Subject: Fish Screen - Scott and Carla Nelson - Permit No. 74-16109

Cindy,

The Idaho Department of Fish and Game has completed a site observation for the Scott and Carla Nelson (Permit No. 74-16109) Statement of Completion for beneficial use located in Lemhi County, Idaho. From this site survey it was determined that due to volumetric flowrate and spring gradient that a fish screen **would not** be required for the application.

Please feel free to contact me with any questions or concerns.

Respectfully Submitted,
