

IN-OFFICE BENEFICIAL USE FIELD REPORT

Permit No: 65-23414

Examiner: Patrick Kelly

Date: 12/29/2017

In-office qualification (IDAPA 035.01.r): ☐ Irrigation ≤ 5 acres
☐ Stockwater storage ≤ 14.6 af
☒ Total diversion rate ≤ 0.24 cfs and not irrigation or storage

Current Owner Name: Dennis & Vicki Gribble

Address: 5321 Keybridge Dr Boise ID 83703

Beneficial Use Fee Paid: \$0

Receipt:

Source: Groundwater

Source change? ☒ N ☐ Y Change clarifies originally intended source.
 If not – void permit.

Point of Diversion			NE				NW				SW				SE			
Twp	Rge	Sec	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE
11N	03E	14							X									
									L2									

Method of Determination: Conversation with permit owner stated the diversion exists on their property.
 This point is confirmed by digital PLSS boundary map.

POD change? ☒ N ☐ Y

Method of Determination: 2 cabins visible using aerial imagery within Gribble taxlot boundary.

POU change? ☒ N ☐ Y

Purpose of Use: Domestic

Purpose change? ☒ N ☐ Y

Method of Determination: Presence of homes define domestic use.

Standard Season of Use: 1/1 to 12/31

Update required on license? ☒ N ☐ Y**Overlap Review** POD overlap? ☒ N ☐ Y WR's:Analysis Attached ☐ Comments: Current owner says diversion only services 2 cabins on property.POU overlap? ☒ N ☐ Y WR's:

Comments: Other domestic rights relevant to separate properties within QQ.

Diversion Rate Permitted Rate: 0.04 cfs BU Standard Limit: 0.04 cfs
 BU Fee Limit: 0.04 cfs Theoretical (optional): cfs
Recommended Total Div Rate: 0.04cfs

Annual Volume

For Irrigation: cfs x 1.9835 x days = af
 acres x af/ac (FHR) = af
 Smaller of two volumes = af

For other uses: 1.2 af/home * 1 home = 1.2 af (per Admin Memo #22)

IN-OFFICE BENEFICIAL USE FIELD REPORT

Recommended Amounts

Beneficial Use	Season of Use	Diversion Rate (cfs)	Annual Volume (af)
Domestic	1/1 to 12/31	0.04	1.2

Totals

0.04 cfs

1.2 af

Amendments Required☐ Change P.D.☐ Add P.D☒ None☐ Change P.U.☐ Add P.U.☐ Other:

Conditions: Right of way condition 004 was maintained since there are 2 known users on the system.

Have conditions of permit been met? ☒ Y ☐ N

Narrative: The original application was made for 2 cabins. Documents in the backfile indicate that the Gribbles could not file for a right on the Hanson cabin since they do not have a possessory interest in the use. The application was amended to only reflect the Gribble's use and a diversion rate of 0.04 cfs. Comments in the file suggest that the Hanson's would file for their own right, but have not as of today.

There is much confusion surrounding overlap between water right 65-7231 and this permit. The permit owners were given the option to file a transfer of water right 65-7231 if they could produce a quit claim deed from the current owner and relinquish the permit. The Gribbles decided to continue the licensing of this right. Water right 65-7231 remains active as a "paper" right, however the domestic use is likely to be occurring at a different location than where its legal descriptions authorize.

The exact location of the POD is not known. The shapefile was updated to reflect a point within the Gribble property, since the application for permit indicates such. The permit shape placed the diversion on the neighbors land.

RE: Licensing domestic use permit 65-23414

Dear Mr. and Mrs. Gribble,

On April 9, 2010, you filed an application for permit to appropriate water for a domestic use in the SWNW $\frac{1}{4}$ of Section 14, Township 11 North, Range 3 East. The application was approved and water right permit 65-23414 was issued on October 25, 2010. The final step in the water appropriation process is the issuance of a Water Right License.

Initiation for the licensing of your permit has begun. Review of water right file 65-23414 finds that the process started when an ownership change form was submitted for water right 65-7231 in September of 2009. The 65-7231 decree lists "unnamed stream" tributary to the "Payette River" for the domestic use. However, legal descriptions for place of use and point of diversion on right 65-7231 do not describe use within taxlot parcel number RP 00251001015. This parcel number matches current taxlot records associated with your property.

In permit 65-23414, you have described the source on your property as a groundwater well. Due to the discrepancy between sources, you were instructed by department staff in 2009 that water right 65-7231 *may* not carry any value. This is false, since a transfer or exchange process can correct these legal descriptions to match those that describe your property. Ultimately, your ownership change for right 65-7231 was returned and the process to file for a new water right was pursued, which was eventually issued under permit 65-23414.

There are two options you can take from this point. If you wish to maintain the use described under 65-7231, a transfer could move the water right to your property. However, this would require a new application process and a quit claim deed from current right owner Donald House. The fee for such a transfer would be \$350, but you would maintain a more senior priority date.

The second option is to continue licensing the permit that you filed in 2010, permit number 65-23414. This would be the simplest option, since it would not require another application process or additional cost.

Please call me to discuss any of the information above, or questions you might have at 208-334-2190 within the next 30 days. I would be happy to schedule a time to assist you in completing the required paperwork should the transfer be pursued. Thank you for your attention to these matters.

Respectfully,

Patrick Kelly
