The Transfer of Water Right is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held.
- ii. The final agency action was taken.
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Application for Transfer of Water Right.

Original transfer application, received on April 28, 2017, identified only one well as a point of diversion. The purpose of the transfer was to correct the location of the place of use and point of diversion as they were licensed incorrectly. The transfer application identified only one well to be transferred but well D0055496 was identified on another line. The applicant amended the transfer application to show both wells and supplied a proper map which was received on February 15, 2018. On the amended transfer map and application, three wells were identified and one was labeled as abandoned. It appears a well (96-91-N-34) was drilled and is no longer in use. A search for an application for abandonment for that well was not found and it appears that "abandoned" means the well is there but no longer being used. A copy of that well is being attached to the transfer for reference.

Legal Notice Not Required
2/16/2018

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

RE: Application for Transfer of Water Right 96-8243

To Whom It May Concern,

On November 6, 2017 the Department of Water Resources (Department) sent a letter regarding some confusion on the number of wells being used under Water Right 96-8243. The letter asked for an amendment of transfer to correctly show all wells being used along with a map identifying them. The Department received a phone call saying it was being investigated how many wells were being used so an amendment of transfer could be filed. To date, we have not received an amendment.

If multiple wells are being used, the Department will need an Amended Application for Transfer of Water Right. This amendment should properly show the purpose of transfer (A, line 1), show the legal description of both wells (B, line 3), and supply a map showing both point(s) of diversions (7a).

If we do not receive an amended transfer by February 9, 2018, we will process the transfer identifying well 96-72-N-60. If other wells are being used, another transfer will need to be filed to allow use.

If you have any questions, please contact me at 208-762-2800.

Respectfully,

Adam Frederick

RE: Application for Transfer of Water Right 96-8243

To Whom It May Concern,

On April 28, 2017, the Department of Water Resources (Department) received an Application for Transfer of Water Right in your name. Department staff reviewed the application and found some discrepancies with the point(s) of diversion(s). The original well, 96-72-N-60, is identified correctly using the proper legal description for the proposed transfer. However, there is a 2nd well listed, D0055496, which is not described with a legal description and not identified on the map.

If both wells are being used, the Department will need an Amended Application for Transfer of Water Right. This amendment should properly show the purpose of transfer (A, line 1), show the legal description of both wells (B, line 3), and supply a map showing both point(s) of diversions (7a).

If you wish to pursue the amended transfer, please make the proper corrections and initial and date those changes. If we receive no response within the next 30 days, the Department will proceed with processing the transfer from a single well.

If you have any questions, please contact me at 208-762-2800.

Respectfully,

Adam Frederick
