RE: Water Right Permits 65-13470, 65-13640, 65-13704, 65-13751 and 65-22911

Dear Permit Holder(s):

The Idaho Department of Water Resources (Department) is reviewing the permits referenced above prior to issuing a water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permits have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment forms depict the elements of the water rights as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign and return the forms with the \$100.00 filing fee per water right or \$500.00 within 14 days or by February 5, 2018.

If you have any questions, please don't hesitate to contact me.

Sincerely,

Daniel A. Nelson
