Re: Change in Water Right Ownership: 65-4486 A (Split into 65-4486 A and **65-23759**)

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Sincerely,

Jean Hersley

Subject: Applications for Permit (2), Application for Transfer, Notice of Change in Water Right Ownership

Dear Angie,

Enclosed on behalf of Lone Pine Farms Canyon County LLC, are the following:

- ✓ *Application for Permit* seeking to divert the standard amount of volume for irrigation 20 acres decreed under water right 65-4487 from ground water. (Filing fee \$250)
- ✓ *Application for Permit* seeking to divert the standard amount of volume for irrigation of 84 acres decreed under water right 65-4983 from Big Willow Creek. (Filing fee \$330)

✓ The irrigation volume claimed and decreed in the SRBA for water rights 65-4487 and 65-4983 limits irrigation use to the same volume associated with each right's stockwater use. The applications are being filed to correct the errors. The Payette River watermaster confirmed the applications should not be made subject to the June 15th rental pool water condition since the subject places of use are located in a gaining reach of the Payette River, downstream of Letha, Idaho.

- ✓ *Application for Transfer* requesting the upstream diversion point on Big Willow Creek for water right 65-4983 be changed to a downstream location within the applicant's property boundary. (Filing fee \$660)
- ✓ *Notice of Change in Water Right Ownership* for a portion of water right 65-4486A appurtenant to lands the applicant has purchased. (Filing fee \$100)

March 12, 2018

Check No. 20450 for \$1,340 is enclosed for the filing fees. Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Lori Graves".
