights into the Bank is whether the offering price or requested rental rate is reasonable. The rental rate during the 2016-2017 season was \$17.00 per acre foot. The rental rate for 2018-2022 is \$20.00 per acre foot. Unless you have a private agreement with a renter, the Department does not see a reason why leases should be accepted into the Bank at a rental rate other than the current rental rate.

However, you may provide justification of the rental rate you are requesting in your lease applications and the Department will determine if your request is reasonable.

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

for Water Supply Bank
