Subject: Re: Randy Purser Right of Way

Hi James-

Mr Purser came in and filed his application for a right-of-way on April 12, 2017, BLM serialized the application under IDI-38415. In order to process the right-of-way I need to do a field visit with my archaeologist which Mr. Purser agreed to meet us out there and show us the ditch. Unfortunately when he came in field work and priorities were pretty well laid out for the summer. I definitely would like to get a field visit scheduled so that I can move forward with the application. We do not see any concerns with this application. I have Randy's email so I will email him to set up a field visit so that we can get things going. It is really just a matter of a heavy workload and backlog in our office.

As with similar situations, I believe that Fred would "resolve" the BLM's protest now that Mr. Purser has applied for the right-of-way and then a condition would be added that a BLM ROW must be obtained. If you talk to Fred and he is not okay with that let me know and we can see what we can do.

Thank you,
Becky

Becky,

In February 2017, Randy Purser filed an application for transfer to change the point of diversion for his Big Lost River rights to the 3-in-1 Ditch, on BLM Ground. Fred Price filed a protest, contending that Purser needed an approved ROW from BLM before the transfer application could be approved.

According to Purser, he has already met with someone at BLM to complete the paperwork for the ROW, but has not heard back whether the ROW was approved. Can you give me an update on the Purser Right of Way application? If it has already been approved, I will contact Fred Price and ask him to withdraw the BLM's protest.

Thanks for your help.
