Dear Cody Parker:

Water Right 63-170C

The LDS Chapel located at 6650 North Meridian Road in Meridian, Idaho, has been determined to be fully utilizing water right 63-170C via the Zinger pressurized lateral from Settlers Irrigation District. This was determined by our Facility Manager, Mark Hawk, who was able to determine, through investigation, the source of the water located at the site.

It had been previously assumed that the water taps located on the site were culinary and hence, we had submitted an application for an Extension of Time to utilize water right 63-170C. But through calls to the city and local irrigation districts we were able to determine the source of water was as described above.

We would therefore like to withdraw the application and request a refund for the fee we submitted.

Respectfully,

Matthew P. Davidson, PE
