FEE MEMORANDUM

Date: February 16, 2018
To: East Valley Cattle LLC Transfer #81940 file
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer proposes to modify the existing place of use for twenty stockwater/commercial rights which are currently appurtenant to a CAFO near Malta. The transfer will allow water collected from the CAFO to be land applied onto the entire farm which encompasses 9204.0 acres, so it is appropriate to assess the transfer fee for the entire 4.61 cfs flow rate, which, from the fee schedule, equates to a fee of \$820.00. This sum was paid when the transfer was filed by Brockway Engineering with check #14248 on 9/22/2017, receipt #S036374.

Re: Summary of transfer

Application for transfer proposes to change the commercial place of use for twenty commercial/stockwater rights (4.61 cfs) which are currently appurtenant to a CAFO located approximately 4.8 to 5.8 miles east and 7.5 to 8.5 miles north of Malta. The transfer will allow for the land application of water that is collected from the CAFO onto farm ground located approximately 7.0 to 14.3 miles north and 2.5 to 8.4 miles east of Malta.

The CAFO facility is located within the Raft River Critical Ground Water Area, so the transfer will be advertised. Since the facility is within Water District 143, comments will be solicited from the WD-143 Watermaster.

The stockwater/commercial rights at the CAFO are:

43-13449	0.69 cfs	93.9 AF	43-13451	0.64 cfs	75.9 AF
43-13453	0.48 cfs	136.7 AF	43-13455	0.19 cfs	49.8 AF
43-13457	0.72 cfs	55.4 AF	43-13459	0.30 cfs	39.5 AF
43-13461	0.76 cfs	93.5 AF	43-13463	0.53 cfs	15.5 AF
43-13491	0.02 cfs	13.2 AF	43-13493	0.06 cfs	41.5 AF
43-13495	0.27 cfs	190.5 AF	43-13497	0.10 cfs	66.0 AF
43-13499	0.02 cfs	11.0 AF	43-13501	0.04 cfs	25.9 AF
43-13503	0.08 cfs	54.9 AF	43-13505	0.10 cfs	66.0 AF
43-13507	0.02 cfs	13.3 AF	43-13509	0.04 cfs	25.9 AF
43-13511	0.11 cfs	77.2 AF	43-13763	1.75 cfs	637.2 AF

The combined limits for the dairy rights are: a diversion rate of 4.61 cfs and a volume of 1782.8 AF.

Jim,

The applicant desires to land apply water that is collected from the stock and commercial facilities. This transfer is required by IDWR to allowed the land application of the collected water under a commercial place of use. The stockwater place of use associated with the water rights identified in this transfer will not be changing.

Greg-

Last Friday you dropped off a signature page and a Part 1, B., #4, Place of Use attachment (Exhibit B) in connection with transfer #81940 which was filed on September 22, 2017. It is my understanding that the pages are intended to amend the existing transfer signature page and the place of use attachment, (Exhibit B) amendment which was received in our office on November 3, 2017. It also appears that this amendment clarifies that the stockwater POU will not change with this transfer. Is that the intent?

Additionally, on the signature page you dropped off on Friday, under A., Purpose of Transfer #2, the proposal narrative reads:

The applicant desires to land apply that is collected from stock facilities and commercial uses to acres with licensed or decreed water rights within the proposed permissible place of use. Stockwater POU will not be changing with this transfer.

It appears that a word or words have been left out, and since the proposal narrative is important, a clarification should be made. Thanks.

Gentlemen,

I wanted to let you know that we have finally made some progress for Millenkamp. See the attached document. I will submit the originals after I receive it. I have also mapped out the 2018 curtailment acres but I am waiting for a final client review of the maps before I submit them.

Greg-

I was comparing the POU land list for the East Valley Cattle commercial transfer to the map and found one discrepancy- in T11S, R27E, Section 11, the map shows the POU in the NWNW and SWNW, while the land list says NENW and NWNW. It appears to me that the map is correct. What say you?

Also, just a reminder that we are all set to finish up transfer #81521, ADT Farms, ADTD Farms, Midway Dairy. We are just waiting on the shape file for the 206 map.

Thanks,

Jim

Dear Mr. Millenkamp:

Transfer #81940, in the name of East Valley Cattle, LLC was received in our office on September 22, 2017. After a review of the application, it appears that additional information is necessary to describe how the transfer will distribute stockwater out to the approximately 10,000 acres of farmland. The application seems to indicate that the waste/precipitation water mix will be land applied via the irrigation system, but no mention is made of the method of distribution and delivery of the stockwater, as required in Transfer Processing Memo #24, 1. (6) h. (page 11) under **Requirements for an Acceptable Application for Transfer**. Is a separate system of piping going to be installed, along with stockwater troughs in each QQ?

If the watering of stock is not actually going to occur over the expanse of the nearly 10,000 acres, it may be proper to drop the stockwater component off any QQs where it is not, and will not, be occurring.

Processing of the application will no longer proceed until we receive the requested information. Please supply the above requested information within 30 days of the date of this letter, or I will return your Application for Transfer and initiate a refund of the filing fee with the State IDWR office. Feel free to contact me if you have any questions.

Sincerely,
