STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
STATEMENT OF COMPLETION
FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY
Amt. of Fee \$: 50.00
Receipt No. C104796
Receipt By: TK
Date Received: 3-16-18

The Idaho Department of Water Resources considers this form a statement by the permit holder(s) that development of a water right has been completed and that water has been applied to beneficial use to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner.** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, please contact any Department office or visit the Department's website at: www.idwr.idaho.gov for an Assignment of Permit form. If you wish to relinquish your permit because you have not established the authorized use of the water and are not applying for an extension, please notify the Department in writing.

- Permit No.: 96-09376 Telephone No.: 208-304-3303
- Name of Permit Holder(s): SUSEN FAY
- Mailing Address: P.O. Box 25 City: KOOTENAI
State: ID Zip: 83840 Email: susendfay@gmail.com
- Source of Water: _____ If **GROUND WATER** (well), Date Drilled: mo. 5 / yr. 2007
Well Driller: BOB PITTS and SONS Drilling Permit Number: DD053641
- Extent of use(s) completed (as authorized by the water right permit):
Domestic (No. of households): 1 HOME Stockwater (No. and type of stock): 3 HORSES
Irrigation (No. of acres): 5 Other: _____
- Total rate of diversion or storage volume for which proof is submitted: 0.19 cfs OR _____ acre-feet.
- Compliance with a measuring device requirement, lockable controlling device requirement, and/or other conditions of permit: **Refer to the approval conditions on your permit and respond accordingly. The Department will not issue a license if permit conditions are not met.**

Measuring Device: Is a measuring device required?

If yes, has the measuring device been installed?

Yes ☐ No ☒
Yes ☐ No ☐

Lockable Controlling Device: Is a lockable device required to control the diversion?

If yes, has the lockable device been installed?

Yes ☐ No ☒
Yes ☐ No ☐

Other Conditions of Permit: Do the approval conditions on your permit require you to submit additional information in connection with your proof of beneficial use? If yes, list the conditions below and attach documents with the required information.

Completed?

Yes ☐ No ☒

- Fee Enclosed: \$ 50 See fee schedule on back of the instructions for filing proof of beneficial use. Proofs filed without an appropriate fee, will be considered incomplete.

- Person to contact to accompany the Department representative during field examination of the water system.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 96-9376

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist

MEMORANDUM

TO: Water Right Permit File 96-93767

FROM: Daniel A. Nelson

DATE: March 19, 2018

SUBJECT: An On-Sight Field Exam Should be done for this Permit.

This permit was scheduled for an in-house field examination. However, after reviewing the aerial photography, I could not determine if actual irrigation has occurred. There are a couple of field areas that appear to have been cleared for irrigation, but none of them actually look to have been consistently irrigated. An on-sight field exam should provide the information needed to determine what is actually being irrigated.

The aerial photos also show that 2-3 ponds were developed on the property. These ponds are not in the aerial photos prior to 2009. It appears as though these ponds are not natural ponds, and should have a water right associated with them. The on-sight field exam will also allow the field examiner to communicate with the permit holder that a water right may be required for the 2-3 ponds, and to provide the permit holder with the necessary paperwork to file a water right for the ponds. The on-sight field examiner could also document the use of the ponds for a possible Notice of Violation if a water right is not acquired.
