**PROTESTANTS' EXPERT
WITNESS DISCLOSURES**

IN THE NAME OF LITTLE WILLOW
IRRIGATION DISTRICT

Protestants Thomas Roland, et al., through undersigned counsel of record, hereby file these Expert Witness Disclosures, pursuant to the Department's Scheduling Order of December 12, 2017, the Department's Rule of Procedure 520.02, and Idaho Rule of Civil Procedure 26(b)(4).

Protestants expect to ask the following individuals to present expert witness testimony in the hearing of this matter:

Dave Shaw, Water Resource Project Manager/Hydrologist, ERO Resources Corporation, 4001 East Main Street, Emmett, ID 83617, (208) 365-7685, dshaw@eroresources.com.

A complete statement of all opinions to be expressed and the basis and reasons for the opinion are contained in the expert report attached hereto as Exhibit A.

The data and information considered by Mr. Shaw in forming his opinions include the following:

Application for Transfer No. 81482 filed by Little Willow Irrigation District (February 21, 2017)

Notice of Protest of Transfer No. 81482 filed by Protestants (May 8, 2017)

IDWR Transfer Processing Memorandum No. 24 (December 21, 2009)

Water right records, maps, and SRBA partial decrees for Little Willow Irrigation District water rights 65-64, 65-2067, 65-2149, 65-2973, 65-3130, 65-3131, 65-3132, 65-3133, 65-3134

Water right records, maps, and SRBA partial decrees for water rights 65-2240 and 65-5773

Little Willow Irrigation District first set of written discovery responses (September 21, 2017)

Little Willow Irrigation District's supplemental and second set of written discovery responses (December 26, 2017)

June 14, 2016 Little Willow Irrigation District Board Meeting minutes included in 9-21-17 discovery responses

February 14, 2017 Little Willow Irrigation District Board Meeting minutes included in 9-21-17 discovery responses

Section 42-222, Idaho Code

PRISM Climate Data, Northwest Alliance for Computational Science and Engineering, Oregon State University

The exhibits Mr. Shaw may use to summarize or support his opinion are contained within these Expert Witness Disclosures.

Mr. Shaw's qualifications are set forth in Exhibit B hereto. Mr. Shaw has not authored any publications within the preceding ten years.

The compensation to be paid for Mr. Shaw's testimony is \$148.00 per hour.

Mr. Shaw has testified as an expert witness in the following matters within the preceding four years:

In the Matter of Accounting for Distribution of Water to Federal On-Stream Reservoirs in Water District 63

In the Matter of Friend, et.al. v Nettleton, Elmore County Case CV-2013-1197

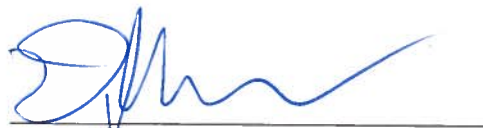

In the Matter of Application for Permit No. 57-11849 in the Name of Junayo Ranch Ltd Partnership

In the Matter of Application for Permit No. 74-16008 in the Name of Lynn Herbst and Robin Herbst

In the Matter of Application for Permit No. 57-11879 in the Name of Stacey Budell

Application for Transfer No. 81482 In the Name of Little Willow Irrigation District

Opinion

1. The Applicant has not provided, and apparently does not have, any data to document historical diversion amounts under the Applicant's water rights through existing points of diversion.
2. The Applicant cannot show the additional point of diversion will not reduce the water supply available to downstream water rights 65-2440 and 65-5773.
3. Reducing the water supply available to downstream water rights 65-2440 and 65-5773, in this water short basin, will result in injury contrary to § 42-222, Idaho Code.

Introduction

The Applicant, Little Willow Irrigation District (LWID), delivers natural flow from Little Willow Creek and storage water from Paddock Reservoir to irrigation water users from several points of diversion along lower Little Willow Creek. Water rights 65-2440 and 65-5773 (the "Roland Rights") are Little Willow Creek rights diverted approximately 2.5 miles downstream of the furthest downstream LWID point of diversion, known as the Wilson diversion. There are no points of diversion between the Wilson diversion and the Roland Rights points of diversion.

The attached photos show the Wilson diversion as it appeared on October 13, 2017. The diversion consists of a push-up dam shown in Photo 1, attached. Photo 2 is the ponded area upstream of the push-up dam in the Little Willow Creek channel. Photo 3 is the Little Willow Creek channel downstream of the push-up dam. Photo 4 is the control structure on the Wilson Ditch showing water continuing in the Wilson Ditch and water returning to Little Willow Creek. The headgate in the center of the photo controls the flow that continues down the Wilson Ditch and the overflow structure in the left of the photo controls the flow back into Little Willow Creek. There are no apparent measuring devices associated with either structure.

The application for transfer indicates the proposed point of diversion is intended to be an additional point of diversion rather than a replacement for an existing point of diversion. (Ex. A, p. 1.) One of the maps attached to the application shows a buried pipeline from the proposed pump at the new point of diversion that will connect to an unnamed ditch. (Ex. A, p. 3.) In response to item 6.a. in which the application for transfer form asks "... how you will accommodate a measuring device and lockable controlling works ..." the Applicant responds, "Ditches and Headgates and some pumps." (Ex. A, p. 2.)

Protestants' Interrogatory No. 6 asked the Applicant to identify for each point of diversion "... the location of ... any associated measuring devices ..." but all answers to interrogatories have been silent regarding measuring devices owned or operated by the Applicant. (Ex. B, pp. 6-7 (discovery responses of 9/21/17; Ex. C, p. 1 (Lawrence letter of 11/30/17; Ex. D, pp. 3-4 (discovery responses of 12/26/17).) Minutes from the Applicant's Board of Directors meetings on February 14, 2017 and June 14, 2016 indicate the purpose of the new point of diversion is to capture water that "... was waisted (sic) last year" that otherwise "... goes to the Wilson or into the river." (Ex. B, p. 20 (2/14/17 minutes); Ex. B, p. 16 (6/14/16 minutes).)

Protestants' Interrogatory No. 11 to the Applicant asked how the requested diversion rate in the pending transfer Application was calculated. The Applicant responded the 4 cfs is based on the estimated flows available in the creek at the location of the proposed new point of diversion. (Ex. D, pp. 4-5 (discovery responses of 12/26/17).) Any water in excess of the amount needed by Mr. Horst will be pumped into either the Patton or Nelson ditches. (Ibid.)

Analysis

Little analysis is possible given the lack of information provided by the Applicant. The amount of water historically diverted under water rights 65-2240 and 65-5773 can be determined based on power records for the river pumps used to divert those rights. It is not possible to determine the amount of water historically diverted by the Applicant, LWID.

Since this is an application for an additional point of diversion rather than a change in point of diversion, the diversion of additional water is a possibility that could result in the injury of downstream water rights. As previously discussed, excerpts from the LWID minutes of their Board of Directors meetings on February 14, 2017 and June 14, 2016 indicate an intent to divert 4 cfs (200 inches) based on the average water supply available at the new point of diversion to prevent that water from reaching the downstream Wilson diversion or the river. (Ex. B, p. 20 (2/14/17 minutes); Ex. B, p. 16 (6/14/16 minutes).) Basing the diversion rate for the new point of diversion on the average water supply available indicates the intent to divert all water available at the new point of diversion during periods of average or lower flows in Little Willow Creek. Without records of historical diversions by the Applicant it will not be possible to determine if other diversions will be reduced to compensate for the additional diversion of water at the proposed new point of diversion.

As noted in the June 14, 2016 minutes, the intent of the new point of diversion is to divert water from Little Willow Creek that otherwise returns to Little Willow Creek and the Roland's points of diversion. (Ibid.)

Little Willow Creek is a limited water source even with the Paddock Reservoir storage water available to the LWID water users. Discharge records for Little Willow Creek are not known to exist but the Applicant's own proposal to capture more water through a new point of diversion is a good indication of the limited water supply that is available in the drainage. Little Willow Creek is similar to other high desert drainages, many of which are ephemeral, in Southwestern Idaho where the annual precipitation is limited. PRISM¹ data show the 30-year normal precipitation in the Little Willow Creek basin ranges from 23.5 inches per year in upper Little Willow Creek to 10.8 inches per year near the mouth of Little Willow Creek, near the points of diversion for the Roland Rights.

Conclusion

When diversion amounts are increased in a water supply limited basin, downstream water supply is reduced, and downstream water rights are injured. The Applicant has not provided any explanation of how injury to downstream water rights will be avoided or any actions that are proposed to mitigate the injury to downstream water rights.

APPLICATION FOR TRANSFER OF WATER RIGHT - POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the Application for Transfer Instructions for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☐ Change diversion point(s) ☒ Add diversion point(s) ☐ Ownership change ☐ Ownership split

1. APPLICANT(S) Little Willow Irrigation Phone 208-739-5844
2. MAILING ADDRESS P.O. Box 807 City Payette
State Idaho Zip 83661 Email LDahnke@FmrcBlue.com

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the fee schedule.

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 65-64, 65-2067, 65-2149, 65-2973, 65-3130, 65-3131, 65-3132, 65-3133, 65-3134

- ☐ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov Water Right Transfers, Step 1, or by contacting any Department office.

4. TOTAL AMOUNT OF WATER transferred is 4cfs cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)

5. POINT OF DIVERSION - Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov Water Right Transfers, Online Resources.

New?	Lot	%	%	%	Sec	Twp	Rge	County	Source	Local name or tag #
Yes					36	09N	04W	Payette	Little Willow Creek	
									Indian Creek	
									Unnamed Stream	
(All others as existing)										

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Ditches And Headgates And Some pumps

- b. Who owns the property at the point(s) of diversion? Daryl + Carol Horst
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

Verbal Agreement

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. MAP - ☐ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and $\frac{1}{4}$ $\frac{1}{4}$ of section information. The Map Tool, available at maps.idwr.idaho.gov/Transfer/ApplicationLayouts/ provides a satisfactory template for creating the required map.

8. SIGNATURE - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Larry Dahnke

Signature of applicant or authorized agent

R. Larry Dahnke President

Conditions of Approval:

1. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
2. THIS RIGHT WHEN COMBINED WITH RIGHT NOS. 65-02067, 65-02149, 65-02973, 65-03130, 65-03131, 65-03132, 65-03133 & 65-03134, SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE WHEN MEASURED AT THE FIELD HEADGATE.
3. THIS RIGHT IS LIMITED TO THE IRRIGATION OF 2826 ACRES WITHIN THE BOUNDARIES OF THE LITTLE WILLOW IRRIGATION DISTRICT IN A SINGLE IRRIGATION SEASON. COMBINED RIGHT NOS. 65-02067, 65-02149, 65-02973, 65-03130, 65-03131, 65-03132, 65-03133 & 65-03134.
4. C18 THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.
5. C20 Basin 65 General Provisions No. 3, the Separate Streams General Provision, does not apply to appropriations of water after October 18, 1977.
This water right shall be administered as being from a separate source pursuant to Basin 65 General Provision No. 3. If the holder of this right seeks to change the right pursuant to Idaho Code § 42-222 or successor statute, nothing in this general provision shall preclude any other person or entity from demonstrating that such change in use would cause injury to its water right or from receiving any relief provided by law in the event of injury.

Right Acra Limit: 2,826.0

POU Total Acres: 2,826.0

Conditions of Approval:

1. THIS RIGHT IS LIMITED TO THE IRRIGATION OF 2826 ACRES WITHIN THE BOUNDARIES OF THE LITTLE WILLOW IRRIGATION DISTRICT IN A SINGLE IRRIGATION SEASON. COMBINED RIGHT NOS. 65-00064, 65-02067, 65-02149, 65-02973, 65-03130, 65-03132, 65-03133 & 65-03134.
2. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
3. C20 Basin 65 General Provisions No. 3, the Separate Streams General Provision, does not apply to appropriations of water after October 18, 1977.
This water right shall be administered as being from a separate source pursuant to Basin 65 General Provision No. 3. If the holder of this right seeks to change the right pursuant to Idaho Code § 42-222 or sucessor statute, nothing in this general provision shall preclude any other person or entity from demonstrating that such change in use would cause injury to its water right or from receiving any relief provided by law in the event of injury.
4. THIS RIGHT WHEN COMBINED WITH RIGHT NOS. 65-00064, 65-02067, 65-02149, 65-02973, 65-03130, 65-03132, 65-03133 & 65-03134, SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE WHEN MEASURED AT THE FIELD HEADGATE.
5. C18 THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.

Conditions of Approval:

1. C18 THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.
2. C20 Basin 65 General Provisions No. 3, the Separate Streams General Provision, does not apply to appropriations of water after October 18, 1977.
This water right shall be administered as being from a separate source pursuant to Basin 65 General Provision No. 3. If the holder of this right seeks to change the right pursuant to Idaho Code § 42-222 or successor statute, nothing in this general provision shall preclude any other person or entity from demonstrating that such change in use would cause injury to its water right or from receiving any relief provided by law in the event of injury.
3. THIS RIGHT IS LIMITED TO THE IRRIGATION OF 2826 ACRES WITHIN THE BOUNDARIES OF THE LITTLE WILLOW IRRIGATION DISTRICT IN A SINGLE IRRIGATION SEASON. COMBINED RIGHT NOS. 65-00064, 65-02067, 65-02149, 65-02973, 65-03130, 65-03131, 65-03132 & 65-03133.
4. THIS RIGHT WHEN COMBINED WITH RIGHT NOS. 65-00064, 65-02067, 65-02149, 65-02973, 65-03130, 65-03131, 65-03132 & 65-03133, SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE WHEN MEASURED AT THE FIELD HEADGATE.
5. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

Little Willow Irrigation District Board Meeting

Tuesday, Nov 8th, 2016 2:00 pm.

Location: 5700 Little Willow Road, Payette, Idaho 83661.

Attendants: Board members present: Mr. Dahnke, Mr. Roland, Mrs. Stephens
Ditch Rider Present: Jim Tucheck

RECEIVED

FEB 21 2017

**WATER RESOURCES
WESTERN REGION**

Minutes Nov 2016 Meeting:

Minutes were presented. The minutes were approved as presented.

Approve Bills /Financial Statement For Nov 2016:

The bills and financial statements were approved as presented.

Late Assessments For Nov 2016:

The assessments were presented to the board.

Points made by the board:

- There was 1 applicant from each of the districts that were nominated for the election. There was no election due to their only being one nominee from each district. Mrs. Stephens was nominated to the board holding a one year term. Mr. Dahnke was nominated to the board for a 3 year term.
- The board decided to have a measuring device put on each sprinkler pump instead of measuring each sprinkler head. With this the member will need a weir, a bubbler or a flow meter to go into each sprinkler system. The members that this applies to will have until the 2018 water season to install these devices.
- There have been a couple changes in properties recently.

New Business:

- There was no new business presented to the board.

Old Business:

- For the tree on the ditch house property. Mr. Roland talked to someone but he hasn't had a chance at this point. The board decided if he doesn't get a hold of them this week that they will go with the 1st bid.
- The board members received a letter from one of the members and read it.

Members Input:

- There was no new member input presented to the board.

The next board meeting is set for 2:00pm on Dec, 12th, 2016 located at the Ditch House.

RE: Transfer No. 81482
Water Right No(s). 65-2067, 65-2149, 65-2973, 65-3130, 65-3131, 65-3132, 65-3133,
65-3134, 65-64

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the INDEPENDENT ENTERPRISE and the WEISER SIGNAL on 4/19/2017 and 4/26/2017. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely
Administrative Assistant

RE: Transfer No. 81482

Dear Legal Notice Department:

Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 5/8/2017. Your cooperation is appreciated.

Sincerely,

Rachel Neely
Administrative Assistant

Enclosure(s)

The following application has been filed to appropriate the public waters of the State of Idaho:

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 81482**

LITTLE WILLOW IRRIGATION DIST, PO BOX 807, PAYETTE, ID 83661; has filed Application No. 81482 for changes to the following water rights within PAYETTE, WASHINGTON County(s): Right No(s). 65-2067, 65-2149, 65-2973, 65-3130, 65-3131, 65-3132, 65-3133, 65-3134, 65-64. Little Willow Irrigation District proposes to add one point of diversion to their water rights. They propose to add this new point of diversion approximately 13 kilometers east of Payette Idaho south of Little Willow Rd and between Bolton Canal and Nelson Canal. The applicant wants to divert up to 4.0 cfs of natural flow water from Little Willow Creek and Indian Creek water released from Paddock Valley Reservoir.

For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right(s) or proposed transfer(s), please see www.idwr.idaho.gov. Protests may be submitted based on the criteria of Idaho Code § 42-222. Any protest against the proposed change(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 5/8/2017. The protestant must also send a copy of the protest to the applicant.

Attorneys for Little Willow Irrigation District

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF:	)	LITTLE WILLOW IRRIGATION
	)	DISTRICT'S RESPONSES TO
APPLICATION FOR TRANSFER NO.	)	PROTESTANTS' FIRST SET OF
81482 IN THE NAME OF LITTLE	)	INTERROGATORIES AND REQUESTS
WILLOW IRRIGATION DISTRICT	)	FOR PRODUCTION
	)	
	)	

COMES NOW, the Applicant, Little Willow Irrigation District ("Little Willow"), by and through its attorneys of record, Barker Rosholt & Simpson LLP, pursuant to the Idaho Rules of Civil Procedure, and hereby responds to *Protestants' First Set of Interrogatories and Requests for Production* as follows:

GENERAL OBJECTIONS

1. Little Willow objects to the Discovery Requests and to the definitions and instructions to the extent they purport to require discovery responses beyond that required under the Idaho Rules of Civil Procedure. These responses are provided in accordance with the Idaho

Rules of Civil Procedure irrespective of any definitions and instructions that may accompany the discovery requests.

2. These responses are made subject to all objections as to competence, relevance, materiality and admissibility. These responses are subject to all objections that would require the exclusion of any statement, material or information herein provided if such requests were asked of, or any statement, material or information provided were made by witness present and testifying at hearing. All such objections are reserved and may be interposed at the time of hearing.

3. Little Willow specifically objects to the Requests for Production to the extent they seek information protected by the attorney-client privilege, the accountant-client privilege, the work product doctrine and the rules governing the discovery relating to experts as set forth in Rule 26(b)(4). The objection is intended to apply to all the discovery requests that seek such information and will not be repeated specifically for each request to which it applies. Little Willow, to the extent possible, construed each request as requesting only information and/or documents not subject to any applicable protection.

4. No incidental or implied admissions are intended. The fact that Little Willow has responded to any discovery request, or part thereof, should not be taken as an admission that they accept that the discovery request or the response or objection thereto constitutes admissible evidence. Similarly, the fact that Little Willow has responded to all or part of a request is not intended to and shall not be construed to be a waiver by Little Willow of all or part of any objection to other requests. Little Willow's answers to any discovery requests herein do not constitute a waiver of their right to object to any future additional, or supplemental discovery requests regarding the same or similar matters.

5. Each of these objections is incorporated into the response to each of the Discovery Requests as though set forth verbatim therein.

6. Discovery is ongoing and these responses may be incomplete. Little Willow reserves the right to supplement these responses in the future accordingly and pursuant to the Idaho Rules of Civil Procedure.

INTERROGATORIES

INTERROGATORY NO. 1: Please identify all persons known to you or your attorney who purports to have any knowledge that relates to the Application, or any fact pertinent to the subject of this case.

ANSWER TO INTERROGATORY NO. 1: Little Willow objects to this interrogatory on the grounds that it is unduly broad and burdensome, in that Little Willow is uncertain of the extent to which facts may be pertinent to the protests raised by Protestants in this case; because at this time the nature of the protests are themselves broad and ambiguous. Without waiving this objection, Little Willow states that every water user on Little Willow Creek may have information relevant to the subject of this case. Specifically, Little Willow believes that the following people have knowledge of the application, the protest and to Little Willow's operations:

Larry Dahnke – Authorized Agent for Applicant and President of Little Willow Irrigation District

Contact through counsel for Little Willow.

Susan Dahnke – Wife of Larry Dahnke

Contact through counsel for Little Willow.

Thomas G. Roland – Protestant

Contact through Protestant's counsel.

Irene J. Roland – Protestant (deceased)

INTERROGATORY NO. 2: Please identify each person answering and assisting in answering these Interrogatories and Requests for Production on behalf of the Applicant.

ANSWER TO INTERROGATORY NO. 2: Larry Dahnke, President of Little Willow Irrigation District, and counsel.

INTERROGATORY NO. 3: Please identify all witnesses you intend to call at the hearing of this cause, the subject matter, and general nature of the facts to which they will testify.

ANSWER TO INTERROGATORY NO. 3: Objection, vague and overly burdensome. Without waiving the objection, every person as identified in Interrogatory No. 1 above may be called as a witness in this proceeding. Specifically, Protestants and the Little Willow Board members may be called. Little Willow reserves the right to supplement this response.

INTERROGATORY NO. 4: Please identify any expert(s) you expect to call as an expert witness in connection with this matter, and please state: (a) the experts name, address, and set forth a complete curriculum vitae, or in the alternative, attach a copy of the expert's curriculum vitae hereto; (b) state the substance of the expert's conclusions and opinions, the physical evidence

(if any) analyzed, and the present custodian of any such physical evidence; and (c) any report prepared by such expert(s).

ANSWER TO INTERROGATORY NO. 4: At this time, Little Willow has not retained an expert to testify or as a consultant, however, it reserves the right to supplement this response in the future, subject to the requirements of I.R.C.P. 26(b).

INTERROGATORY NO. 5: Please describe in detail the purpose and goals of the Application and the particular issues, deficiencies, and/or problems it seeks to address.

ANSWER TO INTERROGATORY NO. 5: The Application is intended to increase the efficiencies of the District by adding a point of diversion so that water can be supplied to fields more directly than by way of upstream diversions. The additional point of diversion is not intended to increase the total diversions of natural flow. With respect to storage water, the intent is to re-divert storage from lower in the system and closer to a particular place of use.

INTERROGATORY NO. 6: For each of the District's existing points of diversion, please identify the location of the point of diversion, the diversion works and capacity, any associated measuring devices, the canal or other delivery facility associated with the point of diversion, the lands irrigated from the point of diversion, and the associated landowners.

ANSWER TO INTERROGATORY NO. 6: The District's existing points of diversion are as follows:

1. McIntyre diversion: concrete structure with outlet from Creek to McIntyre ditch.
2. Bolton diversion: concrete structure with boards to divert water from Creek to Bolton Ditch
3. Pump system on Humphrey's property: pumps water from Creek to sprinkler system on Humphrey's land.

4. Patton diversion: concrete structure diverts water from Creek into Patton ditch. Water travels down Patton approximately one (1) mile, and splits into Nelson ditch, and also travels on down Patton ditch. One pump is also at this location to water Pat Kelly's property.
5. Wilson diversion: dirt dam into concrete structure that diverts into Wilson ditch from Creek.

Aerial photographs of the District's place of use and points of diversion are included with the Application.

INTERROGATORY NO. 7: For the new point diversion proposed in the Application, please identify the proposed location of the point of diversion, the proposed diversion works and capacity, any associated measuring devices, the canal or other delivery facility that would be associated with the new point of diversion, the lands that would be irrigated from the new point of diversion, and the associated landowners.

ANSWER TO INTERROGATORY NO. 7: At the present time, it has been discussed to authorize Daryl Horst to install a pump at the new point of diversion identified in the Application and pump his Little Willow water allotment from the Creek instead of the canal system. The pump system will use an electric motor with a flow meter.

INTERROGATORY NO. 8: Please describe in detail any discussion of the Application at any District meetings or by District board members among each other or with other parties, and identify the date, time and place of the meeting or discussion, the participants, any other persons present, and the nature of the discussion regarding the Application.

ANSWER TO INTERROGATORY NO. 8: The Application was first discussed at the Board meeting that occurred on June 14, 2016, at 2:00 PM at 5700 Little Willow Road, Payette, Idaho 83661. Board members present included Mr. Dahnke, Mr. Roland, and Mr. Burlile. Also present were Jim Tucheck (ditch rider), Dick Peterson, Dan Butler, Elizabeth Stephens, Cameron

Mahler and Rick Painter. The Board discussed looking into the process of filing with the State to get a diversion. Please see enclosed Board meeting minutes.

The Application was next discussed at the December 13, 2016, Board meeting at 2:00 PM at 5700 Little Willow Road, Payette, Idaho 83661. Board members present at this meeting were Mr. Dahnke and Mrs. Stephens. Also present were Jim Tucheck and Daryl Horst. At this meeting, Mr. Horst asked about the diversion and a discussion was had in regards to the details of a diversion system as well as programs that may help pay for a portion of the system. Please see enclosed Board meeting minutes.

The next Board meeting when the Application was discussed occurred on February 14, 2017, at 2:00 PM at 5700 Little Willow Road, Payette, Idaho 83661. Board members present were Mr. Dahnke, Mrs. Stephens and Mr. Roland. Also present were Jim Tucheck, Pat Kelly and Sonja Craig. At this meeting, Mr. Dahnke presented that he is working on paperwork for the new point of diversion that comes out of the Creek by Mr. Horst's property. There was a discussion regarding the fees for this new point of diversion and the approval process. Mr. Roland argued that the diversion will cause damage downstream and that he will not second the motion to continue the application process. Mrs. Stephens made a motion to send payment to the State for the paperwork on the new diversion. Please see enclosed Board meeting minutes.

The most recent Board meeting where the Application was discussed occurred on June 13, 2017, at 2:00 PM at 5700 Little Willow Road, Payette, Idaho 83661. Board members present included Mr. Dahnke, Mrs. Stephens and Mr. Roland. Also present were Jim Tucheck, Josh Horst and Melissa Rawlins. Mr. Roland's protest to the Application was discussed. Please see enclosed Board meeting minutes.

INTERROGATORY NO. 9: Please describe in detail the procedures used by the District to obtain approval from the District water users to submit the Application on behalf of the District.

ANSWER TO INTERROGATORY NO. 9: The District obtained approval by the Board to submit the Application for Transfer at the Board meeting on February 14, 2017. The Application was discussed over the course of several Board meetings. At the February 14, 2017, Board meeting, the Application process and fees were discussed and Mrs. Stephens made a motion to send payment for the Application and get the paperwork started. Please see enclosed Board meeting minutes.

INTERROGATORY NO. 10: Please identify the location of any return flows into Little Willow Creek from within the District, the capacity of such return flow conveyance facilities and any associated historical measurements, the points of diversion and delivery facilities associated with such return flows, and the lands from which such return flows are derived.

ANSWER TO INTERROGATORY NO. 10: All District lands that are irrigated return some waste water either back into a canal or into the Creek at many different locations along the Creek. Little Willow does not control these return flows and does not record the amounts of return flows.

REQUESTS FOR PRODUCTION

REQUEST FOR PRODUCTION NO. 1: Please produce all documents and items of tangible evidence you expect to introduce at the hearing of this matter.

RESPONSE TO REQUEST FOR PRODUCTION NO. 1: Little Willow has not decided what documents it intends to introduce at trial.

REQUEST FOR PRODUCTION NO. 2: Please produce all documents and tangible evidence reviewed by any expert witness who you expect will testify at hearing.

**LITTLE WILLOW IRRIGATION DISTRICT'S RESPONSES TO PROTESTANTS'
FIRST SET OF INTERROGATORIES AND REQUESTS FOR
PRODUCTION**

RESPONSE TO REQUEST FOR PRODUCTION NO. 2: Little Willow objects to this request on the grounds that it exceeds the scope of I.C.R.P. 26(b)(4) and violates the attorney-client and work product privileges. Without waiving this objection, Little Willow states, Applicant has not retained an expert to date, however, reserves the right to supplement this response in the future.

REQUEST FOR PRODUCTION NO. 3: Please produce all documents, including but not limited to, treatises, journal articles, texts, or other literature that you or your expert witness will rely upon in this matter.

RESPONSE TO REQUEST FOR PRODUCTION NO. 3: Little Willow objects to this request on the grounds that it exceeds the scope of I.C.R.P. 26(b)(4) and violates the attorney-client and work product privileges. Without waiving this objection, Little Willow states, Applicant has not retained an expert to date, however, reserves the right to supplement this response in the future.

REQUEST FOR PRODUCTION NO. 4: Please produce a list of the names and addresses of witnesses with knowledge of the facts of this case, and any documents, recordings, or statements of such witnesses.

RESPONSE TO REQUEST FOR PRODUCTION NO. 4: Please see Answer to Interrogatory No. 3 and enclosed Board meeting minutes. Applicant is not aware of any recordings or witness statements.

REQUEST FOR PRODUCTION NO. 5: Please produce any records of any meetings, discussions, resolutions, or correspondence related to the Application, including but not limited to, any correspondence with Daryl and/or Carol Horst.

RESPONSE TO REQUEST FOR PRODUCTION NO. 5: Please see enclosed Board meeting minutes.

REQUEST FOR PRODUCTION NO. 6: Please produce any and all records, measurements, or other documents describing or depicting historical water diversions and water deliveries by the District.

RESPONSE TO REQUEST FOR PRODUCTION NO. 6: These documents are provided at the Board meetings, and therefore should be in Mr. Roland's possession. These documents are entitled "Water Used" with a year. These annual reports begin in 2011 through 2017 and are maintained by the District showing water used by individual water users from the Little Willow delivery system.

REQUEST FOR PRODUCTION NO. 7: Please produce any records or measurements of historical flows within Little Willow Creek.

RESPONSE TO REQUEST FOR PRODUCTION NO. 7: Applicant is currently not aware of the existence of any such records.

REQUEST FOR PRODUCTION NO. 8: Pursuant to Idaho Rule of Civil Procedure 34(a)(2), please identify three proposed dates when the Rolands, and/or their agents, can visit and inspect the District's diversion and conveyance facilities.

RESPONSE TO REQUEST FOR PRODUCTION NO. 8: Little Willow has no objection to inspection of the District's diversion and conveyance facilities. The District will provide access upon reasonable notice from Protestants.

REQUEST FOR PRODUCTION NO. 9: Please produce any agreement, including all terms of such agreement, that the District has entered into with Daryl and Carol Horst.

RESPONSE TO REQUEST FOR PRODUCTION NO. 9: The District has no written agreement other than as recorded in the minutes of the Little Willow Board meetings. The agreement would authorize Horsts to divert their share of District water from a pump in the Creek to deliver to the lands nearby.

REQUEST FOR PRODUCTION NO. 10: Please produce any and all documents and tangible evidence relating to your Answers to Interrogatory No. 5.

RESPONSE TO REQUEST FOR PRODUCTION NO. 10: See the Application and Board minutes describing the Application. In addition, the records of Little Willow's water rights on file with the Department may relate to water delivery issues. Those records are publically available from IDWR. Accordingly, Little Willow is not producing a copy of the Application or water right records for Little Willow, as those documents are equally available to Protestants.

REQUEST FOR PRODUCTION NO. 11: Please produce any and all documents and tangible evidence relating to your Answers to Interrogatory No. 6.

RESPONSE TO REQUEST FOR PRODUCTION NO. 11: Please see Application and IDWR records of water rights and Response to Request for Production No. 10.

REQUEST FOR PRODUCTION NO. 12: Please produce any and all documents and tangible evidence relating to your Answers to Interrogatory No. 7.

RESPONSE TO REQUEST FOR PRODUCTION NO. 12: Please see Application and Board meeting minutes.

REQUEST FOR PRODUCTION NO. 13: Please produce any and all documents and tangible evidence relating to your Answers to Interrogatory No. 8.

RESPONSE TO REQUEST FOR PRODUCTION NO. 14: Please see the enclosed Board meeting minutes.

**LITTLE WILLOW IRRIGATION DISTRICT'S RESPONSES TO PROTESTANTS'
FIRST SET OF INTERROGATORIES AND REQUESTS FOR
PRODUCTION**

REQUEST FOR PRODUCTION NO. 14: Please produce any and all documents and tangible evidence relating to your Answers to Interrogatory No. 9.

RESPONSE TO REQUEST FOR PRODUCTION NO. 14: Please see enclosed Board meeting minutes.

REQUEST FOR PRODUCTION NO. 15: Please produce any and all documents and tangible evidence relating to your Answers to Interrogatory No. 10.

RESPONSE TO REQUEST FOR PRODUCTION NO. 15: Little Willow is unaware of documentation of the return flows, unless it appears in IDWR records.

REQUEST FOR PRODUCTION NO. 16: Please produce all documents, including but not limited to minutes, from District board meeting relating to the subject of this case.

RESPONSE TO REQUEST FOR PRODUCTION NO. 16: Please see enclosed Board meeting minutes.

DATED this 21st day of September, 2017.

Little Willow Irrigation District Board Meeting

Tuesday, June 14th, 2016 2:00 pm.

Location: 5700 Little Willow Road, Payette, Idaho 83661.

Attendants: Board members present: Mr. Dahnke, Mr. Roland, Mr. Burlile

Ditch Rider Present: Jim Tuckeck

Guests Present: Dick Peterson, Dan Butler, Elizabeth Stephens, Cameron Mahler, Rick Painter

Minutes June 2016 Meeting:

Minutes were presented. The minutes were approved as presented.

Approve Bills /Financial Statement For June 2016:

The bills and financial statements were approved as presented. The transaction for the 4-Wheeler will be on July's statement, due to letting the secretary know.

Late Assessments For June 2016:

The assessments were presented to the board. There are 2 delinquent members at this time.

Points made by the board:

- The board brought up putting a chemical into the ditch to help with the issue of moss.
- The board said they can look into the process of filing with the state to get a diversion possibly this fall or winter.
- There was discussion with the members about the run off of the water with the system and how it works.
- A member of the board said that the members need to check and keep track of their water. That this is the member's responsibility to make it do what it needs to do.
- The board figures that there is about a 20% water loss in the ditches.
- The board discussed that they can't change the numbers of the water usage. That if there is a problem that the members need to communicate that when it is happening with the ditch rider.
- The board told the ditch rider to direct the members to the board if there are problems.
- The board mentioned that they can look into adjusting the allotment later on.

New Business:

- There was no new business presented to the board.

Old Business:

- There was no old business presented to the board

Members Input:

- Mr. Peterson brought up that he is getting moss that is clogging up the gate at night.
- Mrs. Stephens asked how many inches of water goes past them and where does it all go? Mr. Dahnke replied that it goes to the Wilson or into the river.
- Mrs. Stephens asked if there is a way to get it into other ditches rather than letting it go. Mr. Dahnke said they have to file with the state to get a diversion. He mentioned that no one has ever looked into this before. Also that no one has ever wanted to come up with the money or the time to go through the process.
- It was brought up that someone present at the meeting would like to personally look into it.
- A member asked where they were at for water usage. He had a discrepancies saying that he doesn't think that the measurements are correct. He said several times that he only got half and he never brought it up. Mr. Burlile said that he needs to communicate if he doesn't have the water that he ordered. This was discussed between the member and the board members.
- A member brought up that the water was fluctuating yesterday, that it measured correct in the evening and in the morning there was none.

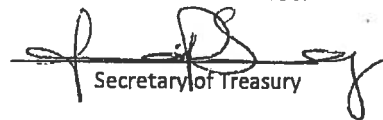

Ditch Rider:

- Mr. Tucheck mentioned that it takes a lot of water to get water to Mr. Tom Roland's.
- Mr. Tucheck presented the member water usage charts.
- Mr. Tucheck brought up that a few people don't understand what the measurements equate to and how it adds up fast. Also that some don't have an idea what an acre foot is.
- Mr. Tucheck brought up that Mr. Tom Roland will run out of water the first part of July. The ditch rider explained this and talked it over. Mr. Tom Roland would like to talk this over a bit because of not having an even flow.
- The reservoir was measured at 9,129 acre feet.

The next board meeting is set for 2:00pm on July, 12th, 2016 located at the Ditch House.

President, Board of Directors

Secretary of Treasury

12/13/2016

Little Willow Irrigation District Board Meeting

Tuesday, Dec 13th, 2016 2:00 pm.

Location: 5700 Little Willow Road, Payette, Idaho 83661.

Attendants: Board members present: Mr. Dahnke, Mrs. Stephens

Ditch Rider Present: Jim Tucheck

Members Present: Deryl Horst

Minutes Dec 2016 Meeting:

Minutes were presented. The minutes were approved as presented.

Approve Bills /Financial Statement For Dec 2016:

The bills and financial statements were approved as presented.

Late Assessments For Dec 2016:

The assessments were presented to the board.

Points made by the board:

- The pipe line is done and put in.
- There have been a few property changes
- Delinquent members were discussed

New Business:

- There was no new business presented to the board.

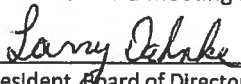

Old Business:

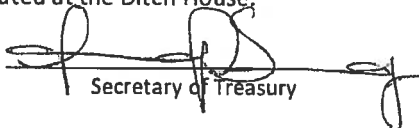

- There was no old business brought up.

Members Input:

- Mr. Horst asked about the diversion that has been brought up. He brought up that it may be good to put a bridge in there. They discussed the pumps and how this would be beneficial to the ditch to slow down the water. They discussed ways that it would work and some of the details. That there are programs to apply for it to get a portion of it paid for.

The next board meeting is set for 2:00pm on Jan, 10th, 2016 located at the Ditch House.

President, Board of Directors

Secretary of Treasury

2/14/2017

Little Willow Irrigation District Board Meeting

Tuesday, Feb 14th, 2017 2:00 pm.

Location: 5700 Little Willow Road, Payette, Idaho 83661.

Attendants: Board members present: Mr. Dahnke, Mrs. Stephens, Mr. Roland

Ditch Rider Present: Jim Tucheck

Members Present: Pat Kelly and Sonja Craig

Minutes Feb 2017 Meeting:

Minutes were presented. The minutes had some errors. Sent back to secretary for changes.

Approve Bills /Financial Statement For Feb 2017:

The bills and financial statements were approved as presented.

Late Assessments For Feb 2017:

The assessments were presented to the board.

Points made by the board:

- The ditch rider will look into the hole in the ditch to find it
- With the measuring devices, pretty much everyone has complied
- Next month the water assessments will be sent out along with another reminder about the members measuring devices.
- Mr. Dahnke presented a letter to the board members of an example to send next month to the patrons.
- It was mentioned that the reservoir will be way ahead then last year as $\frac{1}{2}$ of the water that the reservoir got last year was after 2/8/16
- The board asked Mr. Tucheck how much ditch cleaning is left to do in the Spring.
 - Mr. Tucheck responded that he has to do the Wilson, from Mr. Dahnke's back to Mr. Roland's and the 2 Wilson's properties.
- The board asked Mr. Tucheck if there is work on the head gates to be done.
 - Mrs. Stephens has 2 head gates that need back on
 - They will have the members go out and check the head gates.
- Next month the board will set the allotment for the summer
- The board approved for Mr. Tucheck to get his spraying license.

Public Input:

Pat Kelly

- Met Jim
- Discussed measuring the water
- He is going to put a flow meter in
- Brought up that there is a hole in the ditch
- This is all new to him so they are learning

New Business:

- There was no new business presented to the board.

Old Business:

- There was no old business brought up.

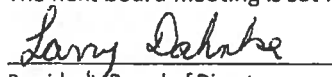

New Point of Diversion:

- Mr. Dahnke is working on paperwork for the new point of diversion that comes out of the creek down by Mr. Horst.
- They want to combine the pumps so that the excess water goes into the canals on one side or the other with whatever excess there is.
- For the new point of diversion, they have to go to the state office and file the paperwork. It has not been filed yet because there is a bill attached to it. The fee will depend on how much water the ditch wants to pump out. They can pump up to 200 inches. It is going to cost about \$740.00 which is a one-time fee. They don't think they will need to pump out more than 200 inches at the most. That is about an average figured throughout the summer. If you go over the fee keeps increasing. It was figured that there were about 800 acre feet that was waisted last year.
- After filing the paperwork there is a process just to have it approved.
- The diversion will create a more even flow.
- A motion will need to be made to continue the process
- If the application goes through it should just be a couple of months for it to happen.
- After it is approved they will have to design something to make it work. They could use a small pump.
- As soon as the payment is made they will start working on the project.
- Mr. Roland thinks it will damage downstream too much.
- Mr. Roland has 3 pumps down there and the diversion could potentially make it worse.
- Mr. Roland stated that he won't second the motion.
- Mrs. Stephens stated that the 3 pumps that he has are not in Little Willow Irrigation Districts control that it is not their responsibility.
- It was brought up that if you apply for a new diversion then that diversion has to be secondary to the old system.
- Mrs. Stephens made a motion to send the state the payment and to get the paperwork started.

Ditch Rider Input:

Mr. Tucheck measured the reservoir and it measured at 4,144 acre feet on 2/8/17. On the same day, last year, it was measured at 7,543 acre feet. Mr. Tucheck brought up that part of the emergency plan to give to the state is to get everyone's home number and addresses. Also, that the state wants the head gates cleared as well as the sage brush gone. He mentioned that the spraying license class is March 13th, 14th, 15th, 16th and 17th. He said that he has to go to the pro-application class due to that he is spraying near streams and on properties next to houses. This will cost \$200 for the class and \$150 for the Lice class.

The next board meeting is set for 2:00pm on April, 11th, 2017 located at the Ditch House.

President, Board of Directors

Secretary of Treasury

6/13/2017

Little Willow Irrigation District Board Meeting

Tuesday, June 13th, 2017 2:00 pm.

Location: 5700 Little Willow Road, Payette, Idaho 83661.

Attendants: Board members present: Mr. Dahnke, Mrs. Stephens, Mr. Roland
Ditch Rider Present: Jim Tucheck
Members present: Josh Hurst and Melissa Rawlins

Minutes June 2017 Meeting:

Minutes were presented and approved by the board.

Approve Bills /Financial Statement for June 2017:

The bills and financial statements were approved as presented.

Late Assessments for May 2017:

The assessments were presented to the board.

Points made by the board:

- Mr. Dahnke said they need to do some more measuring on the drop of the Wilson to see if getting the pipe will help the situation.
- It was suggested to run a pipe halfway and that it would need to be some structure built to get the water to go into the pipe on the Wilson.
- The board commented that everyone is pretty much on board with the measuring devices. Mr. Roland is still putting measuring devices in and there is one on Roe's land that he is having some troubles with due to the flat of the land and getting it to be measured. The board is aware of this situation.

Public Input:

- Mrs. Roland asked if the emails can be sent as landscape rather than portrait to help with the formatting.

New Business:

- There is a meeting scheduled for August 23rd for the protest letter. It was agreed upon to give it to the lawyer so he can handle it.

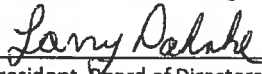

Old Business:

- There was no old business presented to the board.

Ditch Rider Input:

Mr. Tucheck said that the Wilson is getting old and has a leak. He has a price quote to put in a 18" pipe it would be about \$6,492 for an arched pipe and it would be about \$2900 to put a 100 ft pipe in the front of it. Mr. Tucheck is going to clean the Nelson ditch soon.

The next board meeting is set for 2:00pm on June 11th, 2017 located at the Ditch House.

President, Board of Directors

Secretary of Treasury

Re: Application for Transfer No. 81428 (Little Willow Irr. Dist.)

Dear Al:

I have enclosed with this letter Protestants' second set of written discovery requests to the District and the associated notice of service. In addition, the Protestants request that the District provide additional information in response to their Interrogatory No. 6. Among other things, that interrogatory requests information regarding the capacity of the diversions, the associated measuring devices, and the lands irrigated thereby. However, no information regarding capacity or measuring devices was provided in the District's September 21 responses, and very little information was provided regarding the lands irrigated. Therefore, please coordinate with the District to provide this responsive information. Please consider this a good faith attempt to meet and confer pursuant to Idaho Rule of Civil Procedure 37(a)(1).

Thank you for your attention to this matter.

Albert P. Barker

Attorneys for Little Willow Irrigation District

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF:	)	LITTLE WILLOW IRRIGATION
	)	DISTRICT'S SUPPLEMENTAL
APPLICATION FOR TRANSFER NO.	)	RESPONSES TO PROTESTANTS' FIRST
81482 IN THE NAME OF LITTLE	)	SET OF INTERROGATORIES AND
WILLOW IRRIGATION DISTRICT	)	REQUESTS FOR PRODUCTION;
	)	AND RESPONSES TO PROTESTANTS'
	)	SECOND SET OF INTERROGATORIES
	)	AND REQUESTS FOR PRODUCTION
	)	

COMES NOW, the Applicant, Little Willow Irrigation District ("Little Willow"), by and through its attorneys of record, Barker Rosholt & Simpson LLP, pursuant to the Idaho Rules of Civil Procedure, and hereby responds to *Protestants' First Set of Interrogatories and Requests for Production and Protestants' Second Set of Interrogatories and Requests for Production* as follows:

GENERAL OBJECTIONS

1. Little Willow objects to the Discovery Requests and to the definitions and instructions to the extent they purport to require discovery responses beyond that required under

LITTLE WILLOW IRRIGATION DISTRICT'S SUPPLEMENTAL RESPONSES TO PROTESTANTS' FIRST SET OF INTERROGATORIES AND REQUESTS FOR PRODUCTION; AND RESPONSES TO PROTESTANTS' SECOND SET OF INTERROGATORIES AND REQUESTS FOR PRODUCTION

the Idaho Rules of Civil Procedure. These responses are provided in accordance with the Idaho Rules of Civil Procedure irrespective of any definitions and instructions that may accompany the discovery requests.

2. These responses are made subject to all objections as to competence, relevance, materiality and admissibility. These responses are subject to all objections that would require the exclusion of any statement, material or information herein provided if such requests were asked of, or any statement, material or information provided were made by witness present and testifying at hearing. All such objections are reserved and may be interposed at the time of hearing.

3. Little Willow specifically objects to the Requests for Production to the extent they seek information protected by the attorney-client privilege, the accountant-client privilege, the work product doctrine and the rules governing the discovery relating to experts as set forth in Rule 26(b)(4). The objection is intended to apply to all the discovery requests that seek such information and will not be repeated specifically for each request to which it applies. Little Willow, to the extent possible, construed each request as requesting only information and/or documents not subject to any applicable protection.

4. No incidental or implied admissions are intended. The fact that Little Willow has responded to any discovery request, or part thereof, should not be taken as an admission that they accept that the discovery request or the response or objection thereto constitutes admissible evidence. Similarly, the fact that Little Willow has responded to all or part of a request is not intended to and shall not be construed to be a waiver by Little Willow of all or part of any objection to other requests. Little Willow's answers to any discovery requests herein do not

constitute a waiver of their right to object to any future additional, or supplemental discovery requests regarding the same or similar matters.

5. Each of these objections is incorporated into the response to each of the Discovery Requests as though set forth verbatim therein.

6. Discovery is ongoing and these responses may be incomplete. Little Willow reserves the right to supplement these responses in the future accordingly and pursuant to the Idaho Rules of Civil Procedure.

INTERROGATORIES

INTERROGATORY NO. 6: For each of the District's existing points of diversion, please identify the location of the point of diversion, the diversion works and capacity, any associated measuring devices, the canal or other delivery facility associated with the point of diversion, the lands irrigated from the point of diversion, and the associated landowners.

ANSWER TO INTERROGATORY NO. 6: The District's existing points of diversion are as follows:

1. **McIntyre diversion:** concrete structure with outlet from Creek to McIntyre ditch.
2. **Bolton diversion:** concrete structure with boards to divert water from Creek to Bolton Ditch
3. **Pump system on Humphrey's property:** pumps water from Creek to sprinkler system on Humphrey's land.
4. **Patton diversion:** concrete structure diverts water from Creek into Patton ditch. Water travels down Patton approximately one (1) mile, and splits into Nelson ditch, and also travels on down Patton ditch. One pump is also at this location to water Pat Kelly's property.
5. **Wilson diversion:** dirt dam into concrete structure that diverts into Wilson ditch from Creek.

Aerial photographs of the District's place of use and points of diversion are included with the Application.

SUPPLEMENTAL ANSWER TO INTERROGATORY NO. 6: The District hereby supplements its previous Answer to Interrogatory No. 6 by identifying the estimated capacity of the diversions as follows:

1. The McIntyre diversion has a capacity of approximately 850”;
2. The Bolton diversion has a capacity of approximately 600” ;
3. The Patton diversion has a capacity of approximately 1,000”;
4. The Wilson diversion has a capacity of approximately 500”; and
5. The Nelson ditch takes water from the Patton ditch below the Patton diversion. It can carry about 500” of water previously diverted into the Patton ditch.

The number of acres irrigated and the current landowners who own the land irrigated from the diversions, is set forth in the chart attached hereto as Exhibit A. The rights, however, of each of the landowners are associated with all of the District's water rights. In other words, the lands are not necessarily required to be irrigated from the individual diversion listed in Exhibit A. Because the lands are situated within the boundaries of the irrigation district, the lands can be irrigated by any feasible means of irrigation from the irrigation district's facilities.

INTERROGATORY NO. 11: Please explain how you calculated the requested diversion rate in the pending transfer Application.

ANSWER TO INTERROGATORY NO. 11: The amount of water requested in the transfer is 4.0 cfs or approximately 200”. The amount was estimated based on the flows available in the creek at that location. This point of diversion is located above the Wilson diversion, which

diverts the entire flow of the creek. Diversion of water from this new point of diversion will be under the control of the Irrigation District's ditch rider. The Irrigation District will manage and control this water in the same fashion that it controls water for all of the other users on the system. When the water user has reached the allotment of water set by the Irrigation District Board, no further diversions will be allowed. The land irrigated from this point of diversion is land owned by Daryl Horst. His 150 acres of land will be irrigated through the pump that will be installed if the Application is approved by the Department. Any water diverted from the creek at this location in excess of the Horst rights would be pumped either to the Patton ditch or the Nelson ditch, depending on where it could be of greatest use to the District's landowners.

REQUESTS FOR PRODUCTION

REQUEST FOR PRODUCTION NO. 17: Please produce any and all documents recording, describing, or reflecting water storage levels in Paddock Reservoir going back to 2001, including any meeting minutes of the District or its Board of Directors.

RESPONSE TO REQUEST FOR PRODUCTION NO. 17: Attached hereto are Minutes of the Irrigation District between 2006 and present (bates coded as LWID 1-96). Earlier Minutes have not been located in the District's files. The storage levels in Paddock Reservoir were reported periodically by the ditch rider to the Board and recorded in these Minutes. At this time, the Irrigation District has not located any other documentary evidence recording the water storage levels in Paddock Reservoir.

REQUEST FOR PRODUCTION NO. 18: Please produce any photographs of the District's points of diversion and associated measuring devices.

RESPONSE TO REQUEST FOR PRODUCTION NO. 18: The District has no photographs of its points of diversion or measuring devices.

DATED this 22 day of December, 2017.

BARKER RSHOLT & SIMPSON LLP

Albert P. Barker

Attorneys for Little Willow Irrigation District

VERIFICATION

I, **LARRY DAHNKE**, declare, under penalty of perjury pursuant to the laws of the State of Idaho, that I have read *Little Willow Irrigation District's Supplemental Responses to Protestants' First Set of Interrogatories and Requests for Production; and Responses to Protestants' Second Set of Interrogatories and Requests for Production* and such responses above are true, accurate and complete to the best of my knowledge and belief.

DATED this 22 day of December, 2017.

Larry Dahnke, President
Little Willow Irrigation District

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 22 day of December, 2017, I caused to be served a true and correct copy of the foregoing **LITTLE WILLOW IRRIGATION DISTRICT'S SUPPLEMENTAL RESPONSES TO PROTESTANTS' FIRST SET OF INTERROGATORIES AND REQUESTS FOR PRODUCTION; AND RESPONSES TO PROTESTANTS' SECOND SET OF INTERROGATORIES AND REQUESTS FOR PRODUCTION** by the method indicated below, and addressed to each of the following:

Exhibit B

RESUME

David Shaw, Engineer/Principal

EDUCATION

M.S. 1972, Agricultural Engineering, University of Idaho

B.S. 1966, Agricultural Engineering, University of Idaho

CERTIFICATIONS AND AFFILIATIONS

National Council of Examiners for Engineering and Surveying, NCEES #16269

American Society of Agricultural and Biological Engineers

U.S. Committee on Irrigation and Drainage

Idaho Society of Professional Land Surveyors

Idaho Certified Water Right Examiner

Oregon Certified Water Right Examiner, #74051WRE

LICENSURE

Professional Engineer and Land Surveyor, Idaho, #2648

Professional Engineer, Oregon, #74051PE

Professional Engineer, Arizona, #40134

Professional Engineer, Colorado, #415169

BACKGROUND

David is an engineer and principal in the Denver-based natural resources consulting firm of ERO Resources Corporation (ERO). For over 20 years, David has managed ERO's Idaho office. He specializes in the identification, analysis, and resolution of water issues including coordination with other professionals in multidisciplinary projects. David has more than 40 years of experience and expertise in water resources and management, covering a broad spectrum of disciplines including surface and ground water supply and use studies, water right evaluations, water quality evaluation and monitoring, project management, alternative dispute resolution, litigation support and expert witness testimony, and technical input on legislative and administrative matters.

SUMMARY OF EXPERIENCE

Water Right Investigations

For 11 years, acted as project manager for IDWR's role in the SRBA. An understanding of water rights and management ability were essential for the successful development of the criteria and process for the identification and evaluation of 150,000 claims to water rights. David continues to assist clients with water right investigations including adjudication and administrative processing, evaluation and transfer, and the development of new rights and protection of senior rights.

Litigation Support and Alternative Dispute Resolution

Designated as an expert in water right adjudications by the SRBA court. Provides expert testimony before the court on all aspects of water right adjudications as well as hydrology and water right administration issues. Provides expert testimony and settlement support for storm water conflicts and right-of-way issues between water users and nonwater users.

Water Supply Evaluations, Development, and Permitting

Assists clients with the permitting and development of water uses. A water supply evaluation is required for most new water right filings and for many filings for changes. Delivery system designs are sometimes included with the development and supply evaluations.

Water Quality Evaluation, Monitoring, and Management

Experienced in designing and implementing water quality monitoring programs for various water users. This includes knowledge of state standards and Total Maximum Daily Load requirements, and how water users can help protect their water uses with water quality data.

Project Experience:

Water Right Investigations

Surface Water Coalition, ID

Provided analysis and recommendations for resolution of water delivery call by senior surface water users against junior ground water users. Analyzed historical water distribution practices for delivery of storage and natural flow water to preserve historical enjoyment of the water resource.

Snake River Basin Adjudication, ID

Developed criteria and procedures to investigate the existence and extent of tens of thousands of water rights.

Little Land and Livestock, Inc., ID

Evaluated water rights for a potential land purchase. Secured new water rights for development of additional land for irrigated agriculture. Provided technical analysis to resolve conflicts between potential new water use and existing water uses.

Modoc Point Irrigation District, OR

Determined the extent of water use for irrigation in support of water right claims in the Klamath River Adjudication.

Litigation Support and Alternative Dispute Resolution

Office of the Idaho Attorney General, ID

Designated by the SRBA court as an expert in water right adjudications. Provided mediation support for resolution of federal reserved water rights. Acted as hydrology expert for litigation of federal reserved water right claims.

Surface Water Coalition, ID

Provided mediation support and expert testimony in support of water delivery call by senior surface water users.

Settlers Irrigation District, ID

Provided mediation support and expert testimony to resolve conflict over irrigation district rights-of-way and encroachment from storm water discharge.

Middle Fork Lodge, ID

Provided expert testimony to establish right-of-way for water delivery prior to creation of a wilderness area and designation of the forest.

Shoshone-Bannock Reserved Water Right Negotiations, ID

Acted as co-chair of the state, Indian, federal, and private technical advisory committee.

Riddle Ranch, ID

Served as technical expert/negotiator for resolution of federal reserved water rights of the Duck Valley Indian Reservation.

Methow Valley Ditch Users Association, WA

Analyzed ground water/surface water interaction and supply.

Federal Instream Flow Coalition, ID

Provided mediation support for resolution of federal reserved water rights and Endangered Species Act water demands.

Idaho Office of the Attorney General, ID

Acted as hydrology expert for litigation of federal reserved water rights.

Water Supply Evaluations, Development, and Permitting

Idaho Office of the Attorney General, ID

Evaluated the surface water supply of a river drainage basin for equitable allocation among state law-based water right water users and federal reserved-based water right water users.

Surface Water Coalition, ID

Evaluated the impact of surface water supply by the diversion and use of ground water.

Idaho Power Co., ID

Evaluated the impact of the proposed development of the company's water supply for power generation.

Big Lost River Basin, ID

Provided expertise regarding the surface and ground water hydrology and the administration requirements for a ground water recharge project.

District Water Supply, Boise River, ID

Evaluated the impact of a proposed water right transfer on irrigation. Identified and quantified changes to ground and surface water supply if the transfer was approved.

City of Coeur d'Alene, ID

Prepared an application for consolidation of all city water rights to allow for full use of the water rights and development of a new well.

Federal Instream Flow Coalition, ID

Evaluated the hydrologic impact of the historical water development in southern Idaho on river flows for Endangered Species Act-listed salmonids.

Water Quality Evaluation, Monitoring, and Management

Pioneer Irrigation District, ID

Provided project design, implementation, and management for their water quality sampling program.

Wilder Irrigation District, ID

Provided project design, implementation, and management for their water quality sampling program.

Water Users in Owyhee County, ID

Provided project design, implementation, and management for their water quality sampling program.
