RE: Updating Records to Match Decrees

During a meeting with Carl Phillips, the owner of water rights 35-2078, 35-2104B, 35-2726 and 35-12344, I discovered that the Department's water right records did not match the partial decrees for those water rights. The SRBA partial decrees were issued on February 15, 2002 and described a combined place of use of 316 acres. The Department's water right records described a combined place of use of 298 acres.

On May 13, 1996, the Department approved Transfer 4413, which created a 298-acre combined place of use for water rights 35-2078, 35-2104B, 35-2726 and 35-12344. Claims for all four water rights were pending before the SRBA Court at that time. The SRBA Court should have been notified of the transfer approval and the claims amended to reflect the 298-acre combined place of use. It is not clear whether the SRBA Court was notified of the transfer approval or if the claims were amended to reflect the transfer approval.

The Director's Report for water rights 35-2078, 35-2104B, 35-2726 and 35-12344 all described a 316-acre combined place of use. Partial decrees were issued consistent with the Director's Reports. Even though the places of use are inconsistent with Transfer 4413, the Department will recognize the water right elements listed in the partial decrees. I updated the Department's water right database to match the partial decrees.

It should be noted that water rights 35-2078, 35-2104B and 35-2726 include individual rate and acre limits based on previous licenses. The individual rate and acre limits listed on the partial decrees for those rights are consistent with the original licenses. Water right 35-12344 is an enlargement right intended to cover irrigated acres added after the license was issued for water right 35-2726. Instead of an enlargement of 73 acres (based on a combined place of use of 298 acres), the partial decree for water right 35-12344 describes an enlargement of 91 acres (based on a combined place of use of 316 acres). Therefore, updating the Department's records to match the partial decrees ultimately results in changing an enlargement right from 73 acres to 91 acres.

Right Acre Limit: 65.0

POU Total Acres: 316.0

Conditions of Approval:

1. K06 This right is limited to the irrigation of 65 acres within the place of use described above in a single irrigation season.
2. E61 The rights listed below are limited to a total combined diversion rate of 4.50 cfs and to a total combined annual diversion volume of 1264 AF. Combined Right Nos.: 35-2078, 35-2104B, 35-2726 and 35-12344.
3. E56 The rights listed below are limited to the irrigation of a combined total of 316 acres in a single irrigation season. Combined Right Nos.: 35-2078, 35-2104B, 35-2726 and 35-12344.
4. K01 Right No. 35-12344 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
5. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
6. F06 The following rights are diverted through point(s) of diversion described above: 35-2078, 35-2104B, 35-2726 and 35-12344.
7. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
