900 North Skyline Drive, Suite A
Idaho Falls, ID 83401-6105**Re: Applications for Transfer & Water Right Split (Hart Brothers 29-2395)**

Dear Cooper:

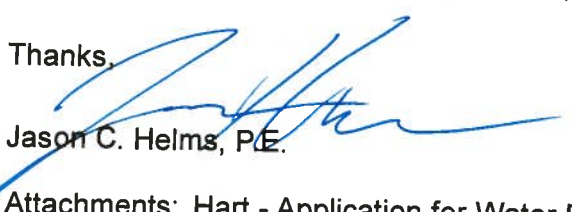

Please find attached a single application for water right transfer (Fee: \$200) and single ownership change (Fee: \$100) with the associated processing fees for the Hart Brothers water right 29-2395 as we discussed last week.

The attached transfer seeks to reapportion the irrigation acreage for water right 29-2395 in preparation of ownership separation between the current water right owners. According to the attached dissolution agreement and warranty deeds, 25% of water right 29-2395 should be solely owned by Robert E. Hart for use on the west side of I-15 while the remaining 75% should remain owned jointly by the other two existing owners David J. Hart and James W. Hart for use on the west side of I-15 matching the ownership separation of the underlying ground. The entirety of water right 29-2395 is currently leased to the water supply bank through the end of 2018 and will remain unused while the lease is active.

The transfer also seeks to correct the actual location of the well based on survey and high resolution aerial photo.

If you have any questions regarding the application, please don't hesitate to contact me.

Thanks,

Jason C. Helms, P.E.
