1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water right 37-4343 is limited to the irrigation of 115 acres within the place of use described above in a single irrigation season.

Pat Bennet Water Usage 2014 - 2017

To: Lori Graves; Scott King

 You replied to this message on 1/5/2018 6:42 PM.

Lori,

As per your phone call about Pat Bennett water usage as recorded on my official watermaster reports. You can see my official watermaster reports on the IDWR website under WD 37B but I looked them up at here they are.

Water Rights 37-2144, 37-4343, 37-4359

2014 was 75 days

2015 was 21 days

2016 was 177 days

2017 was 155 days

I need to reiterate to you that the West side of my district was not required to measure surface water until the spring of 2018 so Pat Bennett was in compliance 2014 - 2017 and irrigated each of those years with all three of those rights. That order can also be viewed in the WD 37B files and it was dated 10/19/15. Let me know if you need anything else.

Thank you

Rusty Kramer - Water Master
