Shelley – Would you please forward this photo to appropriate staff?

The photo shows the location of the point of diversion shape for water right 63-32337 on land owned by the LDS church. The actual well house is located on a parcel owned by the City of Nampa indicated by the yellow arrow. I am the consultant for both the City of Nampa and the LDS church in Idaho. The Church requests the correction to prevent confusion as they market and sell the field north of their meetinghouse (where a City well currently appears to be constructed). This action does not require a transfer application, just a shapefile shift.

Hope things are going well for you.

Roxanne
