RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
4. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
5. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
6. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date. This rental for mitigation by non use may be ineffective if the mitigating water right is not in priority.
7. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
8. Prior to diversion and use of water under this approval, the renter shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
9. Upon specific notification of the Department, the renter shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

10. This rental agreement does not authorize the construction of a well.
11. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
12. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
13. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
14. The following right is diverted through the points of diversion described above: 29-8126
15. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
16. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
17. Right 29-14000 is based upon an enlargement of right 29-11278 pursuant to Section 42-1426, Idaho Code.
18. Right 29-14000 is subordinate to all water rights with a priority date earlier than April 12, 1994 that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)

29-14000	Industrial	0.11	16.7			0.06	3.6	0.9
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.33	74.4	18.6
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

Proposed rental volume is based on 4.0 acre feet per acre.

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☒ No ☐

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Proposed rental volume is based on 4.0 acre feet per acre. Stock and Industrial water right is 100% consumptive.

Irrigation water is not 100% consumptive and the full 74.4 afa will not be pumped.

Exhibit A

LICENSE AGREEMENT

**Brady Substation Lands
Falls View Cemetery Irrigation Pump Station**

License No. 582

This License Agreement ("License Agreement") is entered into as of this 7th day of April, 2017 ("Effective Date"), between Idaho Power Company, an Idaho corporation, its successors and assigns (collectively, "Licensor") and Falls View Cemetery Maintenance District ("Licensee") with respect to the following:

A. Licensor owns that certain property located in Power County, State of Idaho, as described in **Exhibit A** attached hereto and made a part hereof ("Licensor's Property").

B. Licensee owns property adjacent to Licensor's Property, as described in **Exhibit B** attached hereto and made a part hereof ("Licensee's Property").

C. Licensee desires non-exclusive use of that portion of Licensor's Property described and depicted in **Exhibit C** attached hereto and made a part hereof ("License Area") for the limited purposes of installing, operating, maintaining and repairing as necessary, at Licensee's sole cost and expense, an irrigation pump station facility ("Irrigation Pump Station") more particularly described below:

A submersible water pump for irrigation purposes to be installed in Licensor's existing ground water well shaft; an underground water line extending from the irrigation pump to Licensee's Property; an overhead power line, a meter to serve the Irrigation Pump Station; an access road, and other related and necessary structures and improvements (collectively referred to herein as "Licensee's Improvements").

D. Licensor is agreeable to such limited use of the License Area subject to all of the terms and conditions herein.

Now therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. **Grant of License.**

a. **Generally.** Licensor grants to Licensee a non-exclusive license ("License") for the Term described in Section 3 below to use the License Area for purposes of installing, operating, maintaining and repairing as necessary Licensee's Improvements, to include ingress and egress to Licensee's Improvements as provided in Section 1(c) below, subject to the terms and conditions hereof and for no other purpose whatsoever. This License is personal to Licensee, solely for the benefit of Licensee. This License shall not be deemed to run with the land or in any other way create a perpetual interest in the License Area for the Licensee or Licensee's Agents, defined in Section 9 below, or Licensee's successors or assigns, or any other person or entity.

b. **Licensor's Reserved Rights.** Licensor shall at all times have the full use of the License Area for any purpose it desires, said rights being paramount to any rights or privileges of Licensee hereunder. Licensee's use of the License Area is subordinate to Licensor's use of the License Area and shall not at any time conflict with or impair Licensor's use of the same or Licensor's operations on the Licensor's Property or License Area. Licensee also acknowledges and agrees that there may be other users of the License Area besides Licensor and Licensee, and Licensee's use of the License Area is non-exclusive with such other users.

c. **Access to the License Area.** To access the License Area, Licensee shall be authorized to use the twenty-foot (20') wide access route located upon that portion of Licensor's Property as depicted on Exhibit C ("**Access Road**"), said use being subject to all of the terms and conditions of this License. In exercising its right of access to the License Area over the Access Road, Licensee shall comply with any reasonable security procedures utilized by Licensor, and other conditions reasonably imposed by Licensor or of other Licensees or occupants of Licensor's Property. If Licensee causes any damage to Licensor's Property, Licensee shall promptly repair the same to Licensor's satisfaction at Licensee's sole expense.

d. **License Fee.** Licensor acknowledges the mutually beneficial relationship between Licensor and the City of American Falls and Falls View Cemetery as consideration for this License and hereby waives any license fee ("**License Fee**") requirement for this license. Licensor, at Licensor's sole discretion reserves the right to require Licensee to pay an annual License Fee in an amount determined by Licensor should future circumstances, in Licensor's opinion, warrant a License Fee payment.

e. **Fence Relocation Fee.** Upon the Effective Date, Licensee shall pay to Licensor a one-time fence relocation fee ("**Fence Relocation Fee**") of Five Thousand Three Hundred and No/100 Dollars (\$5,300) for the relocation of the Brady Substation perimeter fence ("**Perimeter Fence**") around the Premises. The Fence Relocation Fee will reimburse Licensor for the cost of relocating the "**Perimeter Fence**" on Licensor's Property to make room for Licensee's Improvements under this License Agreement.

At Licensor's discretion, upon the end of Term of this License, Licensee shall, at Licensee's sole expense, pay to Licensor all costs required to relocate the Perimeter Fence to its original location as existed prior to creation of the Premises under this License.

2. **Revocable.** This License may be revoked by Licensor and thereby terminated at any time and for any reason whatsoever in Licensor's sole and absolute discretion upon delivery of written notice to Licensee at the address provided in Section 13, below. This License shall be deemed revoked and terminated immediately upon delivery of such notice. Upon revocation, Licensee and Licensee's Agents shall immediately cease and desist all use of the License Area and Access Road as provided in Section 3 below. Any continued use of the License Area after revocation shall be considered a trespass over Licensor's private property.

3. **Term.** The term of this License ("**Term**") shall commence on the Effective Date and shall continue in full force and effect until (i) the parties mutually agree to terminate this License, (ii) Licensee in its sole discretion terminates this License, (iii) Licensor terminates this

License upon Licensee's default as provided in Section 15, below, or (iv) Licensor revokes this License pursuant to Section 2, above.

Upon cancellation or termination of this License, Licensee shall, within ninety (90) days, remove at Licensee's expense all of Licensee's Improvements from the License Area, unless otherwise agreed upon by Licensee and Licensor in writing, and Licensee shall advise Licensee's Agents to immediately cease and desist in all use of the License Area and Access Road. Any continued use of the License Area or Property after the termination of this License (other than for the removal of Licensee's Improvements) shall be considered trespass over the Property. Licensee shall leave the License Area in a condition at least as good as its condition prior to the execution of this License, ordinary wear and tear excepted. The terms and conditions of this License shall continue to apply to Licensee during Licensee's removal of Licensee's Improvements under this Section 3. If Licensee fails to remove all of Licensee's Improvements within ninety (90) days, Licensor shall have the option at its sole discretion to take ownership of the improvements in place or to remove the improvements at the sole cost and expense of Licensee.

4. **Water Use Fee.** During the Term of this License, Licensee shall pay an annual water use fee ("**Water Use Fee**") for use of 0.5 cfs of Licensor's ground water shares appurtenant to Licensor's Property and maintained in the Idaho Water Resource Board Water Bank ("**Licensor's Water Bank Shares**"), as follows:

a. **To Licensor:** Licensee shall pay to Licensor a Water Use Fee ("**Licensor's Water Use Fee**") equivalent to ninety percent (90%) of the total annual cost for use of Licensor's Water Bank Shares, due on November 30th of each year during the Term of this License.

Licensor's Water Use Fee payments shall be paid to Licensor at the following address:

Idaho Power Company
Attention: Corporate Cashier
Re: License No.: 582
P.O. Box 447
Salt Lake City, UT 84110-0447

If Licensor's Water Use Fee is not paid within ten (10) days after the due date, Licensee agrees to pay a late charge equal to ten percent (10%) of Licensor's Water Use Fee. Acceptance of such late charge by Licensor shall not constitute a waiver of Licensee's default nor prevent Licensor from exercising any of the other rights and remedies hereunder.

b. **To the Idaho Water Resource Board Water Bank ("**Water Bank**"):** Upon Licensee's receipt of the Water Bank's annual invoice for use of Licensor's Water Bank Shares, Licensee shall pay to the Water Bank a Water Use Fee ("**Water Bank Water Use Fee**") equivalent to ten percent (10%) of the total annual cost for Licensee's use of Licensor's Water Bank Shares, per the terms of the Water Bank invoice.

Licensor shall not be liable for any Claims relating to the use of the License Area by other parties as contemplated in Section 1 above and Licensee shall use the License Area non-exclusively along with other parties at its own risk. Furthermore, Licensee shall advise all of Licensee's Agents in writing that their use of the License Area is subject to all of the provisions of this License Agreement, including, without limitation, the provisions of this Section 5, and their use of the License Area shall constitute their absolute acceptance of all risks associated therewith and their agreement to all provisions hereof. The provisions of this Section 5 shall survive the expiration or termination of this License.

6. **No Duty of Licensor to Repair and/or Maintain.** Licensor shall have no duty to repair, maintain, or improve the License Area or keep it in any sort of condition or repair. If, however, Licensor does undertake to repair, maintain, or improve the License Area, Licensor shall have the right to require reasonable financial contributions from Licensee.

7. **Covenants, Conditions, and Restrictions.** Licensee's use of the License Area is subject to all of the following covenants, conditions, and restrictions (in addition to all others set forth in this License Agreement):

a. **No Improvements.** No facilities, improvements, personal property, fixtures, buildings, structures, or any similar classification of property (collectively, "Improvements") may be placed on or around the License Area by Licensee without Licensor's prior written consent which may be withheld in Licensor's sole and absolute discretion.

b. **Licensee's Obligations to Keep License Area in Good Condition and Repair.** Licensee shall, at all times during the Term and at its expense, keep and maintain the License Area in a good and safe condition and shall ensure that the License Area does not have any unsafe conditions or hazards.

Memorandum for Rental Agreements 204 and 216

To: Water Right 29-14096
From: Sandra Thiel
Date: February 8, 2018
Re: Review of Applications to Rent from the State Water Supply Bank

PURPOSE/NARRATIVE: On December 5, 2017, Greg Sullivan of Brockway Engineering submitted an application on behalf of Falls View Cemetery to rent water to irrigate 18.6 acres. The cemetery is located immediately adjacent an Idaho Power Company (IPCO) substation on the south end of American Falls. Historically IPCO allowed Falls View to irrigate with their waste water. However, they no longer release wastewater and Falls View requires water to irrigate the cemetery.

The rental application requested water for two years. Three rights were found to satisfy 11.2 acres for the two years. However, this left 7.4 acres without water. Right 29-14096 is available to irrigate the remaining acres for one year

AUTHORITY TO FILE: Arwyn Thornton, Falls View Cemetery District Board member signed the application. The point of diversion is on land owned by Idaho Power, which has consented to the applicant's diversion of water from their property (see First Amendment to License Agreement)

WATER RIGHT VALIDITY: Right 35-7777 was decreed in 2002 and put into the Bank in 2006. The lease ended in 2008 and irrigation resumed. The right holder leased the entire right into the Bank from 2017 to 2020. Forfeiture is not an issue.

Rights 29-11278 and 29-14000 were decreed in 2011 and have been in the Bank since 2012. The lease for the two rights included the domestic component of right 29-11278. The two right completely overlap 29-13956, an irrigation right for 0.04 cfs. We reduced the rentable portions of water rights 29-11278 and 29-14000 to 0.07 cfs. There is a change in beneficial use; however, a milk processing plant is considered fully consumptive so the remaining 0.07 cfs is available for irrigation use.

Right 29-14096 was decreed in 2002 and has been leased into the bank since 2014. The right was acquired for future development by the City of Chubbuck and has not been used at the transfer authorized place of use.

INJURY TO OTHER WATER RIGHTS: Falls View Cemetery's rental involves diversions of ground water from the ESPA. To avoid injury to other water rights, evaluation of ESPA modeling is required. Modeling of the water right shows no injury.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rental right is subject to Water District # 120. James Cefalo said he had no comments or concerns with the proposed rental.

to discuss water right options for the upcoming year. Mr. Smith advises that they have an option to purchase twenty (20) acres at \$12,500 per acre. They are considering the option. Chet Taylor advises that he has been advised that the option to rent is positive for the next year, however, long term is not an option. Anson Call suggested they discuss their loan authority on the basis that they are a public entity. The District is requesting any available resources from the County to purchase long term water options for the Cemetery in lieu of having to request a bond from the taxpayers. Following discussion, the Commission advised that they will reach out to their proposed seller to see what options may be available with the county to purchase the water rights and then secure the same for rental to the cemetery district. The matter is continued for discussion at a later date.
