Re: Transfer of Water Right 13-2269

To whom it may concern:

Enclosed herewith are two copies of an Application for Transfer of water right no. 13-2269 submitted on behalf of Bart and Cherie Christensen, together with a check in the amount of \$820.00 for the filing fee. Please process one application and conform stamp and return the other to my office in the enclosed return envelope.

The purpose of this Application is to enable the Applicant to irrigate adjoining property being leased from Eric Simonsen under the Applicant's existing pivot centered on the east boundary of the current place of use. To date this pivot has been utilized in a half-circle to irrigate the current place of use. The land that could be irrigated under the east half of this pivot is not owned by the Applicant, but the Applicant is now leasing this land from Mr. Simonson who has agreed to allow the Applicant to irrigate the leased property under water right no. 13-2269. Attached to the Application as Attachment #10 is a letter from Mr. Simonson confirming this.

Depending on the Applicant's crop rotation, the Applicant will not irrigate Mr. Simonson's property each year. Some years the Applicant will irrigate the current place of use of water right 13-2269. Other years the Applicant will run the east pivot full circle to irrigate the Simonson property. When this occurs, the Applicant will dry up the pivot corners and turn off the end guns of both pivots in order to stay within the 237 acres authorized for irrigation under water right 13-2269. Enclosed herewith are two maps identifying these two irrigation plans. For 2018 the Applicant intends to implement Irrigation Plan 2. The Applicant will notify IDWR each time it changes its irrigation plan for the place of use.

Thank you for processing this transfer application. As mentioned above, the Applicant intends to irrigate the leased property in 2018 so your effort to timely process is greatly appreciated. Should you have any questions please feel free to give me a call.

Sincerely,
