1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. WATER SUPPLY BANK LEASE CONTRACT No. 743

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
13. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than April 3, 2009.
14. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.

Subject: RE: Lease Review - Sleger Revocable - 63-7753A

Mary,

No local area concerns come to mind with this lease. The current POU falls within the S Ada Co GW Concern Area, but I believe the right is still rentable. I would recommend this right be used to fill rental requests for uses within the S Ada Co GW Concern Area first before being used to fill rental requests outside this area. Thank you for the opportunity to comment.

Water right SRBA decreed in 2009; transfer and ownership change in 2013; 28 acres placed in the Bank for pivot corners			
POU Overlap by water rights 63-7427D, -7427E, 7427F and -33309 for PPU of 399 acres, limited to 328.3 acres combined, this water right limited to 156 acres. The leased POU will not continue to receive irrigation, no concerns of enlargement; no irrigation district.			
Within South Ada County Area of Concern and IDWR Basin 63			
No other concerns with the lease; Careful rental review and consideration of South Ada County Area of Concern for Ground Water			
Need better explanation why no enlargement - Combined rights are additive, not overlapping Err under all rights = a total of 328.3 acres.
