ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water right 63-33247 when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 35.5 af at the field headgate for the lands above.
13. Use of water under water right 63-33244 will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
14. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted under right 63-33247 and shall annually report the information to the Department.
15. Rights 63-33244 and 63-33247 when combined shall not exceed the irrigation of 7.9 acres.
16. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under right 63-33247. The right holder shall limit the diversion of ground water under water right 63-33247 to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
17. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion of right 63-33244
18. If the surface water rights appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

Narrative: The Department received these applications on December 26, 2017. The applicant wishes to place the entirety of both rights in the Bank. These rights are limited to a combined 7.9 acres. These rights were decreed in 2009 and placed in the Bank for the 2016-2017 seasons. Forfeiture is not an issue. These water rights appear to overlap with water rights 63-32403 & 63-32412 however, they can be separated. Water Right 63-33244 is currently within WD 63. 63-33247 is a ground water right that is supplemental to all surface water rights. There are approximately 26 other rights which have a combined limit with these rights. The limits will be shown on the lease contract.

RE: LEASE APPLICATION FEE REQUEST TO LEASE WATER RIGHT NO(S). 63-32403, 63-32412, 63-33244 & 63-33247 TO THE WATER SUPPLY BANK

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

Effective April 8, 2011, Water Supply Bank Rule 25.02 (also known as IDAPA 37.02.03.025.02.f) requires a \$250.00 fee be submitted with all Water Supply Bank (Bank) lease applications. The fee for a set of overlapping rights is a maximum of \$500.00. To clarify, Bank lease applications seek to place water rights into the Bank.

The Department of Water Resources (Department) received your application(s) to lease water right(s) **63-32403, 63-32412, 63-33244 & 63-33247** to the Bank on December 26, 2017 with \$500.00 of the required fees. The Department will require another \$500 fee to process these applications. Water rights 63-32403, 63-32412, 63-33244 & 63-33247 seem to overlap but 63-32403 & 63-32412 can be separated from 63-33244 & 63-33247. **Please submit the additional \$500.00 lease application fee within 14 days.** Without the lease fee your application(s) is considered incomplete and will not be processed.

Once the additional application fee is received, your application(s) will be reviewed. If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted if additional information is required.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right. This and other water right forms are available from the Department's web site, <http://www.idwr.idaho.gov>.

Please contact me if you have any questions at (208) 287-4910.

Sincerely,

for
