Subject: RE: PBU for 37-22545

Michele,

On August 24, 2017 I sent you a letter requesting permission to submit Proof of Beneficial Use for Permit 37-22545 prior to the proof due date of October 1, 2020. However, given the recent experience licensing Permit 37-22815, I would like to withdraw this request and maintain the Proof of Beneficial Use date of October 1, 2020. This will allow the District to continue collecting production data. However, in the letter I described groundwater-level monitoring results and showed the minimal impact associated with the injection of heating/cooling water on local groundwater levels. Given this finding, might it be possible for you to review these data and potentially truncate groundwater-level monitoring requirements?

In advance, thank you for your consideration.

Christian

Subject: PBU for 37-22545

Michele,

Please see attached letter requesting permission to submit proof of beneficial use for Permit 37-22545. In advance, thank you for your consideration. Please call me on my cell phone (208-869-4569) if you have any questions.

Regards,
Christian
