3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Narrative: The Department received this application on December 28, 2017. The applicant wishes to place 73 acres of 120 acres in the Bank. Luke Marchant, attorney for the applicant, signed the application. This right was licensed in 1993. Portions were placed in the Bank from 2011-2016. Memo from Steve Loster attached to 2011 application states an affidavit was received stating the entire 120 acres were irrigated in 2007. Aerial photos showed no irrigation but Dept. lacked the evidence to dispute affidavit. Benefit of doubt was given and portion of the right was placed in the Bank. Aerial photos suggest irrigation took place on the east 1/3 of the land and sporadically on the west 2/3. Forfeiture is not an issue. This is a groundwater right and is not within a WD currently.
