RE: Order Requiring Measuring Devices and Headgates in Water District 67

Dear Mr. Wilson,

This letter is a follow up to our phone conversation on February 6, 2018. I am confirming that the point of diversion associate with your water right permit 67-7959, which is sourced from Cool Creek is not currently subject to the recent order requiring measuring devices and headgates in Water District 67. Please note that your diversion may be required to be equipped with measurement and control at some point in the future if conditions change and the Department of Water Resources determines it to be necessary. You will receive notice in the event that happens.

If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.

Sincerely,

Nick Miller
Manager, IDWR Western Region Office
