4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
63-7011A	Irrigation	2.18	490.5	109		0.06	13.5	3.0
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.06	13.5	3.0
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicants:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

MEMORANDUM FOR AGREEMENT # 210

To: Water Right 63-34417
From: Rachael Smith
Date: February 2, 2018
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank for Jeff and Jeanne Barr

PURPOSE/NARRATIVE:

An application to rent water from the State Water Supply Bank was received on January 8, 2018. The applicants request rental of groundwater for 3 acres of the total 5.7 acres of their water right 63-34417 through the 2020 calendar year. The parent right 63-7011A was leased into the Bank indefinitely in 2012. Since then, rights have been split from this parent right and maintained as a lease in the Bank. This rental request is for the property owners to rent their own leased water right from the Bank.

AUTHORITY TO FILE:

The rental application was signed by Jeff and Jeanne Barr to irrigate a portion of their property. The rental place of use and point of diversion are owned by the applicants.

WATER RIGHT VALIDITY:

63-34417 was recently split from water right 63-7011A. 63-7011A was decreed in 2009 and leased into the Bank indefinitely in 2012. The current lease of 63-7011A expires in 2020. There are no forfeiture concerns for this right.

INJURY TO OTHER WATER RIGHTS:

This rental proposes to rent the water right at actual place of use for right 63-34417. There is no point of diversion overlap and no injury is expected.

ENLARGEMENT OF USE:

No rights overlap this right. The rental will be limited to the rates and volumes per acre defined on the water right. No enlargement is anticipated.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location for the rental is not subject to a Water District. The IDWR Western Regional Office did not have any concerns regarding this rental.

Hi Angie,

Hope you had a great week! Attached are a review memo and map for a WSB rental. This is a part of Deersky Ranch Subdivision where the original right has been split and transferred to individual lot owners, so the owners are renting their own right.

Please let me know if you have any questions or concerns.

Subject: Water Bank Rental Application

Dear Clay,

Per your direction, enclosed on behalf of Jeff and Jeanne Barr is a water bank rental application for a portion of water right 63-7011A currently leased to the bank under the Deersky Ranch HOA contract. The applicants understand the rental fee will include only Department administrative costs because they are requesting rental of their own water designated under water right 63-34417 per approved transfer No. 81568.

Please let me know if there are any questions. Thanks Clay.

Sincerely,

Lori Graves
Water Rights Specialist
