Dear Mr. Dudley:

We have reviewed the matter of your assignment with our counsel. We have not established a procedure for changing water licenses, in as much as normally an abstract of title or title insurance would have to be furnished.

Due to the nature of your proposed conveyance in connection with this water license, the Department will place your assignment on file and our records will show that you are the present holders of this water license.

Your patience in this matter is appreciated.

Very truly yours,

Donald W. McEldowney

Dear Mr. Keil:

In reviewing the Report of the Field Examiner, I find that some additional information is required before a Water License may be issued.

I need to determine the volume of water used annually by your corporation, both from the well specified on this permit and all other wells used by the company. If recorded data is not available, estimates of the volume of water used each month will suffice. If estimates are submitted, please state your method of arriving at these estimates. Also, provide any facts and figures that would help to substantiate these estimates.

If you will provide this information, we shall continue to process your permit. If we can be of any assistance, please advise.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

RE: Permit No. G-30698; Our WR-13

ATT: Donald W. McEldowney

Dear Sir:

On July 27, 1967, you furnished Mr. H. R. Keil with an assignment to be completed in connection with the captioned permit. Mr. Keil has asked that I reply.

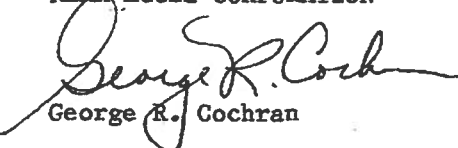

The change in ownership was not accomplished by means of a conveyance. The change was accomplished by a merger and subsequent change of name. You are being furnished herewith a Certificate of Ownership and Merger, whereby Kermac Nuclear Fuels Corp. was merged into Kerr-McGee Oil Industries, Inc. effective December 31, 1964.

In addition, you are being furnished with a Certificate of Amendment to the Certificate of Incorporation of Kerr-McGee Oil Industries Inc., whereby its name was changed to Kerr-McGee Corporation on October 28, 1965.

Under these circumstances, it does not appear that an assignment is necessary in that the above actions effectively establish ownership in Kerr-McGee Corporation.

Yours very truly,

KERR-McGEE CORPORATION

Mr. H. R. Kell,
Karr-McGee Building,
Oklahoma City, Oklahoma.

Dear Mr. Kell:

We enclose Permit No. G-30698 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7368 which was issued covering payment in the amount of \$5.50 for the filing fee of the above mentioned permit. ~~was handed to you~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

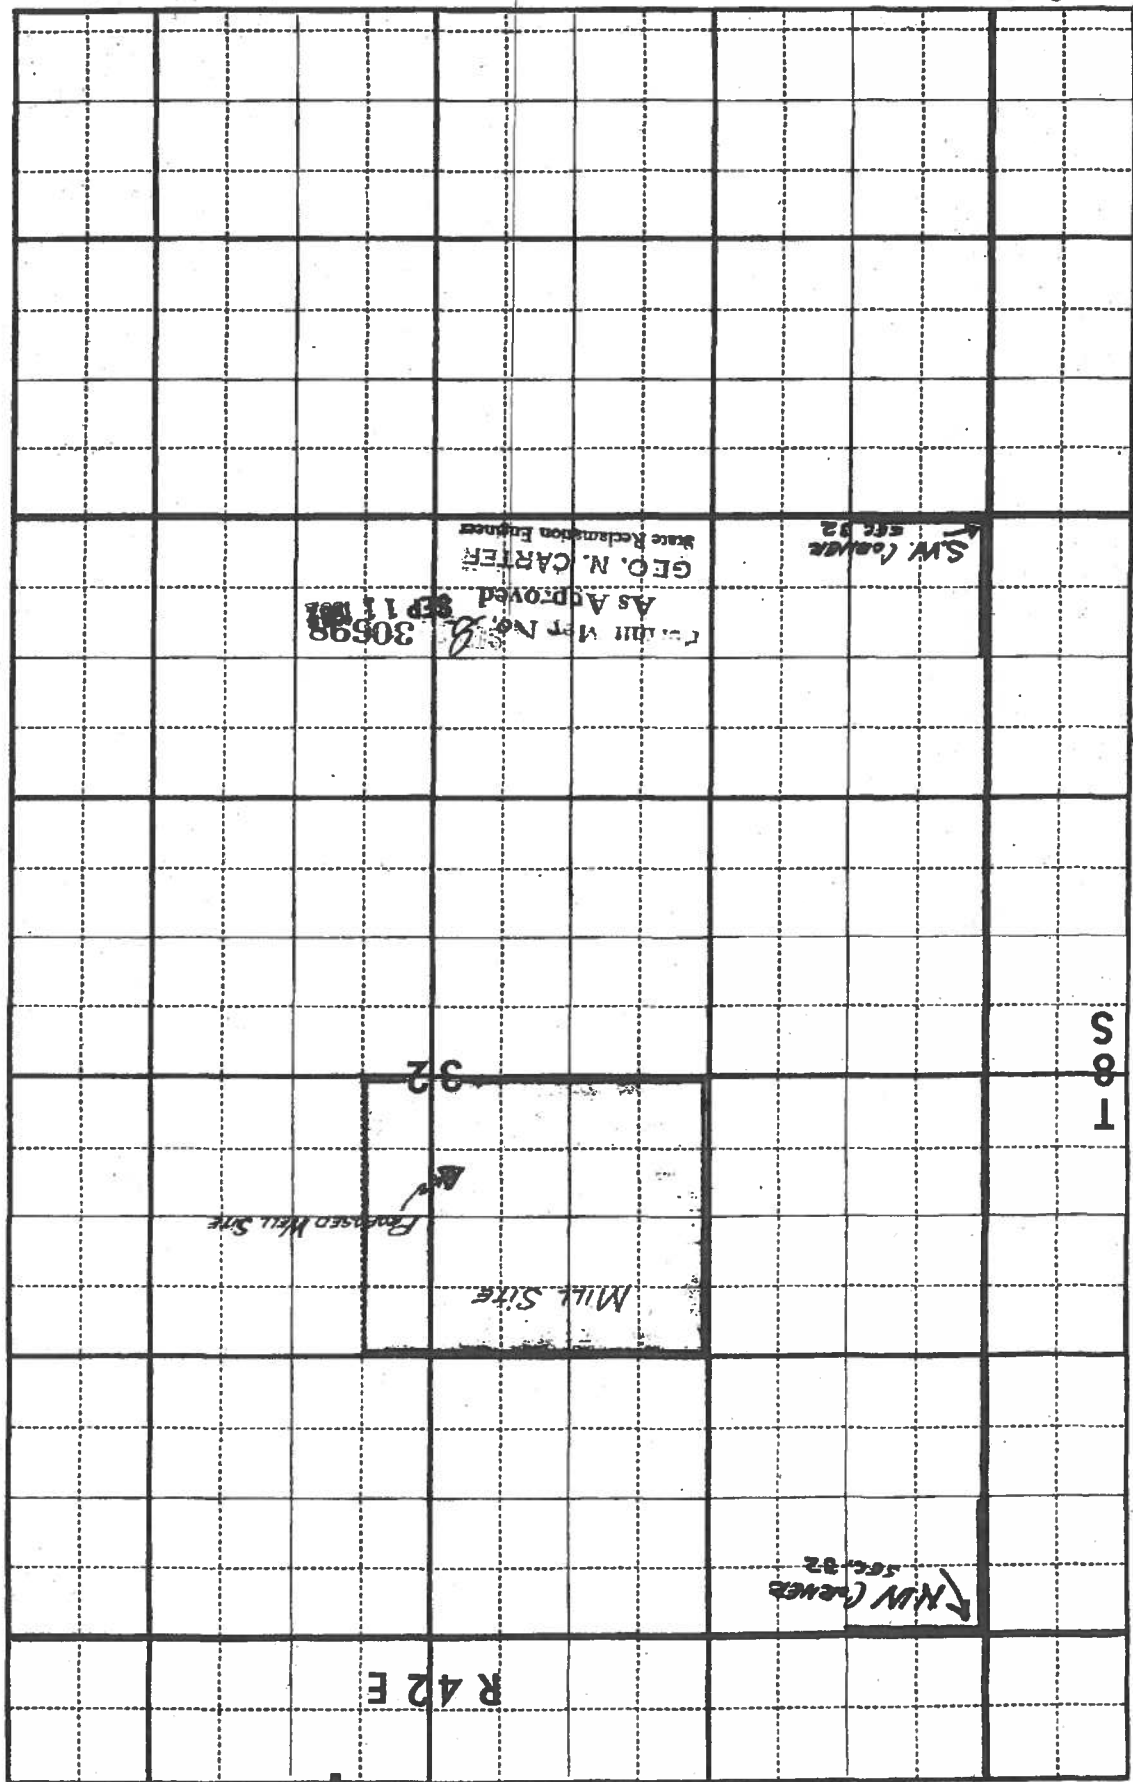

GEO. N. CARTER

Re: Change in Ownership for Water Right No(s): 11-2131

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code, §42-222 and §42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right, to the Department. Notice of the change must be provided to the Department within **120 days** of the change. Water right forms are available from any office of the Department, or at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact me at (208) 525-7161.

Sincerely,

Jonie Barg

Subject: *Notice of Change in Water Right Ownership – Water Right 11-2131
(the “Water Right”)*

Dear Ms. Barg:

Greenfield Environmental Multistate Trust LLC, Trustee of the Multistate Environmental Response Trust (the “Multistate Trust”), respectfully submits the following response to your inquiry re: the above-referenced Water Right, which is appurtenant to the former Kerr-McGee Chemical Corporation – Soda Springs Site, City of Soda Springs, Caribou County, ID (the “Property”).

As you noted, the Multistate Trust’s Notice of Change in Water Right Ownership, dated November 27, 2017 (the “Notice,” submitted herewith as **Exhibit A**), states that the Water Right was “previously owned by Kerr-McGee Chemical Corp. (and subsequently by its successor, Tronox Worldwide LLC).” You also noted, correctly, that the Multistate Trust asserts its ownership of the Water Right by virtue of a quitclaim deed listing Tronox Worldwide LLC (and not Kerr-McGee Chemical Corp.) as the Grantor. You have asked me to explain this discrepancy and the chain of ownership by which the Multistate Trust is the owner of the Water Right. You have also asked me to provide you with a copy of the deed by which Kerr-McGee Chemical Corp. transferred its interest in the Property and Water Right to Tronox Worldwide LLC (the Multistate Trust’s predecessor-in-interest at the Property).

As explained more fully, below, the Multistate Trust received its interest in the Property and Water Right when Tronox Worldwide LLC, a successor-in-interest to Tronox LLC (f/k/a Kerr-McGee Chemical LLC, f/k/a Kerr-McGee Chemical Corporation), transferred its interest in the Property to the Multistate Trust as part of the global bankruptcy settlement of Tronox Incorporated, the entity of which Tronox Worldwide LLC is an affiliate.

Ms. Jonie Barg

Page 2 of 3

In our effort to address the chain of ownership of the Water Right we have reviewed the publicly-available Water Rights Records associated therewith (attached for your convenience as Exhibit B).

The Water Right was held by Kerr-McGee Chemical Corp by virtue of an assignment dated October 1, 1970, by which Kerr-McGee Corporation assigned "its right, title and interest in and to the Idaho Department of Reclamation Water License and/or Permit No. G-30698/11-2131 to Kerr-McGee Chemical Corp." (Exhibit B, P. 6).

As reflected in the March 6, 2007 Certificate of Name Change submitted herewith as Exhibit C, in 1997 Kerr-McGee Chemical Corporation was merged into Kerr-McGee Chemical LLC, an entity which subsequently changed its name to Tronox LLC in September of 2005. (Exhibit C).

By quitclaim deed effective as of February 14, 2011, a copy of which is submitted herewith as Exhibit D "Tronox LLC (f/k/a Kerr-McGee Chemical LLC, f/k/a Kerr-McGee Chemical Corporation)" transferred its interest in the Property, including, *inter alia*, its "rights, claim, title and interest in and to ... appurtenant groundwater rights, associated surface water rights, claims, and filings or other interests related to the Property" to Tronox Worldwide LLC. (Exhibit D)

Tronox Worldwide LLC conveyed the subject Property and the appurtenant Water Right to the Multistate Trust by quitclaim deed effective as of February 14, 2011 (a copy of which is submitted herewith as Exhibit E). Notably, that deed transferred the Property "together with all of [Tronox Worldwide LLC's] rights, claim, title and interest in and to any and all appurtenances ... appurtenant groundwater rights, associated surface water rights, claims, and filings or other interests related to the Property." (Exhibit E, P. 2)

Based on the foregoing, the Multistate Trust respectfully submits that it is the owner of the subject Water Right.

The Multistate Trust greatly appreciates your attention to this matter. Please contact me by phone at (646) 481-3596, or email at ds@g-etg.com, if you have any further questions or concerns, or if additional information is needed to process the subject Notice of Change in Water Right Ownership.

Sincerely,

Greenfield Environmental Multistate Trust LLC
