1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

WATER SUPPLY BANK LEASE CONTRACT NO. 770

10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Narrative: An application to lease water right 63-33384 to the WSB was received on February 14, 2018. The applicant wishes to place the entire right in the Bank. The parent of this right was decreed in 2009 and this right has been in the Bank since 2015. The right is not subject to forfeiture. Satellite imagery was used to verify that the land was idled last year while it was leased to the WSB. (Note that when this right was split from the parent right 63-32921, the new right was given 20 acres in the NESE quarter quarter of Section 15, T2N, R3W and 5 acres in the SESE quarter quarter of the same section, township, and range. The current GIS shape file is not accurate for this description as it shows 20 acres in the SESE quarter quarter.) The water right is not appurtenant to the land. Allen Noble, President of Farm Develop Corp, signed the application and is authorized to sign on behalf of the corporation as the owner of the water right. There are no overlapping POU's. POD overlaps exist with water rights 63-3599B, 63-32921, 63-32922 and 63-33383. This right is not currently within a WD; however it is located within the South Canyon County Groundwater Concern Area.

Rachael,

Good morning! No local area concerns come to mind for this lease. However, it might be helpful to note that the right falls within the South Canyon Co ground water concern area so this right would be a good candidate for rental requests in the same geographic area. Thank you for the opportunity to comment.

Angie

Hello John,

I am writing to you to request Lease confirmation dates for W/R 63-33384 for Farm Development Corp.

The application date reads 3/1 – 12/31 – which could be their seasonal dates, however we need the year(s) that Farm Development Corp would like their Water Right leased into the Water Supply Bank.

Once we have the Lease Application Date (years) this lease is intended to be in the bank, we can move forward with processing the Lease Application.
