RE: Notice of Proposed Change in Water Right Ownership – Taylor Canal Company

On July 28, 2017, Taylor Canal Company, Inc. ("TCC") filed a Notice of Change in Water Right Ownership, seeking to update the ownership records for twenty water rights in the Thomas Fork Valley. All of the water rights were described in the 1902 decree for the Thomas Fork (*Fawsett et al. v. Thomas Fork Irrigation and Canal Co. et al.*). The authorized point of diversion for all of these water rights was identified as the Taylor Brothers Canal. The enclosed maps show the irrigation places of use for the twenty water rights, as described in the 1902 decree.

This letter is being sent to the owners of properties located within the area highlighted in yellow on the enclosed map. This letter is also being sent to the owners of properties in Idaho located between the Taylor Canal and the Thomas Fork channel. IDWR obtained contact information for property owners from taxlot data periodically provided by Bear Lake County (updated 4/2017). If you are receiving this notice, you likely own property within the authorized place of use for one or more of the twenty water rights described above or own property between the Taylor Canal and the Thomas Fork channel.

Enclosed is a copy of the Notice of Change in Water Right Ownership filed by TCC along with all of the supporting documents, including Articles of Incorporation, meeting minutes and ledgers of stock from 1909 and 1910, documenting the creation of the company.

If the water right records are updated as proposed, TCC will become the sole owner of record for all twenty water rights. It is anticipated that TCC would thereafter file an application for transfer to update its service area to encompass all of the acres currently being irrigated by its shareholders.

If you believe the ownership changes proposed by TCC are in error, or if you wish to assert an ownership interest in any of the water rights, please contact me on or before **September 22, 2017**. Any person asserting an ownership interest in any of the water rights must be prepared to trace their property ownership back to the current owner of record for the right in question and be prepared to demonstrate continuous use of the water right.

Sincerely,

James Cefalo
