Re: Water Right Permits: 37-8220, 37-8686 and 37-8831

Dear Permit Holders:

The Department of Water Resources sent you three Applications for Amendment forms on February 28, 2018, for the above referenced Permits. The amendment is required because the field examiner who verified the water use established in connection with your permit reported that one or more elements of your water use differs from the permit. As of this date the Department has not received a response. The enclosed amendments include changes made after February 28.

If I do not receive the amendment within fourteen (14) days, your Water Right License will be issued for less than could have been allowed. In case the amendment forms I sent you has been misplaced, I enclosed each of the forms.

The enclosed Applications for Amendment forms depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with the \$300.00, \$100 for each Amendment, filing fee by **April 6, 2018**.

If you have any questions please contact me at (208)287-4881 or at sandra.thiel@idwr.idaho.gov.

Sincerely,

Sandra Thiel
Sr. Water Resource Agent
