APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

WATER RESOURCES
DIVISION REGION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the Application for Transfer Instructions for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☒ Change diversion point(s) ☒ Add diversion point(s) ☐ Ownership change ☐ Ownership split

1. APPLICANT(S) City of Nampa Phone (208) 468-5420
2. MAILING ADDRESS 411 3rd St. S. City Nampa
State ID Zip 83651 Email _____

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the fee schedule.

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 63-2449, 63-2450, 63-2484, 63-2780, 63-2787, 63-2943, 63-5257, 63-7003, 63-7708, 63-8312, 63-9853, 63-9889

- ☒ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.

4. TOTAL AMOUNT OF WATER transferred is 49.04 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)

5. POINT OF DIVERSION – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov, *Water Right Transfers, Online Resources*.

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

The diversion system is the existing municipal water supply distribution system for the City of Nampa. Measuring devices and lockable controlling works are or will be installed as required by Water District 63.

- b. Who owns the property at the point(s) of diversion? City of Nampa; The General Assembly and Church of the First Born
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

See attached "Option Agreement to Purchase Well Lot and Permanent Easement" for Locust Ln. well site (aka Tio Ln. well site)

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

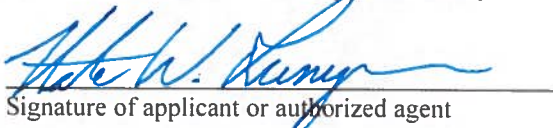

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No
☐ If yes and there are multiple owners, attach a [Lessor Designation](#) form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an [IRS Form W-9](#).
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and 1/4 1/4 of section information. The *Map Tool*, available at maps.idwr.idaho.gov/TransferApplicationLayouts/ provides a satisfactory template for creating the required map.

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Option Agreement to Purchase Well Lot and Permanent Easement

Project No. 05-1717
Parcel No: R2926101100
Project Name: Tio Lane and Burke Lane Irrigation Supply and Pipeline

THIS AGREEMENT, made this 18th day of August, 2017 between the City of Nampa, herein called "CITY", and The General Assembly and Church of the First Born, Inc., herein called "GRANTOR".

WHEREAS, CITY has a need to acquire additional real property for a well lot (well lot) and a permanent access and utility easement (permanent easement) for the above referenced project,

WHEREAS, the GRANTOR is the owner of 550 West Locust Lane in Nampa, Idaho 83686,

WHEREAS, the GRANTOR does herein deliver to the CITY an option to purchase a portion of the above referenced property for a well lot and permanent easement with the conditions and terms described below.

NOW THEREFORE, the parties hereto agree as follows:

1. CITY shall pay GRANTOR and mortgage/lien holder(s), if any, such sums of monies as are set out below. GRANTOR agrees to pay all taxes and assessments due and owing at closing, including those for the current year.
2. This contract shall not be binding unless and until executed by the Mayor or his authorized representative.
3. The parties have herein set out the whole of their Agreement, the performance of which constitutes the entire consideration for the option to purchase said property and easement and shall relieve the CITY of all future claims or obligations on that account or on account of the location and construction of improvements within the well lot and permanent easement.
4. GRANTOR represents that to the best of their knowledge no hazardous materials have been stored or spilled on the subject property during their ownership or during previous ownerships at least insofar as they observed or have been informed. In the alternative, if the GRANTOR has knowledge of storage or spill of hazardous materials on the subject property, that information is set out below. This sale is conditional upon full disclosure of any such information.

5. CITY and GRANTOR agree that the location of the well lot and permanent easement are shown in Exhibit A. The well lot is located at the north end of said property and is approximately six-tenths (0.6) of an acre in area. The permanent easement is twenty (20) feet wide from Locust Lane to the south boundary of the well lot. Exact location and dimensions of the well lot and easement will be finalized upon execution of this option and purchase of the property.
6. In payment for the option to purchase the well lot and permanent easement, the CITY will waive the sewer connection fee for the GRANTOR. The monetary value of the connection fee is [REDACTED]. The option to purchase the well lot and permanent easement will expire one hundred fifty (150) days after the effective date of this agreement. During the one hundred fifty (150) day term of this option, the CITY, or CITY's authorized contractor, will drill a test well on the well lot and perform pump tests to determine the productivity of the aquifer directly below the well lot. Based on the results of the pump tests, the City will determine if the option to purchase the well lot and permanent easement will be executed.
7. GRANTOR agrees to allow the CITY, or CITY'S authorized contractor, to utilize the GRANTOR'S greenspace during the test well and future production well pump tests to discharge water. If the volume of discharged water from the pump tests is too large to spread across the GRANTOR'S greenspace, the GRANTOR agrees to allow the CITY, or CITY'S authorized contractor, to construct a temporary pipeline to discharge the water offsite.
8. If the CITY chooses to exercise the option and purchase the well lot and permanent easement, the agreed upon terms are as follows:
 - a. CITY will purchase the well lot and permanent easement as generally shown in Exhibit A for [REDACTED]
 - b. CITY will provide all services relating to surveying needed to purchase the well lot and establish the permanent easement.
 - c. GRANTOR agrees to sell to the City a well lot and permanent easement as generally shown in Exhibit A for [REDACTED]
 - d. GRANTOR agrees to construct the gravel access road to the well lot, and be responsible for all costs incurred associated with said construction. The access road will be constructed to the specifications outlined in Exhibit B.
9. GRANTOR agrees to give the CITY legal and physical possession of the land herein acquired by the CITY upon execution of the option and GRANTOR's receipt of payment.
10. This agreement will not be recorded without prior written agreement of both parties.

11. There is no earnest money consideration of any kind related to this transaction.
12. The terms and provisions of this Option Agreement, and all documents being executed hereunder, are material and shall survive the closing and the transfer of title to CITY and shall remain in full force and effect thereafter.
13. GRANTOR agrees to the following:
 - a. Execute a Warranty Deed for the Acquired Land upon execution of this option and receipt of payment.
 - b. Execute a Permanent Easement for access and utilities to the Acquired Land as generally described in Exhibit A attached hereto and a part hereof upon execution of this option and receipt of payment.

IN WITNESS WHEREOF, the parties have executed this Agreement the day and year first above written.

Subject: Application for Transfer – Add a Point of Diversion
City of Nampa Locust Ln. Well

Dear Angie,

On behalf of the City of Nampa, SPF is pleased to submit the enclosed application for an additional point of diversion to be added to the City's existing water rights that have been decreed with alternate points of diversion. The application proposes to add an additional well that will be commonly known as the "Locust Ln. well".

The filing fee for this application has been calculated based on the estimated diversion rate contributed from the new well: 2,250 gpm or 5 cfs. This fee is \$820.00; you will find a check for that amount enclosed.

Please contact me with any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roxanne Brown", is written over a horizontal line.

The purpose of this transfer is to add an additional well to City of Nampa's municipal system as well as correcting/changing the legal description for 7 other POD's to 12 of City of Nampa's Municipal water rights. All proposed POD changes fall within the City of Nampa's service boundary.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 81871**

CS PROPERTY DEVELOPMENT LLC, PO BOX 27, BOISE, ID 83707; has filed Application No. 81871 for changes to the following water rights within ADA County(s): Right No(s). 63-34223, 63-34224, 63-34225, 63-34226. The applicant proposes to replace the current points of diversion on each of the 4 water rights with 3 different wells. The change will remove the points of diversion from property owned by another party onto property they own. The new wells are located on S Cole Rd about 20 kilometers south of Boise ID between Kuna Mora Rd and Barker Rd.

PROPOSED AMENDMENT OF WATER PERMIT

CS Property Development LLC of PO Box 27 Boise ID 83707 filed application no. 81872 on 08/16/2017 to amend a water permit no. 63-34222 with a 09/02/1999 priority to divert groundwater totaling 0.62 cfs for irrigation purposes. The permit provides irrigation water for property located on S Cole RD about 20 kilometers south of Boise ID between Kuna Mora RD and Barker RD. The applicant proposes to amend the permit to replace the 6 current points of diversion with 3 different ones. 2 of the new points of diversion are existing wells located in the Govt Lot 7 (SWSW) of section 6 of township 01N and range 02E. A new well is proposed in the SESW of section 6 of township 01N and range 02E.

Good afternoon Roxanne,

As I understand the transfer proposed, you are not wanting to place individual limits on the 8 POD's being transferred. Thus, without doing so, the fee structure for applications for transfer is based on the total rate associated with the proposed change (in cfs), which in this case is the 49.04 cfs associated with all 12 rights being transferred. Please see the attached transfer fee memo for calculating transfer fees.

Conversely, the alternative option for you, would be to provide the individual rates for these particular POD's and request that these POD's be limited to said rates. However, it is my understanding that it is not the intention of this transfer to place limits on said POD's.

If you still have questions in regards to this reasoning please feel free to contact myself, or Nick Miller.

Justin – Please bear with me, the fees in this case seem to fall in a gray area. The fee schedule is based not on water rights, but on quantity transferred. The water rights in question list alternate points of diversion for each municipal right

and a flow rate for each right. The decree of each right lists the alternate points of diversion, and the original well associated with that right (see 63-7003 as an example). For instance, we know the 7.68 cfs authorized by 63-7003 is associated with the Birds Eye well, which is correctly described on the decree in the Conditions. Nampa does propose changing the legal description of the Birds Eye well. Our thinking is the fee is associated with the diversion rates for wells described on water rights 63-2449 and 63-2787 for a total of 35.8 cfs. When your analysis is done for those wells, the other rights can have the PODs updated without further analysis.

Please let me know if you understand this reasoning.

The fee does apply to the water rights being changed, which this transfer proposes the change of 12 rights whose total rate equates to 49.04 cfs.

I assumed the fee applied to the water rights being changed plus the new point of diversion. No changes are required for the other rights, just the addition of the new points of diversion.

Roxanne,

The \$2,660 fee that you came up with pays for a transfer up to 36 cfs. However, considering there are no combined use limits on any of the rights the total amount being transferred would be 49.04 cfs which would require a fee of \$3220 minus the \$820 already submitted. Thus, a fee of \$2400 would be needed to proceed.

Justin – Please check my math. I calculate the fee should be \$2,660 minus \$820 submitted, or \$1,840 needed today to proceed. Correct?

Subject: City of Nampa Transfer 82046

Good Afternoon Roxanne,

I recently began reviewing the City of Nampa transfer that proposes adding a diversion point and transferring 5.0 cfs. The transfer also proposes correcting the legal description of seven other POD's. Because POD corrections to partial decrees are no longer accepted under transfer, these would be considered changes to diversion points. Thus, I wanted to clarify with you, is the applicant wanting to limit all 8 POD's to 5.0 cfs together as the transfer is currently proposing? Or, to transfer the actual respective amounts of water that those 7 POD's being corrected actually produce? I thought I would give you and your client the option now, to pay more so that these 8 wells aren't limited to just 5.0 cfs.

Your response at your earliest convenience is greatly appreciated.

Thanks and regards,
