4. If the water rights and/or adjudication claims were split, how did the division occur?
☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☒ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: August 26, 2015
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed IRS Form W-9 for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed Lessor Designation form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☒ Filing fee (see instructions for further explanation):
 - ☐ \$25 per *undivided* water right.
 - ☐ \$100 per *split* water right.
 - ☐ No fee is required for pending adjudication claims.☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

ROAD MAINTENANCE AND SHARED WATER RIGHT AGREEMENT

WHEREAS, the undersigned parties are all owners of certain real property located in Section 9, Township 22 North, Range 1 East, Boise Meridian, Adams County, Idaho ("Adams County Properties"), AND Section 4, Township 22 North, Range 1 East Boise Meridian, Idaho county, Idaho ("Idaho County Properties");

WHEREAS, each such property is subject to and benefited by that Declaration of Easements and Covenants, recorded as Instrument #74082 in the Records of Adams County, Idaho and #334319 in the Records of Idaho County, Idaho, ("Easement for ingress, egress and utilities over, across, along and/or under a presently existing roadway as described therein;

WHEREAS, each such property is benefited by said easement; and

WHEREAS, all said properties are also benefitted by a right to divert waters from Lockwood Creek filed with the State of Idaho Department of Water Resources as Water Right No. 78-4188 ("Water Right") for irrigation and stock water purposes;

WHEREAS, each of the undersigned parties wish to affirm said easement and enter into a mutually beneficial Road Maintenance and Share Water Right Agreement.

NOW, THEREFORE, the undersigned parties do hereby agree, covenant, grant and convey as follows:

1. That each of the undersigned properties is subject to and benefited by an easement for ingress, egress and utilities over and across presently existing roadways and as set forth in Instrument #334319, records of Adams county, Idaho, attached hereto and incorporated herein by reference as Exhibit "A";

2. That each of the undersigned affirm and acknowledge by their signatures the binding effect of the Easement as providing ingress, egress and utilities encumbering and benefiting the parcels of property described herein. To the extent any portion of the existing roadway varies from that easement described in Exhibit "A", the undersigned hereby convey

and covenant herein that all five (5) parcels are hereby granted a easement, thirty (30) feet in width, being fifteen (15) feet on either side of any existing roadway. Should no roadway exist providing access to any of the describe parcels, the undersigned hereby grant and convey access to said parcel across their respective parcels thirty (30) feet in width over the most practicable route to provide such access with the least impact or encumbrance upon the useful and necessary use of the servient parcel. In the event the parties or their successors cannot agree upon said route, the parties or their successors shall submit such matter to mediation prior to filing of any litigation;

3. That each parcel improved with a residential structure capable of occupancy shall share equally with each parcel ownership paying a pro rata share of the costs and expenses necessarily incurred for normal, routine maintenance of the roadway, such as grading or plowing or emergency repairs incurred due to flood, wash out or other event that jeopardizes safe travel or interrupts utility service. This Agreement shall not require any party to share in any extraordinary costs or expenses incurred due to improvement of the roadway by any other party unless mutually agreed upon in writing.

Any parcels not improved with a residential structure capable of occupancy shall only be obligated to pay one-half (1/2) of the pro rata amount owed by any parcel with residential improvements, with any remaining unpaid balance divided equally between the parcels with residential improvements.

4. It is not contemplated that this Agreement shall require or provide for the formation of any non-profit corporation or other road maintenance association unless such is deemed necessary by mutual agreement of all parties.

5. This Agreement shall be binding up and shall inure to the benefit of the following properties owned by the undersigned parties:

MEMORANDUM

TO: Ownership change for 78-4188

FROM: Brenda Serrano

RE: Ownership Change Split

Date: July 21, 2016

.....

On September 8, 2015, The Department received a Notice of Change in Water Right Ownership for 78-4188 by Cory and Anne Dutton. The ownership change resulted in a split creating water right 78-12444. Included with the ownership change was a shared water right agreement. The agreement stated the water right was to be split equally among five listed properties which included the Dutton property. Due to the nature of this agreement, the face of the water right states more diversion than the rights allow. A remark was added in the conditions of both water rights giving the exact diversion amounts.

Re: Notice of Change in Water Right Ownership No: 78-4188

Original: Water Right No. **78-4188**
Split into: Water Right No. 78-12444

Dear Water Right Holders:

The Department has received and processed a Change of Ownership and Assignment of Permit for a portion of your original Water Rights as referenced above. This resulted in a split of water right 63-3362, 63-7531, 63-10383, 63-11347, and 63-12546.

When a portion of the original water right has been conveyed to another and the original right has been split, a new water right number is created to represent the portion obtained by the new owners. For your records a poof report and map depicting the place of use (POU) and the point of diversion (POD) for **78-4188** are enclosed. Please refer to your new water right numbers when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.

Sincerely,

Dear Water Right Holders:

We have received and processed a Change of Ownership for a portion of the original Water Right as referenced above. This required a split of the original water right.

When a portion of the original water right has been conveyed to another, a new water right number is created to represent the portion obtained by the new owners. For your records proof reports and map depicting the place of use (POU) and the point of diversion (POD) for **78-12444** are enclosed. Please refer to your new water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Your portion of these water rights has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under these rights, including adding a new point of diversion, then an Application for Transfer on your portion of these rights is required. It is possible you may need a transfer for your point of diversion. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water rights, then no further action is required at this time.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brenda Serrano'.
