DEPARTMENT OF
WATER RESOURCES

RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on Friday, December 22, 2017.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
2-10181	4/9/1970	SNAKE RIVER, tributary to COLUMBIA RIVER	3.200	640.00	160.00
Combined Lease Totals			3.200	640.00	160.00

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2018 to December 31, 2018. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

IN WITNESS WHEREOF, the parties have executed this Contract on the date following their respective signatures.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The following rights are diverted through point of diversion described above: 02-7059, 02-7060B, 02-7061, 02-7062, 02-7064, 02-7168A, 02-7168B, 02-7168C, 02-7237A, 02-7275, 02-7279A, 02-10180, & 02-10181.
13. The use of water for irrigation under this right may begin as early as March 1 provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).
If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.
- B. Please provide a description of the current water diversion and delivery system.
N/A. This water right is currently in the Water Supply Bank, has been in the Water Supply Bank for several years, and the Applicant is renewing the application for another year.
- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. N/A. See above.
- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.
- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.
- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. N/A. See above.
- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.
- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan? Yes ☐ No ☒
If yes, describe.

5. SALE/LEASE AGREEMENT

- A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☐?

If lease, specify the years when the use of water will be suspended: 1/1/18 to 12/31/18 (maximum lease period 5 calendar years).
(Year) (Year)

- B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.

Current rental rate.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

RE: WATER SUPPLY BANK LEASE CONTRACTS FOR WATER RIGHTS 2-7064, 2-7237A, 2-10181, and 2-10189

Dear Lessor:

Water rights **2-7064, 2-7237A, 2-10181, and 2-10189** were leased into the Water Supply Bank (Bank) as of December 22, 2017, in accordance with the enclosed executed lease contracts. **Your water rights, as described on the lease contracts, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contracts. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2018**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contracts upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

Terri J. Farris

**RE: APPLICATIONS TO LEASE WATER RIGHTS 2-7064, 2-7237A, 2-10181, and 2-10189
TO THE WATER SUPPLY BANK**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your applications to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts along with signing authority within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contracts are not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2018**, unless the rights are released earlier by the Board, or upon your request. To release the rights from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

Memorandum

To: Water Rights 2-7064, 2-7237A and 2-10181

From: Remington Buyer

Date: January 30, 2018

Re: Water Supply Bank Lease Application Nos. 986, 987 and 988,

Purpose/Narrative: Applications to renew the lease of the above listed water rights were received from Crown Farm Outback LLC on December 22, 2017.

Authority to File: These rights are recorded in IDWR's records as belonging to Crown Farm Outback LLC (C/O Crown West Realty). The lease applications have been submitted by Oliver Lawrence, listed as an authorized representative of Crown Farm Outback LLC. The applications have also been signed by Bryce Farris, who listed himself as the attorney for the applicants. The relationship of Mr. Lawrence to Crown Farm Outback is unclear and confirmation of Mr. Lawrence's capacity to transact on behalf of Crown Farm Outback will be sought prior to execution of new lease contracts.

Owyhee County records indicate the land to which water right 2-7237A is appurtenant belongs to Jeff and Vivian Good as well as Nate and LaVonne Good, while the land to which water rights 2-7064 and 2-10181 is appurtenant belongs to Robert and Michelle Dirks. Per a review of water right documentation (summarized below in the validity/forfeiture evaluation section) it is understood that the water rights were legally conveyed by the land owners to Robert and Connie Smith, who have subsequently conveyed the water rights to Crown Farm Outback. No concerns about authority to file.

Water Right Validity/Forfeiture Evaluation: Water rights 2-7064 and 2-7237A were both licensed in 1985, as was water right 2-7060, which is the parent water right from which water right 2-10181 was split. Applications to fully lease water rights 2-7064, 2-7060 and 2-7237A into the Bank were received by IDWR in 1999.

A letter from IDWR dated May 18, 1999 to Nate Good confirmed his water right (2-7237A) had been accepted for lease into the Bank until December 31, 2002. IDWR also issued a letter to Robert Dirks (dated November 2, 2000) informing him that his water rights (2-7064 and 2-7060) had been accepted into the Bank through December 31, 2000. Mr. Dirks subsequently responded to IDWR's letter and request his water rights be retained in the Bank through December 31, 2001.

The Dirk and Good couples respectively conveyed their water rights to Robert and Connie Smith in December 2000 and January 2001 and IDWR recorded the Smiths as owners of record for water rights 2-7064, 2-10181 and 2-7237A in 2001. The Water Supply Bank water right leases have remained active through December 31, 2017, during which time they were decreed by the SRBA Court (in 2009). No concerns about the validity of these water rights.

Injury Evaluation/Rentability: The water rights authorize diversions from the Bybee Canal. Per Water District No. 2 staff information, I was informed that Chris Alzola is a member of the Bybee Canal "association". I spoke with Chris by phone and emailed her on January 12th, to invite her (or another authorized representative of the Bybee Canal) to provide comments on whether there existed any injury concerns particular to the lease of these water rights to the Bank. No written or verbal comments were received. I have no further concerns about injury.

Enlargement of Use/Rentability: Active irrigation of the lands to which these water rights are appurtenant is not apparent. No concerns about enlargement.

Local Public Interest: Staff have no information to suggest the lease is contrary to the local public interest.

Beneficial Use/Conservation of Water Resources: No concerns about beneficial use/conservation of water.

Department/Watermaster Comments: Western Region and WD No. 02 comments were sought, though no comments were received.

Water Supply Bank Evaluation: It is recommended that these leases be approved.

Chris,

Nice speaking with you this afternoon. Attached to this email are three maps depicting the place of use where irrigation is authorized under water rights 2-7064, 2-7237A and 2-10181. These three water rights, held by Crown Farm Outback LLC, have been in the Water Supply Bank from 1999 through December 31, 2017 and applications to lease them back to the Bank through 2018 were recently received by IDWR.

Our WSB rules (IDAPA 37.02.03.25.02e – WSB Rule 25.02.e) require that where the right to water includes diversion via a joint diversion works owned or operated by a company, corporation (or in the case of the Bybee Canal, an association/organization), that written consent from the owner/operator of the diversion works should be included with the lease application.

Because the three above-listed water rights authorize diversion of Snake River water via the Bybee Canal, I'm reaching out to you, to obtain written comments from a representative of the Bybee Canal, regarding this lease proposal. You mentioned that Jack Post and/or Darren Agenbroad may be the presently authorized representative of the Bybee Canal. If that is correct, could you please forward this email to Mr. Post or Mr. Agenbroad, so that I might obtain from them written confirmation that the Bybee Canal does not object and does consent to the lease of these three water rights into the Bank for 2018?

Please feel free to give me call if you have any questions, thanks,

RE: AMENDED RELEASE DATE OF LEASED WATER RIGHT NO. 2-7064, 2-7237A, 2-10181 and 2-10189 FROM THE WATER SUPPLY BANK

Dear Lessors:

As requested on the Request to Release a Water Right From the Bank form received by the Department of Water Resources on May 29, 2013, all of water rights 2-7064, 2-7237A, 2-10181 and 2-10189 will be released from the Water Supply Bank as of **December 31, 2017**. The term of lease has been modified to reflect this **amended release date** in our database and water right file.

The five (5) year period of nonuse related to forfeiture of a water right shall begin to accrue upon release of the right from the bank or shall continue to accrue if a period of nonuse occurred prior to the lease date of the right to the bank.

Contact this office at 208-287-4800 if you have questions.

Sincerely,

Water Supply Bank

WATER SUPPLY BANK
REQUEST TO RELEASE A WATER RIGHT FROM THE BANK

RECEIVED
DEC 21 2016
DEPARTMENT OF
WATER RESOURCES

ONE FORM PER WATER RIGHT

All water rights leased into the Water Supply Bank shall remain unused by the water right holder for the duration of the Lease Contract. The water right will not be released from the Water Supply Bank until the conclusion of the Lease Contract unless otherwise authorized by the Idaho Water Resource Board. Water right holders may use this form to petition for early termination of their Water Supply Bank Lease Contract.

Water right holders seeking an early termination of a Lease Contract must demonstrate justifiable need for the release. Water rights under Lease Contract that are eligible for early termination can be released from the Water Supply Bank if the release will not impair administration of the Water Supply Bank. **If a water right is currently rented, it cannot be considered for release until the Rental Agreement concludes.** A water right is not released from the Water Supply Bank until written release confirmation is issued by the Water Supply Bank.
