CONDITIONS OF APPROVAL

1. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65.
2. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the point of injection and point of rediversion from Williams Creek.
3. Water diverted under this right is injected into Williams Creek at the authorized point of injection and rediverted from Williams Creek at the authorized point of rediversion. Water shall not be rediverted from Williams Creek unless an equal amount of water is simultaneously being injected into Williams Creek.

State of Idaho
Department of Water Resources
Water Right License
WATER RIGHT NO. 65-13751

4. The right holder shall install and maintain acceptable measuring devices at the point of injection into Williams Creek and at the point of diversion from Williams Creek.
5. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
6. After specific notification by the Department, the right holder shall install on the two points of diversion from ground water a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
7. Rights 65-13640, 65-13704, 65-13751, and 65-22911 authorize the storage of an annual total of 133 af, comprised of 118 af to be used for the initial filling or carryover storage of the ponds and 15 af for the replacement of losses due to seepage and evaporation for the 2 ponds known locally as Annie Pond and Whitetail Pond.
8. Rights 65-13704 and 65-13751 when combined shall not exceed a total diversion rate of 0.73 cfs and a total annual maximum diversion volume of 14.4 af for the non-irrigation uses.
9. Rights 65-13704, 65-13751, and 65-22911 when combined shall not exceed a total diversion rate of 0.73 cfs and a total annual maximum diversion volume of 74.4 af for the non-irrigation uses.
10. Storage of water pursuant to this right is limited to 2 ponds known locally as Annie Pond and Whitetail Pond.
11. The following rights are diverted through points of diversion described above: 65-13704, 65-13751, and 65-22911.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 12th day of February, 2018.

Issuance of Licenses

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right Licenses confirming that water rights have been established in accordance with your permits. Please be sure to thoroughly review the conditions of approval and remarks listed on your licenses. Also enclosed are copies of the approved applications for amendments.

The licenses are PRELIMINARY ORDERS issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4951.

Sincerely,

Pamela Skaggs, Water Rights Supervisor

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 65-13751 with the following:

CONDITIONS OF APPROVAL

1. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65.
2. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the point of injection and point of redirection from Williams Creek.
3. Water diverted under this right is injected into Williams Creek at the authorized point of injection and redirected from Williams Creek at the authorized point of redirection. Water shall not be redirected from Williams Creek unless an equal amount of water is simultaneously being injected into Williams Creek.
4. The right holder shall install and maintain acceptable measuring devices at the point of injection into Williams Creek and at the point of redirection from Williams Creek.
5. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
6. After specific notification by the Department, the right holder shall install on the two points of diversion from ground water a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
7. Rights 65-13640, 65-13704, 65-13751, and 65-22911 authorize the storage of an annual total of 133 af, comprised of 118 af to be used for the initial filling or carryover storage of the ponds and 15 af for the replacement of losses due to seepage and evaporation for the 2 ponds known locally as Annie Pond and Whitetail Pond.
8. Rights 65-13704 and 65-13751 when combined shall not exceed a total diversion rate of 0.73 cfs and a total annual maximum diversion volume of 14.4 af for the non-irrigation uses.

RE: Water Right Permits 65-13470, 65-13640, 65-13704, 65-13751 and 65-22911

Dear Permit Holder(s):

The Idaho Department of Water Resources (Department) is reviewing the permits referenced above prior to issuing a water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

A group of amendments were sent out on January 22, 2018. It was discovered after the permits were sent out, that a name change was submitted to our regional office. That information was not forwarded to me, so I did not know we had received the information. Therefore, the amendment of permits sent on January 22, 2018 were sent with the incorrect name. Enclosed with this letter are amendments that have the correct name per the ownership documentation that was submitted.

The enclosed Application for Amendment forms depict the elements of the water rights as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign and return the forms with the \$100.00 filing fee per water right or \$500.00 within 14 days or by February 15, 2018.

If you have any questions, please don't hesitate to contact me.
