

IN-OFFICE BENEFICIAL USE FIELD REPORT

Permit No: 65-22708

Examiner: A. Skinner

Date: 12/28/2017

In-office qualification (IDAPA 035.01.r):

- ☒ Irrigation $\leq$ 5 acres
☐ Stockwater storage $\leq$ 14.6 af
☐ Total diversion rate $\leq$ 0.24 cfs and not irrigation or storage

Current Owner Name: DONALD LOJEK

Address: 1344 RIMROCK CT, BOISE, ID 83712

Beneficial Use Fee Paid: \$ None

Receipt: Exempt (GW irrigation less than 0.5 acres)

Source: GROUND WATER

 Source change? ☒ N ☐ Y Change clarifies originally intended source.
 If not – void permit.

Diversion Rate

Permitted Rate: 0.02 cfs

BU Standard Limit: 0.01 cfs

BU Fee Limit: 0.20 cfs

Theoretical (optional): cfs

Recommended Total Div Rate: 0.01 cfs**Annual Volume**

For Irrigation:

0.02 cfs x 1.9835 x 200 days

= 7.9 af

0.3 acres x 3.0 af/ac (FHR)

= 0.9 af

Smaller of two volumes

= 0.9 af

For other uses: NA

IN-OFFICE BENEFICIAL USE FIELD REPORT

Recommended Amounts

Beneficial Use	Season of Use	Diversion Rate (cfs)	Annual Volume (af)
IRRIGATION	04/15 - 10/31	0.01	0.9
Totals		0.01 cfs	0.9 af

Amendments Required

☐ Change P.U. ☐ Add P.U. ☐ Other:

Conditions: X59, X31, and 103Have conditions of permit been met? ☒ Y ☐ N**Narrative:**

Permit No. 65-22708 authorizes the diversion of 0.02 cfs from groundwater for irrigating 0.50 acres. Based on the small diversion, the permit qualifies for an in-office field exam. The exam was conducted on December 29, 2017 by Aaron Skinner.

Background:

This right is an effort to gain authorization to water trees, shrubs, and lawn with an existing well on the property that was drilled around 1970. There is no available well driller's report or information about the well pump. Google Earth imagery and an office visit by Mr. Lojek confirmed that the lot is only 0.3 acres and they irrigate the whole lot. ArcMap imagery is limited to 2015. As such, the developed acreage will be adjudged from the permitted 0.5 acres to 0.3 acres.

System Description:

Groundwater is pulled from a well to irrigate 0.30 acres that include a lawn, garden, and trees/bushes. A hose bib is in place and used to hook a hose up and moved around the POU with an oscillating sprinkler.

Diversion Rate and Volume:

The permitted rate for this right is 0.02 cfs with an assumed volume limit of 1.5 AF based off the acreage and H.G.R. for the area. Because the permitted 0.5 acres was not fully developed, 0.3 acres will be recommended for licensing. Therefore, the rate and volume will be adjusted to 0.01 cfs and 0.9 AF respectively and recommended to licensing.

Ownership:

Current Valley County data was used to verify land ownership and confirms that Donald W. Lojek is the owners of the 0.3 acres.

Overlap:

An overlap analysis was completed for the POD and POU and did not identify any overlap.

Conditions:

Condition 046 was removed and not forwarded to licensing. Condition 121 was updated to 103 and forwarded to licensing. Condition X59 was forwarded to licensing. Condition X31 was updated to 0.01 cfs and 0.9 AF and forwarded to licensing.

Re: Notice of Intent to Void Permit to Appropriate Water No. 65-22708

Dear Mr. Lojek,

On November 16, 2017 the Idaho Department of Water Resources (IDWR) attempted to contact you by letter to obtain additional information required to complete the licensing processing of your water right permit no. ~~63-33816~~. The letter described the additional information needed by the department as outlined below. ~~65-22708~~

1. Location of the well (gps coordinates)
2. Outlined area where irrigation occurs (Google Earth is a great map)
3. Rough system diagram (e.g. location of sprinklers and/or hose bib, size of supply pipe, number of sprinklers, type of sprinklers, how many sprinklers run at the same time, and how many sections are on the system)
4. Pump curve for the submersible pump (if available)
5. Model number, serial number, and horsepower of pump in the well (if available)

Since there was no response to that letter it is the intent of IDWR to void your permit. If you have no intention of providing the additional information, please use the enclosed form to relinquish your permit. If the department does not receive a written response to this letter or the relinquishment form within the next thirty (30) days (January 22, 2017), then your permit will become void. Your response must include the information requested in the 11/16/2017 letter.

Please contact me at (208) 334-2190 if you need more information. Thank you for your attention to this matter.

Sincerely,

Aaron Skinner
Water Resource Agent
Western Regional Office

RE: Water Permit 65-22708

Dear Mr. Lojek:

In 2003 IDWR issued permit 65-22708 authorizing you to develop a right to divert 0.02 cfs of groundwater within the SW ¼ NE ¼ of Section 28, Township 16 North, Range 03 East, B.M., for irrigation of 0.5 acres of land in Valley County. Under the terms of the permit, the development was to be completed by April 1, 2004. On April 1, 2003, IDWR received your Proof of Beneficial Use statement indicating you had completed your development and put the water to beneficial use.

On November 16, 2017, I was assigned to review the water right permit to verify the beneficial use so it could be licensed. The aerial photos that are available to our office make it difficult to verify 0.5 acres of irrigation due to the tree canopy on your parcels. As such, I would like to request the following information from you:

1. Location of the well (gps coordinates)
2. Outlined area where irrigation occurs (Google Earth is a great map)
3. Rough system diagram (e.g. location of sprinklers and/or hose bib, size of supply pipe, number of sprinklers, type of sprinklers, how many sprinklers run at the same time, and how many sections are on the system)
4. Pump curve for the submersible pump (if available)
5. Model number, serial number, and horsepower of pump in the well (if available)

Please submit the requested information for the permit to be processed. The permit will be voided without a timely written reply by December 18, 2017. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to this matter.

Respectfully,

Aaron Skinner
Water Resource Agent
